(2) "Department", the department of health and senior services;
(3) "Facility", a long-term care facility licensed under this chapter;
(4) "IDR", informal dispute resolution as provided for in this section;
(5) "Independent third party", the federally designated Medicare Quality Improvement Organization in this state;
(6) "Plan of correction", a facility's response to deficiencies which explains how corrective action will be accomplished, how the facility will identify other residents who may be affected by the

deficiency practice, what measures will be used or systemic changes made to ensure that the deficient practice will not reoccur, and how the facility will monitor to ensure that solutions are sustained;

(7) "QIO", the federally designated Medicare Quality Improvement Organization in this state.

3. The department of health and senior services shall contract with an independent third party to conduct informal dispute resolution (IDR) for facilities licensed under this chapter. The IDR process, including conferences, shall constitute an informal administrative process and shall not be construed to be a formal evidentiary hearing. Use of IDR under this section shall not waive the facility's right to pursue further or additional legal actions.

4. The department shall establish an IDR process to determine whether a cited deficiency as evidenced by a statement of deficiencies against a facility shall be upheld. The department shall promulgate rules to incorporate by reference the provisions of 42 CFR 488.331 regarding the IDR process and to include the following minimum requirements for the IDR process:

(1) Within ten working days of the end of the survey, the department shall by ~~certified mail~~ **a delivery service that provides dated receipt of delivery** transmit to the facility a statement of deficiencies committed by the facility. (2) Within ten ~~calendar~~ **working** days of receipt of the statement of deficiencies, the facility shall return a plan of correction to the department. Within such ten-day period, the facility may request in writing an IDR conference to refute the deficiencies cited in the statement of deficiencies;

(3) Within ten working days of receipt **of a request** for an IDR conference made by a facility, the QIO shall hold an IDR conference unless otherwise requested by the facility. The IDR conference shall provide the facility with an opportunity to provide additional information or clarification in support of the facility's contention that the deficiencies were erroneously cited. The facility may be accompanied by counsel during the IDR conference. The type of IDR held shall be at the discretion of the facility, but shall be limited to:

(a) A desk review of written information submitted by the facility; or

(b) A telephonic conference; or

(c) A face-to-face conference held at the headquarters of the QIO or at the facility at the request of the facility.

If the QIO determines the need for additional information, clarification, or discussion after conclusion of the IDR conference, the department and the facility shall be present.

5. Within ten days of the IDR conference described in subsection 4 of this section, the QIO shall make a determination, based upon the facts and findings presented, and shall transmit the decision and rationale for the outcome in writing to the facility and the department.

6. If the department disagrees with such determination, the department shall transmit the department's decision and rationale for the reversal of the QIO's decision to the facility within ten calendar days of receiving the QIO's decision.

7. If the QIO determines that the original statement of deficiencies should be changed as a result of the IDR conference, the department shall transmit a revised statement of deficiencies to the facility with the notification of the determination within ten calendar days of the decision to change the statement of deficiencies.

8. Within ten calendar days of receipt of the determination made by the QIO and the revised statement of deficiencies, the facility shall submit a plan of correction to the department.

9. The department shall not post on its website or enter into the Centers for Medicare & Medicaid Services Online Survey, Certification and Reporting System, or report to any other agency, any information about the deficiencies which are in dispute unless the dispute determination is made and the facility has responded with a revised plan of correction, if needed.

10. Any rule or portion of a rule, as that term is defined in section 536.010, that is created under the authority delegated in this section shall become effective only if it complies with and is subject to all of the provisions of chapter 536 and, if applicable, section 536.028. This section and chapter 536 are nonseverable and if any of the powers vested with the general assembly pursuant to chapter 536 to review, to delay the effective date, or to disapprove and annul a rule are subsequently held unconstitutional, then the grant of rulemaking authority and any rule proposed or adopted after August 28, 2009, shall be invalid and void.

Such delinquency shall not affect the authorization of the application for such tax credits, except that the amount of credits issued shall be reduced by the applicant's tax delinquency. If the department of revenue or the department of commerce and insurance concludes that a taxpayer is delinquent after June fifteenth but before July first of any year, and the application of tax credits to such delinquency causes a tax deficiency on behalf of the taxpayer to arise, then the taxpayer shall be granted thirty days to satisfy the deficiency in which interest, penalties, and additions to tax shall be tolled. After applying all available credits towards a tax delinquency, the administering agency shall notify the appropriate department, and that department shall update the amount of outstanding delinquent tax owed by the applicant. If any credits remain after satisfying all insurance, income, sales, and use tax delinquencies, the remaining credits shall be issued to the applicant, subject to the restrictions of other provisions of law.

This section and chapter 536 are nonseverable and if any of the powers vested with the general assembly pursuant to chapter 536 to review, to delay the effective date, or to disapprove and annul a rule are subsequently held unconstitutional, then the grant of rulemaking authority and any rule proposed or adopted after August 28, 2004, shall be invalid and void.

2. The credit provided pursuant to this section shall not exceed an amount which bears the same ratio to the tax otherwise due pursuant to sections 143.005 to 143.998 as the amount of the taxpayer's Missouri adjusted gross income derived from sources in the other taxing jurisdiction bears to the taxpayer's Missouri adjusted gross income derived from all sources. In applying the limitation of the previous sentence to an estate or trust, Missouri taxable income shall be substituted for Missouri adjusted gross income. If the tax of more than one other taxing jurisdiction is imposed on the same item of income, the credit shall not exceed the limitation that would result if the taxes of all the other jurisdictions applicable to the item were deemed to be of a single jurisdiction.

3. **(1)** For the purposes of this section, in the case of an S corporation, each resident S shareholder shall be considered to have paid a tax imposed on the shareholder in an amount equal to the shareholder's pro rata share of any net income tax paid by the S corporation to a state which does not measure the income of shareholders on an S corporation by reference to the income of the S corporation or where a composite return and composite payments are made in such state on behalf of the S shareholders by the S corporation.

Disapproval of any training project shall be made in writing and state the reasons for such disapproval. This payment shall constitute a lien upon the qualified company's business property until paid, shall have equal priority with ordinary taxes and shall not be divested by a judicial sale. Property subject to such lien may be sold for sums due and delinquent at a tax sale, with the same forfeitures, penalties, and consequences as for the nonpayment of ordinary taxes. The purchasers at a tax sale shall obtain the property subject to the remaining payments.

Such portion shall be an amount equal to two and one-half percent of the gross wages paid by the qualified company for each of the first one hundred jobs included in the project and one and one-half percent of the gross wages paid by the qualified company for each of the remaining jobs included in the project. If business or employment conditions cause the amount of the new or retained jobs credit from withholding to be less than the amount projected in the agreement for any time period, then other withholding tax paid by the qualified company under sections 143.191 to 143.265 shall be credited to the applicable fund by the amount of such difference. The qualified company shall remit the amount of the new or retained jobs credit, **or both, if applicable**, to the department of revenue in the manner prescribed in sections 143.191 to 143.265. When all training ~~[program]~~ **project** costs have been paid, the new or retained jobs credits, **or both, if applicable**, shall cease;

(5) The qualified company shall certify to the department of revenue that the new or retained jobs credit, **or both, if applicable**, is in accordance with an agreement and shall provide other information the department of revenue may require;

(6) An employee participating in a training project shall receive full credit under section 143.211 for the amount designated as a new or retained jobs credit;

(7) If an agreement provides that all or part of training ~~[program]~~ **project** costs are to be met by receipt of new or retained jobs credit, **or both, if applicable**, the provisions of this subsection shall also apply to any successor to the original qualified company until the principal and interest on the certificates have been paid.

~~[8.]~~ **9.** To provide funds for the present payment of the training project costs ~~[of new or retained jobs training project]~~ through the ~~[training]~~ **Missouri one start** program **as provided in this section**, a community college district may borrow money and issue and sell certificates payable from a sufficient portion of the future receipts of payments authorized by the agreement including disbursements from the ~~[Missouri one start community college new jobs training fund or the Missouri one start community college job retention training fund]~~ **funds established under this section**, to the special fund established by the community college district for each **training** project. The refunding certificates may be exchanged in payment and discharge of the certificates being refunded, in installments at different times or an entire issue or series at one time. Refunding certificates may be sold or exchanged at any time on, before, or after the maturity of the outstanding certificates to be refunded. They may be issued for the purpose of refunding a like, greater, or lesser principal amount of certificates and may bear a rate of interest that is higher, lower, or equivalent to that of the certificates being renewed or refunded.

~~[40-]~~ 11. Before certificates are issued, the board of trustees shall publish once a notice of its intention to issue the certificates, stating the amount, the purpose, and the project or projects for which the certificates are to be issued. A person with standing may, within fifteen days after the publication of the notice, by action in the circuit court of a county in the district, appeal the decision of the board of trustees to issue the certificates. The action of the board of trustees in determining to issue the certificates shall be final and conclusive unless the circuit court finds that the board of trustees has exceeded its legal authority. An action shall not be brought which questions the legality of the certificates, the power of the board of trustees to issue the certificates, the effectiveness of any proceedings relating to the authorization of the project, or the authorization and issuance of the certificates from and after fifteen days from the publication of the notice of intention to issue.

~~[41-]~~ 12. The board of trustees shall make a finding based on information supplied by the qualified company that revenues provided in the agreement are sufficient to secure the faithful performance of obligations in the agreement.

~~[42-]~~ 13. Certificates issued under this section shall not be deemed to be an indebtedness of the state, the community college district, or any other political subdivision of the state, and the principal and interest on any certificates shall be payable only from the sources provided in subdivision (1) of subsection ~~[4]~~ 5 of this section which are pledged in the agreement.

~~[43-]~~ 14. Pursuant to section 23.253 of the Missouri sunset act:

(5) "Grant", an amount of money equal to the total amount of eligible major convention event costs listed in an approved major convention plan to be disbursed at the requested date from the fund to an eligible commission by the state treasurer at the direction of the director which shall not exceed the

amount of estimated total sales taxes to be received by the state generated by sleeping rooms paid by guests of hotels and motels reasonably believed to be occupied due to the major convention event;

(6) "Major convention event", any convention if more than fifty percent of attendees travel to the convention from outside of Missouri and require overnight hotel accommodations;

(7) "Major convention plan", a written plan for the administration of a major convention event, containing such information as shall be requested by the director to establish that the event covered by the application is a major convention event including, but not limited to, the start and end dates of the major convention event, an identification of the organization planning the event, the location of the event, projected total and out-of-state attendance, projected contracted and actual hotel room nights, projected costs and revenues anticipated to be received by the eligible commission in connection with the event, the eligible major convention event costs, and evidence of satisfaction of the conditions of subsection 5 of this section.

3. (1) There is hereby created in the state treasury the "Major Economic Convention Event in Missouri Fund", which shall consist of moneys appropriated from the general revenue fund as prescribed in subsection 6 of this section and any gifts, contributions, grants, or bequests received from federal, private, or other sources. The state treasurer shall be custodian of the fund. In accordance with sections 30.170 and 30.180, the state treasurer may approve disbursements. The fund shall be a dedicated fund and, upon appropriation, moneys in the fund shall be used solely for the administration of this section.

(2) Notwithstanding the provisions of section 33.080 to the contrary, any moneys remaining in the fund at the end of the biennium shall not revert to the credit of the general revenue fund.

4. For major convention plans which have complied with subsection 5 of this section, in addition to funds otherwise made available under Missouri law, a grant shall be paid from the fund by the department of economic development to the eligible commission at the requested date. Any transfer of a grant from the fund to the treasurer or other designated financial officer of an eligible commission with an approved major convention plan shall be deposited in a separate, segregated account of such commission. The eligible commission shall agree to hold such funds until the major convention event has occurred and not disburse the funds until such time as the report in subsection 7 has been submitted.

(c) Without the grant, the major convention event would not be reasonably anticipated to occur in Missouri; and

6. (1) Upon verification that the major convention plan complies with the terms of subsection 5 of this section, the director or his or her designee shall issue a certificate of approval to the eligible commission stating the date on which such grant shall be disbursed and the total amount of the grant, which shall be equal to the eligible major convention event costs listed in the approved major convention plan. (2) All approved grants scheduled for disbursement each year shall be disbursed from the general revenue fund subject to appropriation by the general assembly. Any such appropriation shall not exceed three million dollars in any year.

(3) Upon such annual appropriation and transfer into the fund from the general revenue fund, the director shall disburse all grants pursuant to certificates of approval.

(1) Within one hundred eighty days of the conclusion of any major convention event for which a grant was disbursed under this section, the eligible commission that received such grant shall provide a written report to the director detailing the final amount of eligible major convention event costs incurred and actual attendance figures which certify compliance with this section. If the final amount of total eligible major convention event costs is less than the amount of the grant disbursed to the eligible commission under an approved major convention plan, such commission shall refund to the state treasurer the excess greater than fifty percent of the actual cost for deposit into the fund.

(2) An eligible commission shall refund the following amounts to the state treasurer based on the actual attendance figures in relation to the projected total attendance for the event as provided in the major convention plan:

(a) If the actual attendance figure is less than twenty-five percent of the projected total attendance, the commission shall refund an amount equal to the full amount of the grant;

(b) If the actual attendance figure is equal to or less than eighty-five percent and greater than or equal to twenty-five percent of the projected total attendance, the commission shall keep a portion of the grant received under this section equal to the proportion of the actual attendance figure to the projected attendance figure rounded to the nearest dollar and refund the remaining amount;

(c) If the actual attendance figure is greater than eighty-five percent of the projected total attendance, the commission shall keep the entire grant amount received under this section unless otherwise provided by this section.

(3) The provisions of this subdivision shall not apply where attendance at the convention is adversely affected by a man-made disaster including, but not limited to, an uprising or other civil unrest or where attendance at the convention is adversely affected by a substantial inclement weather-related event.

8. Any amounts that are refunded from a grant under this section shall be returned to the major economic convention event in Missouri fund to be used for future grants.

— 1. The department shall respond to a written request, by or on behalf of a qualified company or qualified military project, for a proposed benefit award under the provisions of this program within five business days of receipt of such request. The department shall respond to a written request, by or on behalf of a qualified manufacturing company, for a proposed benefit award under the provisions of this program within fifteen business days of receipt of such request. Such response shall contain either a proposal of benefits for the qualified company or qualified military project, or a written response refusing to provide such a proposal and stating the reasons for such refusal. A qualified company or qualified military project that intends to seek benefits under the program shall submit to the department a notice of intent. The department shall respond within thirty days to a notice of intent with an approval or a rejection, provided that the department may withhold approval or provide a contingent approval until it is satisfied that proper documentation of eligibility has been provided. The department shall certify or reject the qualifying company's plan outlined in their notice of intent as satisfying good faith efforts made to employ, at a minimum, commensurate with the percentage of minority populations in the state of Missouri, as reported in the previous decennial census, the following: racial minorities, contractors who are racial minorities, and contractors that, in turn, employ at a minimum racial minorities commensurate with the percentage of minority populations in the state of Missouri, as reported in the previous decennial census. Failure to respond on behalf of the department shall result in the notice of intent being deemed approved. A qualified company receiving approval for program benefits may receive additional benefits for subsequent new jobs at the same facility after the full initial project period if the applicable minimum job requirements are met. There shall be no limit on the number of project periods a qualified company may participate in the program, and a qualified company may elect to file a notice of intent to begin a new project period concurrent with an existing project period if the applicable minimum job requirements are achieved, the qualified company provides the department with the required annual reporting, and the qualified company is in compliance with this program and any other state programs in which the qualified company is currently or has previously participated. However, the qualified company shall not receive any further program benefits under the original approval for any new jobs created after the date of the new notice of intent, and any jobs created before the new notice of intent shall not be included as new jobs for purposes of the benefit calculation for the new approval. When a qualified company has filed and received approval of a notice of intent and subsequently files another notice of intent, the department shall apply the definition of project facility under subdivision (24) of section 620.2005 to the new notice of intent as well as all previously approved notices of intent and shall determine the application of the definitions of new job, new payroll, project facility base employment, and project facility base payroll accordingly.

2. Notwithstanding any provision of law to the contrary, the benefits available to the qualified company under any other state programs for which the company is eligible and which utilize withholding tax from the new or retained jobs of the company shall first be credited to the other state program before the withholding retention level applicable under this program will begin to accrue. If any qualified company also participates in a job training program utilizing withholding tax, the company shall retain no withholding tax under this program, but the department shall issue a refundable tax credit for the full amount of benefit allowed under this program. The calendar year annual maximum amount of tax credits which may be issued to a qualifying company that also participates in a job training program shall be increased by an amount equivalent to the withholding tax retained by that company under a jobs training program.

3. A qualified company or qualified military project receiving benefits under this program shall provide an annual report of the number of jobs, along with minority jobs created or retained, and such other information as may be required by the department to document the basis for program benefits available no later than ninety days prior to the end of the qualified company's or industrial development authority's tax year immediately following the tax year for which the benefits provided under the

program are attributed. In such annual report, if the average wage is below the applicable percentage of the county average wage, the qualified company or qualified military project has not maintained the employee insurance as required, if the department after a review determines the qualifying company fails to satisfy other aspects of their notice of intent, including failure to make good faith efforts to employ, at a minimum, commensurate with the percentage of minority populations in the state of Missouri, as reported in the previous decennial census, the following: racial minorities, contractors who are racial minorities, and contractors that, in turn, employ at a minimum racial minorities commensurate with the percentage of minority populations in the state of Missouri, as reported in the previous decennial census, or if the number of jobs is below the number required, the qualified company or qualified military project shall not receive tax credits or retain the withholding tax for the balance of the project period. **If a statewide state of emergency exists for more than sixteen months, a qualified company or industrial development authority shall be entitled to a one-time suspension of program deadlines equal to the number of months such statewide state of emergency existed with any partial month rounded to the next whole. During such suspension, the qualified company or industrial development authority shall not be entitled to retain any withholding tax as calculated under subdivision (38) of section 620.2005 nor shall it earn any awarded tax credit or receive any tax credit under the program for the suspension period. The suspension period shall run consecutively and be available to a qualified company or industrial development authority that, during the statewide state of emergency, submitted notice of intent that was approved or that was in year one or a subsequent year of benefits under a program agreement with the department. The suspension period that runs consecutively and may be available to a qualified company or industrial development authority as provided in this subsection may apply retroactively. Any qualified company or industrial development authority requesting a suspension pursuant to this subsection shall submit notice to the department on its provided form identifying the requested start and end dates of the suspension, not to exceed the maximum number of months available under this subsection. Such notice shall be submitted to the department not later than the end of the twelfth month following the termination of the state of emergency. No suspension period shall start later than the date on which the state of emergency was terminated. The department and the qualified company or the industrial development authority shall enter into a program agreement or shall amend an existing program agreement, as applicable, stating the deadlines following the suspension period and updating the applicable wage requirements.** Failure to timely file the annual report required under this section ~~shall~~ **may** result in the forfeiture of tax credits attributable to the year for which the reporting was required and a recapture of withholding taxes retained by the qualified company or qualified military project during such year.

4. The department may withhold the approval of any benefits under this program until it is satisfied that proper documentation has been provided, and shall reduce the benefits to reflect any reduction in full-time employees or payroll. Upon approval by the department, the qualified company may begin the retention of the withholding taxes when it reaches the required number of jobs and the average wage meets or exceeds the applicable percentage of county average wage. Tax credits, if any, may be issued upon satisfaction by the department that the qualified company has exceeded the applicable percentage of county average wage and the required number of jobs; provided that, tax credits awarded under subsection 7 of section 620.2010 may be issued following the qualified company's acceptance of the department's proposal and pursuant to the requirements set forth in the written agreement between the department and the qualified company under subsection 4 of section 620.2010.

5. Any qualified company or qualified military project approved for benefits under this program shall provide to the department, upon request, any and all information and records reasonably required to monitor compliance with program requirements. This program shall be considered a business recruitment tax credit under subdivision (4) of subsection 2 of section 135.800, and any qualified

company or qualified military project approved for benefits under this program shall be subject to the provisions of sections 135.800 to 135.830.

6. Any taxpayer who is awarded benefits under this program who knowingly hires individuals who are not allowed to work legally in the United States shall immediately forfeit such benefits and shall repay the state an amount equal to any state tax credits already redeemed and any withholding taxes already retained.

7. (1) The maximum amount of tax credits that may be authorized under this program for any fiscal year shall be limited as follows, less the amount of any tax credits previously obligated for that fiscal year under any of the tax credit programs referenced in subsection 14 of this section:

(a) For the fiscal year beginning on July 1, 2013, but ending on or before June 30, 2014, no more than one hundred six million dollars in tax credits may be authorized;

(b) For the fiscal year beginning on July 1, 2014, but ending on or before June 30, 2015, no more than one hundred eleven million dollars in tax credits may be authorized;

(c) For fiscal years beginning on or after July 1, 2015, but ending on or before June 30, 2020, no more than one hundred sixteen million dollars in tax credits may be authorized for each fiscal year; and

(d) For all fiscal years beginning on or after July 1, 2020, no more than one hundred six million dollars in tax credits may be authorized for each fiscal year. The provisions of this paragraph shall not apply to tax credits issued to qualified companies under a notice of intent filed prior to July 1, 2020.

(2) For all fiscal years beginning on or after July 1, 2020, in addition to the amount of tax credits that may be authorized under paragraph (d) of subdivision (1) of this subsection, an additional ten million dollars in tax credits may be authorized for each fiscal year for the purpose of the completion of infrastructure projects directly connected with the creation or retention of jobs under the provisions of sections 620.2000 to 620.2020 and an additional ten million dollars in tax credits may be authorized for each fiscal year for a qualified manufacturing company based on a manufacturing capital investment as set forth in section 620.2010.

8. For all fiscal years beginning on or after July 1, 2020, the maximum total amount of withholding tax that may be authorized for retention for the creation of new jobs under the provisions of sections 620.2000 to 620.2020 by qualified companies with a project facility base employment of at least fifty shall not exceed seventy-five million dollars for each fiscal year. The provisions of this subsection shall not apply to withholding tax authorized for retention for the creation of new jobs by qualified companies with a project facility base employment of less than fifty.

9. For tax credits for the creation of new jobs under section 620.2010, the department shall allocate the annual tax credits based on the date of the approval, reserving such tax credits based on the department's best estimate of new jobs and new payroll of the project, and any other applicable factors in determining the amount of benefits available to the qualified company or qualified military project under this program; provided that, the department may reserve up to twenty-one and one-half percent of the maximum annual amount of tax credits that may be authorized under subsection 7 of this section for award under subsection 7 of section 620.2010. However, the annual issuance of tax credits shall be subject to annual verification of actual payroll by the department or, for qualified military projects, annual verification of average salary for the jobs directly created by the qualified military project. Any authorization of tax credits shall expire if, within two years from the date of commencement of operations, or approval if applicable, the qualified company has failed to meet the applicable minimum job requirements. The qualified company may retain authorized amounts from the withholding tax under the project once the applicable minimum job requirements have been met for the duration of the project period. No benefits shall be provided under this program until the qualified company or qualified military project meets the applicable minimum new job requirements or, for benefits awarded under subsection 7 of section 620.2010, until the qualified company has satisfied the requirements set forth in the written agreement between the department and the qualified company under subsection 4 of section 620.2010. In the event the qualified company or qualified military project does not meet the applicable

minimum new job requirements, the qualified company or qualified military project may submit a new notice of intent or the department may provide a new approval for a new project of the qualified company or qualified military project at the project facility or other facilities.

10. Tax credits provided under this program may be claimed against taxes otherwise imposed by chapters 143 and 148, and may not be carried forward, but shall be claimed within one year of the close of the taxable year for which they were issued. Tax credits provided under this program may be transferred, sold, or assigned by filing a notarized endorsement thereof with the department that names the transferee, the amount of tax credit transferred, and the value received for the credit, as well as any other information reasonably requested by the department. For a qualified company with flow-through tax treatment to its members, partners, or shareholders, the tax credit shall be allowed to members, partners, or shareholders in proportion to their share of ownership on the last day of the qualified company's tax period.

11. Prior to the issuance of tax credits or the qualified company beginning to retain withholding taxes, the department shall verify through the department of revenue and any other applicable state department that the tax credit applicant does not owe any delinquent income, sales, or use tax or interest or penalties on such taxes, or any delinquent fees or assessments levied by any state department and through the department of commerce and insurance that the applicant does not owe any delinquent insurance taxes or other fees. Such delinquency shall not affect the approval, except that any tax credits issued shall be first applied to the delinquency and any amount issued shall be reduced by the applicant's tax delinquency. If the department of revenue, the department of commerce and insurance, or any other state department concludes that a taxpayer is delinquent after June fifteenth but before July first of any year and the application of tax credits to such delinquency causes a tax deficiency on behalf of the taxpayer to arise, then the taxpayer shall be granted thirty days to satisfy the deficiency in which interest, penalties, and additions to tax shall be tolled. After applying all available credits toward a tax delinquency, the administering agency shall notify the appropriate department and that department shall update the amount of outstanding delinquent tax owed by the applicant. If any credits remain after satisfying all insurance, income, sales, and use tax delinquencies, the remaining credits shall be issued to the applicant, subject to the restrictions of other provisions of law.

12. The director of revenue shall issue a refund to the qualified company to the extent that the amount of tax credits allowed under this program exceeds the amount of the qualified company's tax liability under chapter 143 or 148.

13. An employee of a qualified company shall receive full credit for the amount of tax withheld as provided in section 143.211.

14. Notwithstanding any provision of law to the contrary, beginning August 28, 2013, no new benefits shall be authorized for any project that had not received from the department a proposal or approval for such benefits prior to August 28, 2013, under the development tax credit program created under sections 32.100 to 32.125, the rebuilding communities tax credit program created under section 135.535, the enhanced enterprise zone tax credit program created under sections 135.950 to 135.973, and the Missouri quality jobs program created under sections 620.1875 to 620.1890. The provisions of this subsection shall not be construed to limit or impair the ability of any administering agency to authorize or issue benefits for any project that had received an approval or a proposal from the department under any of the programs referenced in this subsection prior to August 28, 2013, or the ability of any taxpayer to redeem any such tax credits or to retain any withholding tax under an approval issued prior to that date. The provisions of this subsection shall not be construed to limit or in any way impair the ability of any governing authority to provide any local abatement or designate a new zone under the enhanced enterprise zone program created by sections 135.950 to 135.963. Notwithstanding any provision of law to the contrary, no qualified company that is awarded benefits under this program shall:

(1) Simultaneously receive benefits under the programs referenced in this subsection at the same capital investment; or

(2) Receive benefits under the provisions of section 620.1910 for the same jobs.

15. If any provision of sections 620.2000 to 620.2020 or application thereof to any person or circumstance is held invalid, the invalidity shall not affect other provisions or application of these sections which can be given effect without the invalid provisions or application, and to this end, the provisions of sections 620.2000 to 620.2020 are hereby declared severable.

16. By no later than January 1, 2014, and the first day of each calendar quarter thereafter, the department shall present a quarterly report to the general assembly detailing the benefits authorized under this program during the immediately preceding calendar quarter to the extent such information may be disclosed under state and federal law. The report shall include, at a minimum:

(1) A list of all approved and disapproved applicants for each tax credit;

(2) A list of the aggregate amount of new or retained jobs that are directly attributable to the tax credits authorized;

(3) A statement of the aggregate amount of new capital investment directly attributable to the tax credits authorized;

(4) Documentation of the estimated net state fiscal benefit for each authorized project and, to the extent available, the actual benefit realized upon completion of such project or activity; and

(5) The department's response time for each request for a proposed benefit award under this program.

17. The department may adopt such rules, statements of policy, procedures, forms, and guidelines as may be necessary to carry out the provisions of sections 620.2000 to 620.2020. Any rule or portion of a rule, as that term is defined in section 536.010, that is created under the authority delegated in this section shall become effective only if it complies with and is subject to all of the provisions of chapter 536 and, if applicable, section 536.028. This section and chapter 536 are nonseverable and if any of the powers vested with the general assembly pursuant to chapter 536 to review, to delay the effective date, or to disapprove and annul a rule are subsequently held unconstitutional, then the grant of rulemaking authority and any rule proposed or adopted after August 28, 2013, shall be invalid and void.

18. Under section 23.253 of the Missouri sunset act:

(1) The provisions of the program authorized under sections 620.2000 to 620.2020 shall be reauthorized as of August 28, 2018, and shall expire on August 28, 2030; and

(2) If such program is reauthorized, the program authorized under this section shall automatically sunset twelve years after the effective date of the reauthorization of sections 620.2000 to 620.2020; and

(3) Sections 620.2000 to 620.2020 shall terminate on September first of the calendar year immediately following the calendar year in which the program authorized under sections 620.2000 to 620.2020 is sunset.

Applicants who withdraw their application before the department completes its evaluation shall be required to reimburse the department for costs incurred in the evaluation. The department shall not collect the fees authorized in this subdivision unless it complies with the time limits established in this section.

(7) When the review reveals that the facility or area does conform with the provisions of sections 260.200 to 260.345 and the rules and regulations adopted pursuant to sections 260.200 to 260.345, the department shall approve the application and shall issue a permit for the construction of each solid waste processing facility or solid waste disposal area as set forth in the application and with any permit terms and conditions which the department deems appropriate. In the event that the facility or area fails to meet the rules and regulations adopted pursuant to sections 260.200 to 260.345, the department shall issue a report to the applicant stating the reason for denial of a permit.

6. Plans, designs, and relevant data for the construction of solid waste processing facilities and solid waste disposal areas shall be submitted to the department by a registered professional engineer licensed by the state of Missouri for approval prior to the construction, alteration or operation of such a facility or area.

7. Any person or operator as defined in section 260.200 who intends to obtain a construction permit in a solid waste management district with an approved solid waste management plan shall request a recommendation in support of the application from the executive board created in section 260.315. The executive board shall consider the impact of the proposal on, and the extent to which the proposal conforms to, the approved district solid waste management plan prepared pursuant to section 260.325. The executive board shall act upon the request for a recommendation within sixty days of receipt and shall submit a resolution to the department specifying its position and its recommendation regarding

conformity of the application to the solid waste plan. The board's failure to submit a resolution constitutes recommendation of the application. The department may consider the application, regardless of the board's action thereon and may deny the construction permit if the application fails to meet the requirements of sections 260.200 to 260.345, or if the application is inconsistent with the district's solid waste management plan.

8. If the site proposed for a solid waste disposal area is not owned by the applicant, the owner or owners of the site shall acknowledge that an application pursuant to sections 260.200 to 260.345 is to be submitted by signature or signatures thereon. The department shall provide the owner with copies of all communication with the operator, including inspection reports and orders issued pursuant to section 260.230.

9. The department shall not issue a permit for the operation of a solid waste disposal area designed to serve a city with a population of greater than four hundred thousand located in more than one county, if the site is located within one-half mile of an adjoining municipality, without the approval of the governing body of such municipality. The governing body shall conduct a public hearing within fifteen days of notice, shall publicize the hearing in at least one newspaper having general circulation in the municipality, and shall vote to approve or disapprove the land disposal facility within thirty days after the close of the hearing.

10. (1) Upon receipt of an application for a permit to construct a solid waste processing facility or disposal area, the department shall notify the public of such receipt:

~~[(1)]~~ (a) By legal notice published in a newspaper of general circulation in the area of the proposed disposal area or processing facility;

~~[(2)]~~ (b) By certified mail to the governing body of the county or city in which the proposed disposal area or processing facility is to be located; and

~~[(3)]~~ (c) By mail to the last known address of all record owners of contiguous real property or real property located within one thousand feet of the proposed disposal area and, for a proposed processing facility, notice as provided in section 64.875 or section 89.060, whichever is applicable.

(2) If an application for a construction permit meets all statutory and regulatory requirements for issuance, a public hearing on the draft permit shall be held by the department in the county in which the proposed solid waste disposal area is to be located prior to the issuance of the permit. The department shall provide public notice of such hearing by both printed and broadcast media at least thirty days prior to such hearing. Printed notification shall include publication in at least one newspaper having general circulation within the county in which the proposed disposal area is to be located. Broadcast notification shall include public service announcements on radio stations that have broadcast coverage within the county in which the proposed disposal area is to be located.

11. After the issuance of a construction permit for a solid waste disposal area, but prior to the beginning of disposal operations, the owner and the department shall execute an easement to allow the department, its agents or its contractors to enter the premises to complete work specified in the closure plan, or to monitor or maintain the site or to take remedial action during the postclosure period. After issuance of a construction permit for a solid waste disposal area, but prior to the beginning of disposal operations, the owner shall submit evidence that ~~he or she~~ **such owner** has recorded, in the office of the recorder of deeds in the county where the disposal area is located, a notice and covenant running with the land that the property has been permitted as a solid waste disposal area and prohibits use of the land in any manner which interferes with the closure and, where appropriate, postclosure plans filed with the department.

12. Every person desiring to obtain a permit to operate a solid waste disposal area or processing facility shall submit applicable information and apply for an operating permit from the department. The department shall review the information and determine, within sixty days of receipt, whether it complies with the provisions of sections 260.200 to 260.345 and the rules and regulations adopted pursuant to sections 260.200 to 260.345. When the review reveals that the facility or area does conform with the

provisions of sections 260.200 to 260.345 and the rules and regulations adopted pursuant to sections 260.200 to 260.345, the department shall issue a permit for the operation of each solid waste processing facility or solid waste disposal area and with any permit terms and conditions which the department deems appropriate. In the event that the facility or area fails to meet the rules and regulations adopted pursuant to sections 260.200 to 260.345, the department shall issue a report to the applicant stating the reason for denial of a permit.

13. Each solid waste disposal area, except utility waste landfills unless otherwise and to the extent required by the department, and those solid waste processing facilities designated by rule, shall be operated under the direction of a certified solid waste technician in accordance with sections 260.200 to 260.345 and the rules and regulations promulgated pursuant to sections 260.200 to 260.345.

14. Base data for the quality and quantity of groundwater in the solid waste disposal area shall be collected and submitted to the department prior to the operation of a new or expansion of an existing solid waste disposal area. Base data shall include a chemical analysis of groundwater drawn from the proposed solid waste disposal area.

15. Leachate collection and removal systems shall be incorporated into new or expanded sanitary landfills which are permitted after August 13, 1986. The department shall assess the need for a leachate collection system for all types of solid waste disposal areas, other than sanitary landfills, and the need for monitoring wells when it evaluates the application for all new or expanded solid waste disposal areas. The department may require an operator of a solid waste disposal area to install a leachate collection system before the beginning of disposal operations, at any time during disposal operations for unfilled portions of the area, or for any portion of the disposal area as a part of a remedial plan. The department may require the operator to install monitoring wells before the beginning of disposal operations or at any time during the operational life or postclosure care period if it concludes that conditions at the area warrant such monitoring. The operator of a demolition landfill or utility waste landfill shall not be required to install a leachate collection and removal system or monitoring wells unless otherwise and to the extent the department so requires based on hazardous waste characteristic criteria or site specific geohydrological characteristics or conditions.

16. Permits granted by the department, as provided in sections 260.200 to 260.345, shall be subject to suspension for a designated period of time, civil penalty or revocation whenever the department determines that the solid waste processing facility or solid waste disposal area is, or has been, operated in violation of sections 260.200 to 260.345 or the rules or regulations adopted pursuant to sections 260.200 to 260.345, or has been operated in violation of any permit terms and conditions, or is creating a public nuisance, health hazard, or environmental pollution. In the event a permit is suspended or revoked, the person named in the permit shall be fully informed as to the reasons for such action.

17. Each permit for operation of a facility or area shall be issued only to the person named in the application. Permits are transferable as a modification to the permit. An application to transfer ownership shall identify the proposed permittee. A disclosure statement for the proposed permittee listing violations contained in the definition of disclosure statement found in section 260.200 shall be submitted to the department. The operation and design plans for the facility or area shall be updated to provide compliance with the currently applicable law and rules. A financial assurance instrument in such an amount and form as prescribed by the department shall be provided for solid waste disposal areas by the proposed permittee prior to transfer of the permit. The financial assurance instrument of the original permittee shall not be released until the new permittee's financial assurance instrument has been approved by the department and the transfer of ownership is complete.

18. Those solid waste disposal areas permitted on January 1, 1996, shall, upon submission of a request for permit modification, be granted a solid waste management area operating permit if the request meets reasonable requirements set out by the department.

19. In case a permit required pursuant to this section is denied or revoked, the person may request a hearing in accordance with section 260.235.

EXPLANATION--Matter enclosed in bold-faced brackets [thus] is not enacted and is intended to be omitted in the law. Matter in bold-face type is proposed language.

20. Every applicant for a permit shall file a disclosure statement with the information required by and on a form developed by the department of natural resources at the same time the application for a permit is filed with the department.

Upon request of the director of the department of natural resources, the applicant for a permit, any person that could reasonably be expected to be involved in management activities of the solid waste disposal area or solid waste processing facility, or any person who has a controlling interest in any permittee shall be required to submit to a criminal background check under section 43.543.

22. All persons required to file a disclosure statement shall provide any assistance or information requested by the director or by the Missouri state highway patrol and shall cooperate in any inquiry or investigation conducted by the department and any inquiry, investigation or hearing conducted by the director. If, upon issuance of a formal request to answer any inquiry or produce information, evidence or testimony, any person required to file a disclosure statement refuses to comply, the application of an applicant or the permit of a permittee may be denied or revoked by the director.

23. If any of the information required to be included in the disclosure statement changes, or if any additional information should be added after the filing of the statement, the person required to file it shall provide that information to the director in writing, within thirty days after the change or addition. The failure to provide such information within thirty days may constitute the basis for the revocation of or denial of an application for any permit issued or applied for in accordance with this section, but only if, prior to any such denial or revocation, the director notifies the applicant or permittee of the director's intention to do so and gives the applicant or permittee fourteen days from the date of the notice to explain why the information was not provided within the required thirty-day period. The director shall consider this information when determining whether to revoke, deny or conditionally grant the permit.

24. No person shall be required to submit the disclosure statement required by this section if the person is a corporation or an officer, director or shareholder of that corporation or any subsidiary thereof, and that corporation:

25. After permit issuance, each facility shall annually file an update to the disclosure statement with the department of natural resources on or before March thirty-first of each year. Failure to provide such update may result in penalties as provided for under section 260.240.

26. Any county, district, municipality, authority, or other political subdivision of this state which owns and operates a sanitary landfill shall be exempt from the requirement for the filing of the disclosure statement and annual update to the disclosure statement.

27. Any person seeking a permit to operate a solid waste disposal area, a solid waste processing facility, or a resource recovery facility shall, concurrently with the filing of the application for a permit, disclose any convictions in this state, county or county-equivalent public health or land use ordinances related to the management of solid waste. If the department finds that there has been a continuing pattern of adjudicated violations by the applicant, the department may deny the application.

28. No permit to construct or permit to operate shall be required pursuant to this section for any utility waste landfill located in a county of the third classification with a township form of government which has a population of at least eleven thousand inhabitants and no more than twelve thousand five hundred inhabitants according to the most recent decennial census, if such utility waste landfill complies

7. (1) The term of the agreement entered into pursuant to subsection 6 of this section shall not exceed ten years. A zone board may apply to the department for approval to renew any agreement. Such application shall be made on forms provided by the department. In determining whether to approve the renewal of an agreement, the department shall consider:

(a) The number of new jobs created and the average wage and net fiscal impact of such jobs;

(b) The outstanding improvements to be made within the TIME zone and the funding necessary to complete such improvements; and

(c) Any other factor the department requires.

(2) The department may approve the renewal of an agreement for a period not to exceed ten years. If a zone board has not met the new job requirements pursuant to subdivision (2) of subsection 6 of this section by the end of the agreement, the department shall recapture from such zone board the amount of withholding tax retained by the zone board pursuant to this section and the department shall not approve the renewal of an agreement with such zone board.

(3) A zone board shall not retain any withholding tax pursuant to this section in excess of the costs of improvements completed by the zone board.

8. If a qualified company is retaining withholding tax pursuant to sections 620.2000 to 620.2020 for new jobs, as such terms are defined in section 620.2005, that also qualify for the retention of withholding tax pursuant to this section, the department shall not authorize an agreement pursuant to this section that results in more than fifty percent of the withholding tax for such new jobs being retained pursuant to this section and sections 620.2000 to 620.2020.

10. There is hereby created in the state treasury the "TIME Zone Fund", which shall consist of money collected under this section. The state treasurer shall be custodian of the fund and may approve disbursements from the fund in accordance with sections 30.170 and 30.180 to the zone boards of the TIME zones from which the funds were collected, less the pro-rata portion appropriated by the general assembly to be used solely for the administration of this section, which shall not exceed ten percent of the total amount collected within the TIME zones of a zone board. Notwithstanding the provisions of section 33.080 to the contrary, any moneys remaining in the fund at the end of the biennium shall not revert to the credit of the general revenue fund. The state treasurer shall invest moneys in the fund in the same manner as other funds are invested. Any interest and moneys earned on such investments shall be credited to the fund.

11. The zone board shall approve projects consistent with the provisions of this section that begin construction and disburse any money collected under this section. The zone board shall submit an annual budget for the funds to the department explaining how and when such money will be spent.

12. A zone board shall submit an annual report by December thirty-first of each year to the department and the general assembly. Such report shall include, but shall not be limited to:

This section and chapter 536 are nonseverable and if any of the powers vested with the general assembly pursuant to chapter 536 to review, to delay the effective date, or to disapprove and annul a rule are subsequently held unconstitutional, then the grant of rulemaking authority and any rule proposed or adopted after August 28, 2022, shall be invalid and void.

Interest shall be calculated from the date the recipient enters repayment. For a recipient who fulfills some, but not all, of his or her three-year residency and employment obligations, the amount of the fast track grant that is converted to a loan shall be reduced by one-third for each period of twelve months of residency and employment as verified by the proof of residency and qualifying employment required in subsection 12 of section 173.2553.

2. The coordinating board shall provide for a waiver under the fast track grant if the grant is not converted to a loan under subsection 1 of this section for a recipient who fails to comply with terms of the agreement under paragraph (a), (b), or (c) of subdivision (2) of subsection 11 of section 173.2553 due to his or her total and permanent disability or death, the total and permanent disability or death of his or her spouse or child, or if such recipient or recipient's spouse is providing service to any branch of the Armed Forces of the United States and is transferred out of state and is no longer able to maintain Missouri residency as a result of such service. The coordinating board shall establish a procedure and guidelines for granting loan discharge for fast track grants that have been converted to loans and are in repayment for recipients who are unable to fulfill the repayment obligation due to their total and permanent disability or death or the total and permanent disability or death of their spouse or child.

6. (1) There is hereby created in the state treasury the "Fast Track Workforce Incentive Grant Fund". The state treasurer shall be custodian of the fund. In accordance with sections 30.170 and 30.180, the state treasurer may approve disbursements. The fund shall be a dedicated fund and, upon appropriation, moneys in the fund shall be used solely by the coordinating board for the purposes of this section and section 173.2553.

(2) Notwithstanding the provisions of section 33.080 to the contrary, any moneys remaining in the fund at the end of the biennium shall not revert to the credit of the general revenue fund.

160.077. GET THE LEAD OUT OF SCHOOL DRINKING WATER ACT — DEFINITIONS — LEAD CONCENTRATION LEVEL LIMIT — DUTIES OF SCHOOLS — TESTING REQUIREMENTS — FUNDING — REPORT — RULES. — 1. This section shall be known and may be cited as the "Get the Lead Out of School Drinking Water Act".

2. As used in this section, the following terms mean:

(1) "Department", the Missouri department of health and senior services;

(2) "Disadvantaged school district", any school district that serves students from a county in which at least twenty-five percent of the households in such county are below the federal poverty guidelines updated periodically in the Federal Register by the U.S. Department of Health and Human Services under the authority of 42 U.S.C. Section 9902(2), as amended, or any school district in which more than seventy percent of students in the district qualify for a free or reduced price lunch under the federal Richard B. Russell National School Lunch Act, 42 U.S.C. Section 1751 et seq.;

(3) "Drinking water outlet", a potable water fixture that is used for drinking or food preparation. "Drinking water outlet" includes, but is not limited to:

(a) A water fountain, faucet, or tap that is used or potentially used for drinking or food preparation; and

(b) Ice-making and hot drink machines;

(4) "First draw", a two-hundred-fifty-milliliter sample immediately collected from a drinking water outlet that has been turned on after a stagnation period of at least eight hours;

(5) "Parent", a parent, guardian, or other person having control or custody of a child;

(6) "Private school", the same definition as in section 166.700;

(7) "Public school", the same definition as in section 160.011;

(8) "Remediation", decreasing the lead concentration in water from a drinking water outlet to less than five parts per billion without relying solely on flushing practices, or using methods such as the replacement of lead-containing pipes, solder, fittings, or fixtures with lead-free components. Flushing as a stand alone action shall not be considered remediation;

(9) "School", any public school, private school, or provider of an early childhood education program that receives state funding.

3. Beginning in the 2023-24 school year and for each subsequent school year, each school shall provide drinking water with a lead concentration level below five parts per billion in sufficient amounts to meet the drinking water needs of all students and staff as provided in this section.

4. (1) On or before January 1, 2024, each school shall:

(a) Conduct an inventory of all drinking water outlets and all outlets that are used for dispensing water for cooking or for cleaning cooking and eating utensils in each of the school's buildings;

(b) Develop a plan for testing each outlet inventoried under paragraph (a) of this subdivision and make such plan available to the public; and

(c) Upon request, provide general information on the health effects of lead contamination and additional informational resources for employees and parents of children at each school.

(2) Each school shall make buildings housing early childhood education programs, kindergartens, and elementary schools the priority when complying with paragraphs (a) and (b) of subdivision (1) of this subsection.

(3) Before August 1, 2024, or the first day on which students will be present in the building, whichever is later, each school shall:

(a) Perform all testing as required by subsection 5 of this section and within two weeks after receiving test results, make all testing results and any lead remediation plans available on the school's website;

(b) Remove and replace any drinking water coolers or drinking water outlets that the United States Environmental Protection Agency has determined are not lead-free under the federal Lead Contamination Control Act of 1988, as amended; except the school shall not be required to replace those drinking water outlets or water coolers that tested under the requirements of this section and have been determined to be dispensing drinking water with a lead concentration less than five part per billion; however, such drinking water outlet or water cooler shall be subject to all testing requirements and shall not be excluded from testing under subsection 10 of this section.

(4) If testing indicates that the water source is causing the contamination and until such time that the source of the contamination has been remediated, the school shall:

(a) Install a filter at each point at which the water supply enters the building;

(b) Install a filter that reduces lead in drinking water on each water outlet inventoried under paragraph (a) of subdivision (1) of this subsection to ensure lead concentrations are below five parts per billion; or

(c) Provide purified water at each water outlet inventoried under paragraph (a) of subdivision (1) of this subsection.

(5) If testing indicates that the internal building piping is causing the contamination and until such time that the source of the contamination has been remediated, the school shall:

(a) Install a filter that reduces lead in drinking water on each water outlet inventoried under paragraph (a) of subdivision (1) of this subsection to ensure lead concentrations are below five parts per billion; or

(b) Provide purified water at each water outlet inventoried under paragraph (a) of subdivision (1) of this subsection.

(6) If a pipe, solder, fitting, or fixture is replaced as part of remediation, the replacement shall be lead-free, as such term is defined in 40 CFR 143.12, as amended.

(7) If a test result exceeds five parts per billion, the affected school shall:

(a) Contact parents and staff via written notification within seven business days after receiving the test result. The notification shall include at least:

a. The test results and a summary that explains such results;

b. A description of any remedial steps taken; and

c. A description of general health effects of lead contamination and community specific resources;

and

(b) Provide bottled water if there is not enough water to meet the drinking water needs of the students, teachers, and staff.

(8) School districts shall submit such annual testing results to the department.

(9) This subsection shall not be construed to prevent a school from conducting more frequent testing than required under this section.

5. (1) Before August 1, 2024, or the first day on which students will be present in the building, whichever is later, and annually thereafter, each school shall conduct testing for lead by first-draw and follow-up flush samples of a random sampling of at least twenty-five percent of remediated drinking water outlets until all remediated sources have been tested as recommended by the 2018 version of the United States Environmental Protection Agency's "Training, Testing, and Taking Action" program. The testing shall be conducted and the results analyzed for both types of tests by an entity or entities approved by the department.

(2) If, in the ten years prior to the 2023-24 school year, a fixture tested above five parts per billion for lead, such fixture does not need to be repeat tested for lead, but instead remediation shall begin on such fixture.

EXPLANATION--Matter enclosed in bold-faced brackets [thus] is not enacted and is intended to be omitted in the law.
Matter underscored is proposed language.

6. (1) In addition to the apportionments payable to a school district under chapter 163, the department of natural resources, with support from the department of elementary and secondary education and the department of health and senior services, is hereby authorized to apportion to any school additional funding for the filtration, testing, and other remediation of drinking water systems required under this section, subject to appropriation.

(2) To the extent permitted by federal law, a school district may seek reimbursement or other funds for compliance incurred under this section under any applicable federal law including, but not limited to, the America's Water Infrastructure Act of 2018 and the Water Infrastructure Finance and Innovation Act of 2014, 33 U.S.C. Section 3901 et seq.

(3) Disadvantaged school districts shall receive funding priority under this subsection.

7. The department, in conjunction with the department of elementary and secondary education, shall publish a report biennially based on the findings from the water testing conducted under this section. Such report shall be published on the department of natural resources website.

8. For public schools, the department shall ensure compliance with this section. Each school district shall be responsible for ensuring compliance within each school within the school district's jurisdiction.

9. No school building constructed after January 4, 2014, as provided in the federal Reduction of Lead in Drinking Water Act (42 U.S.C. Section 300g-6), as amended, shall be required to install, maintain, or replace filters under paragraph (c) of subdivision (1) of subsection 4 of this section.

10. A school that tests and does not find a drinking water source with a lead concentration above the acceptable level as described in subsection 3 of this section shall be required to test only every five years.

11. The department may promulgate all necessary rules and regulations for the administration of this section. Any rule or portion of a rule, as that term is defined in section 536.010, that is created under the authority delegated in this section shall become effective only if it complies with and is subject to all of the provisions of chapter 536 and, if applicable, section 536.028. This section and chapter 536 are nonseverable and if any of the powers vested with the general assembly pursuant to chapter 536 to review, to delay the effective date, or to disapprove and annul a rule are subsequently held unconstitutional, then the grant of rulemaking authority and any rule proposed or adopted after August 28, 2022, shall be invalid and void.

The local board of education of each school district shall clearly establish a written policy of discipline, including the district's determination on the use of corporal punishment and the procedures in which punishment will be applied. A written copy of the district's discipline policy and corporal punishment procedures, if applicable, shall be provided to the pupil and parent or legal guardian of every pupil enrolled in the district at the beginning of each school year and also made available in the office of the superintendent of such district, during normal business hours, for public inspection. No pupil shall be subject to corporal punishment procedures outlined in the discipline and corporal punishment policy without a parent or guardian being notified and providing written permission for the corporal punishment. All employees of the district shall annually receive instruction related to the specific contents of the policy of discipline and any interpretations necessary to implement the provisions of the policy in the course of their duties, including but not limited to approved methods of dealing with acts of school violence, disciplining students with disabilities and instruction in the necessity and requirements for confidentiality.

2. The policy shall require school administrators to report acts of school violence to all teachers at the attendance center and, in addition, to other school district employees with a need to know. For the purposes of this chapter or chapter 167, "need to know" is defined as school personnel who are directly responsible for the student's education or who otherwise interact with the student on a professional basis while acting within the scope of their assigned duties. As used in this section, the phrase "act of school violence" or "violent behavior" means the exertion of physical force by a student with the intent to do serious physical injury as defined in section 556.061 to another person while on school property, including a school bus in service on behalf of the district, or while involved in school activities. The policy shall at a minimum require school administrators to report, as soon as reasonably practical, to the appropriate law enforcement agency any of the following crimes, or any act which if committed by an adult would be one of the following crimes:

- (1) First degree murder under section 565.020;
- (2) Second degree murder under section 565.021;

committed on school property, including but not limited to actions on any school bus in service on behalf of the district or while involved in school activities. The policy shall require that any portion of a student's individualized education program that is related to demonstrated or potentially violent behavior shall be provided to any teacher and other school district employees who are directly responsible for the student's education or who otherwise interact with the student on an educational basis while acting within the scope of their assigned duties. The policy shall also contain the consequences of failure to obey standards of conduct set by the local board of education, and the importance of the standards to the maintenance of an atmosphere where orderly learning is possible and encouraged.

3. The policy shall provide that any student who is on suspension for any of the offenses listed in subsection 2 of this section or any act of violence or drug-related activity defined by school district policy as a serious violation of school discipline pursuant to subsection 9 of this section shall have as a condition of his or her suspension the requirement that such student is not allowed, while on such suspension, to be within one thousand feet of any school property in the school district where such student attended school or any activity of that district, regardless of whether or not the activity takes place on district property unless:

(1) Such student is under the direct supervision of the student's parent, legal guardian, or custodian and the superintendent or the superintendent's designee has authorized the student to be on school property;

(2) Such student is under the direct supervision of another adult designated by the student's parent, legal guardian, or custodian, in advance, in writing, to the principal of the school which suspended the student and the superintendent or the superintendent's designee has authorized the student to be on school property;

(3) Such student is enrolled in and attending an alternative school that is located within one thousand feet of a public school in the school district where such student attended school; or

(4) Such student resides within one thousand feet of any public school in the school district where such student attended school in which case such student may be on the property of his or her residence without direct adult supervision.

4. Any student who violates the condition of suspension required pursuant to subsection 3 of this section may be subject to expulsion or further suspension pursuant to the provisions of sections 167.161, 167.164, and 167.171. In making this determination consideration shall be given to whether the student poses a threat to the safety of any child or school employee and whether such student's unsupervised presence within one thousand feet of the school is disruptive to the educational process or undermines the effectiveness of the school's disciplinary policy. Removal of any pupil who is a student with a disability is subject to state and federal procedural rights. This section shall not limit a school district's ability to:

(1) Prohibit all students who are suspended from being on school property or attending an activity while on suspension;

(2) Discipline students for off-campus conduct that negatively affects the educational environment to the extent allowed by law.

5. The policy shall provide for a suspension for a period of not less than one year, or expulsion, for a student who is determined to have brought a weapon to school, including but not limited to the school playground or the school parking lot, brought a weapon on a school bus or brought a weapon to a school activity whether on or off of the school property in violation of district policy, except that:

(1) The superintendent or, in a school district with no high school, the principal of the school which such child attends may modify such suspension on a case-by-case basis; and

(2) This section shall not prevent the school district from providing educational services in an alternative setting to a student suspended under the provisions of this section.

6. For the purpose of this section, the term "weapon" shall mean a firearm as defined under 18 U.S.C. Section 921 and the following items, as defined in section 571.010: a blackjack, a concealable

firearm, an explosive weapon, a firearm, a firearm silencer, a gas gun, a knife, knuckles, a machine gun, a projectile weapon, a rifle, a shotgun, a spring gun or a switchblade knife; except that this section shall not be construed to prohibit a school board from adopting a policy to allow a Civil War reenactor to carry a Civil War era weapon on school property for educational purposes so long as the firearm is unloaded. The local board of education shall define weapon in the discipline policy. Such definition shall include the weapons defined in this subsection but may also include other weapons.

7. All school district personnel responsible for the care and supervision of students are authorized to hold every pupil strictly accountable for any disorderly conduct in school or on any property of the school, on any school bus going to or returning from school, during school-sponsored activities, or during intermission or recess periods.

8. Teachers and other authorized district personnel in public schools responsible for the care, supervision, and discipline of schoolchildren, including volunteers selected with reasonable care by the school district, shall not be civilly liable when acting in conformity with the established policies developed by each board, including but not limited to policies of student discipline or when reporting to his or her supervisor or other person as mandated by state law acts of school violence or threatened acts of school violence, within the course and scope of the duties of the teacher, authorized district personnel or volunteer, when such individual is acting in conformity with the established policies developed by the board. Nothing in this section shall be construed to create a new cause of action against such school district, or to relieve the school district from liability for the negligent acts of such persons.

9. Each school board shall define in its discipline policy acts of violence and any other acts that constitute a serious violation of that policy. "Acts of violence" as defined by school boards shall include but not be limited to exertion of physical force by a student with the intent to do serious bodily harm to another person while on school property, including a school bus in service on behalf of the district, or while involved in school activities. School districts shall for each student enrolled in the school district compile and maintain records of any serious violation of the district's discipline policy. Such records shall be made available to teachers and other school district employees with a need to know while acting within the scope of their assigned duties, and shall be provided as required in section 167.020 to any school district in which the student subsequently attempts to enroll.

10. Spanking, when administered by certificated personnel and in the presence of a witness who is an employee of the school district, or the use of reasonable force to protect persons or property, when administered by personnel of a school district in a reasonable manner in accordance with the local board of education's written policy of discipline, is not abuse within the meaning of chapter 210. [The provisions of sections 210.110 to 210.165 notwithstanding, the children's division shall not have jurisdiction over or investigate any report of alleged child abuse arising out of or related to the use of reasonable force to protect persons or property when administered by personnel of a school district or any spanking administered in a reasonable manner by any certificated school personnel in the presence of a witness who is an employee of the school district pursuant to a written policy of discipline established by the board of education of the school district, as long as no allegation of sexual misconduct arises from the spanking or use of force.]

11. If a student reports alleged sexual misconduct on the part of a teacher or other school employee to a person employed in a school facility who is required to report such misconduct to the children's division under section 210.115, such person and the superintendent of the school district shall report the allegation to the children's division as set forth in section 210.115. Reports made to the children's division under this subsection shall be investigated by the division in accordance with the provisions of sections 210.145 to 210.153 and shall not be investigated by the school district under subsections 12 to 20 of this section for purposes of determining whether the allegations should or should not be substantiated. The district may investigate the allegations for the purpose of making any decision regarding the employment of the accused employee.

EXPLANATION--Matter enclosed in bold-faced brackets [thus] is not enacted and is intended to be omitted in the law. Matter underscored is proposed language.

12.] 11. Upon receipt of any reports of child abuse by the children's division **[other than reports provided under subsection 11 of this section,]** pursuant to sections 210.110 to 210.165 which allegedly involve personnel of a school district, the children's division shall notify the superintendent of schools of the district or, if the person named in the alleged incident is the superintendent of schools, the president of the school board of the school district where the alleged incident occurred.

[13. If, after an initial investigation, the superintendent of schools or the president of the school board finds that the report involves an alleged incident of child abuse other than the administration of a spanking by certificated school personnel or the use of reasonable force to protect persons or property when administered by school personnel pursuant to a written policy of discipline or that the report was made for the sole purpose of harassing a public school employee, the superintendent of schools or the president of the school board shall immediately refer the matter back to the children's division and take no further action. In all matters referred back to the children's division, the division shall treat the report in the same manner as other reports of alleged child abuse received by the division.

14. If the report pertains to an alleged incident which arose out of or is related to a spanking administered by certificated personnel or the use of reasonable force to protect persons or property when administered by personnel of a school district pursuant to a written policy of discipline or a report made for the sole purpose of harassing a public school employee, a notification of the reported child abuse shall be sent by the superintendent of schools or the president of the school board to the law enforcement in the county in which the alleged incident occurred.

15. The report shall be jointly investigated by the law enforcement officer and the superintendent of schools or, if the subject of the report is the superintendent of schools, by a law enforcement officer and the president of the school board or such president's designee.

16. The investigation shall begin no later than forty-eight hours after notification from the children's division is received, and shall consist of, but need not be limited to, interviewing and recording statements of the child and the child's parents or guardian within two working days after the start of the investigation, of the school district personnel allegedly involved in the report, and of any witnesses to the alleged incident.

17. The law enforcement officer and the investigating school district personnel shall issue separate reports of their findings and recommendations after the conclusion of the investigation to the school board of the school district within seven days after receiving notice from the children's division.

18. The reports shall contain a statement of conclusion as to whether the report of alleged child abuse is substantiated or is unsubstantiated.

19. The school board shall consider the separate reports referred to in subsection 17 of this section and shall issue its findings and conclusions and the action to be taken, if any, within seven days after receiving the last of the two reports. The findings and conclusions shall be made in substantially the following form:

(1) The report of the alleged child abuse is unsubstantiated. The law enforcement officer and the investigating school board personnel agree that there was not a preponderance of evidence to substantiate that abuse occurred;

(2) The report of the alleged child abuse is substantiated. The law enforcement officer and the investigating school district personnel agree that the preponderance of evidence is sufficient to support a finding that the alleged incident of child abuse did occur;

(3) The issue involved in the alleged incident of child abuse is unresolved. The law enforcement officer and the investigating school personnel are unable to agree on their findings and conclusions on the alleged incident.

20. The findings and conclusions of the school board under subsection 19 of this section shall be sent to the children's division. If the findings and conclusions of the school board are that the report of the alleged child abuse is unsubstantiated, the investigation shall be terminated, the case closed, and no record shall be entered in the children's division central registry. If the findings and conclusions of the

school board are that the report of the alleged child abuse is substantiated, the children's division shall report the incident to the prosecuting attorney of the appropriate county along with the findings and conclusions of the school district and shall include the information in the division's central registry. If the findings and conclusions of the school board are that the issue involved in the alleged incident of child abuse is unresolved, the children's division shall report the incident to the prosecuting attorney of the appropriate county along with the findings and conclusions of the school board, however, the incident and the names of the parties allegedly involved shall not be entered into the central registry of the children's division unless and until the alleged child abuse is substantiated by a court of competent jurisdiction.

21. Any superintendent of schools, president of a school board or such person's designee or law enforcement officer who knowingly falsifies any report of any matter pursuant to this section or who knowingly withholds any information relative to any investigation or report pursuant to this section is guilty of a class A misdemeanor.

22.] 12. In order to ensure the safety of all students, should a student be expelled for bringing a weapon to school, violent behavior, or for an act of school violence, that student shall not, for the purposes of the accreditation process of the Missouri school improvement plan, be considered a dropout or be included in the calculation of that district's educational persistence ratio.

3. Before July 1, 2023, the department of elementary and secondary education shall develop detailed requirements for students to become eligible for the show-me success diploma that include at least the following:

(2) Satisfactory grades on approved examinations in subjects determined to be necessary to prepare a student to enter postsecondary education without taking remedial or developmental coursework.

4. School districts and charter schools may offer a course of study designed to meet the requirements to obtain a show-me success diploma to students entering the ninth grade. Students who elect to pursue a show-me success diploma shall participate in a course of study designed by the school district to meet the requirements established under subsection 3 of this section. The show-me success diploma shall be available to any such student until the end of that student's twelfth grade year.

5. Students who earn a show-me success diploma may remain in high school and participate in programs of study available through the school district or charter school until that student would otherwise have graduated at the end of grade twelve. For purposes of calculation and distribution of state aid, the school district or charter school of a pupil having earned a show-me success diploma who remains enrolled in the school district or charter school shall continue to include the pupil in the pupil enrollment of each such school district or charter school and shall continue to receive funding for a pupil who earns a show-me success diploma until that pupil would otherwise have graduated at the end of grade twelve. Students who elect to remain in high school under this subsection shall be eligible to participate in extracurricular activities, including interscholastic sports, through the end of grade twelve.

The funding assigned to a pupil under this subsection shall be calculated as if the pupil's attendance percentage equaled the district's or charter school's prior year average attendance percentage. For a pupil who, as provided in this subsection, is included in the district's or charter school's state aid calculation but who is not enrolled in the district or charter school, an amount equal to ninety percent of the pupil's proportionate share of the state, local, and federal aid that the district or charter school receives for the pupil under this subsection shall be deposited into an account established under sections 166.400 to 166.455 that lists the pupil as the beneficiary. The state treasurer shall provide guidance and assist school districts, charter schools, pupils, and parents or guardians of pupils with the creation, maintenance, and use of an account that has been established under sections 166.400 to 166.455.

9. The department of elementary and secondary education shall promulgate all necessary rules and regulations for the administration of this section. Any rule or portion of a rule, as that term is defined in section 536.010, that is created under the authority delegated in this section shall become effective only if it complies with and is subject to all of the provisions of chapter 536 and, if applicable, section 536.028. This section and chapter 536 are nonseverable, and if any of the powers vested with the general assembly pursuant to chapter 536 to review, to delay the effective date, or to disapprove and annul a rule are subsequently held unconstitutional, then the grant of rulemaking authority and any rule proposed or adopted after August 28, 2022, shall be invalid and void.

No blind or visually impaired student shall be denied instruction in Braille reading and writing solely because the student has some vision. During the evaluation and IEP process, consideration shall be given regarding appropriate Braille instruction based on a potential vision loss due to a degenerative medical diagnosis.

(2) In conjunction with the U.S. Department of Education's Braille presumption requirement in the federal Individuals with Disabilities Education Act (IDEA), as amended, instruction in Braille reading and writing shall be sufficient to enable each blind or visually impaired student to communicate effectively and efficiently at a level commensurate with the student's same age and with the student's nondisabled peers of comparable intellectual ability. The blind or visually impaired student's individualized education program (IEP) or individualized family support plan (IFSP) shall specify:

(a) The results obtained from an evaluation of the blind or visually impaired student's reading and writing skills, needs, and appropriate reading and writing media including, but not limited to, an evaluation of the blind or visually impaired student's needs for instruction in Braille or the use of Braille including, but not limited to, consideration regarding appropriate Braille instruction based on a potential vision loss due to a degenerative medical diagnosis;

8. (1) Each blind or visually impaired student shall receive instruction in assistive technology as part of the student's individualized education program (IEP) or individualized family support plan (IFSP) unless the IEP or IFSP team determines, after an evaluation of a student's needs, that instruction in assistive technology is not appropriate. No student shall be denied instruction in assistive technology solely because the student has some vision.

(d) The level of mastery of the accessible assistive technology specified by the blind or visually impaired student's assessment to be achieved by the end of the period; and

(e) Acknowledgment that either:

a. The blind or visually impaired student may transport the accessible assistive technology to and from school without the need for payment, family assumption of liability for loss or damage, or any other cost to the blind or visually impaired student or the family; or

(2) In conjunction with orientation and mobility services requirements of 34 CFR 300.34(c)(7), as amended, blind or visually impaired students shall receive orientation and mobility instruction to equip each blind or visually impaired student with the age-appropriate tools, techniques, and nonvisual skills to navigate in and around the student's home, schools, communities, and other environments as applicable, and as expected of peers of comparable intellectual ability and grade level. The blind or visually impaired student's IEP or IFSP shall specify:

(a) The results obtained from an evaluation of the blind or visually impaired student's orientation and mobility needs including, but not limited to, an evaluation of the blind or visually impaired student's future needs for instruction in orientation and mobility;

(2) LEAs shall seek and obtain proof of currently available certified professionals from any company, agency, or individual the LEA intends to contract with for services outlined in subsections 5 to 9 of this section.

(3) LEAs shall not impose any preclusions or limitations on a student to receive instruction in orientation and mobility services in and around the home, school, or community setting including during daytime and nighttime hours.

(4) LEAs may require annual written parental consent to conduct effective instruction when such services are provided before or after regular school hours or when such services are provided away from the educational institution or the blind or visually impaired student's residence.

(5) If an LEA prohibits an orientation and mobility instructor from using the instructor's preferred mode of transportation to transport blind or visually impaired students to and from outside environments, the LEA shall provide an equally effective transportation alternative for that purpose without cost to the orientation and mobility instructor. If the blind or visually impaired student's family provides transportation for the student, the LEA shall reimburse the expense.

12. (1) If an LEA requires an eye report, the LEA shall bear all costs associated with obtaining such report. LEAs shall not delay an evaluation for eligibility based on the absence or delay of such report.

Such guidelines may include, but are not limited to, measures of reading proficiency, strategies for addressing reading deficiencies, timelines for measuring pupil improvement in reading, and information on screening [for and treatment] of [auditory] dyslexia, and information on the Lindamood Auditory Conceptualization Test and the Auditory Discrimination in Depth Program]. Such guidelines may also identify performance levels for pupils identified as handicapped or severely handicapped and conditions under which such pupils [are] may be exempt from the provisions of this section and section 167.645.

3. [Each local school district enrolling a pupil identified as reading below grade level shall develop an individual plan of reading intervention for such pupil. The individual pupil's plan may include individual or group reading development activities. The plan may be developed after consultation with the pupil's parent or legal guardian] Each school district and charter school shall provide intensive reading instruction to students as provided in section 167.645.

167.640. STUDENT PROMOTION CONDITIONED ON REMEDIATION — TUTORIAL ACTIVITIES AND OTHER SUGGESTED PROGRAMS. — 1. School districts [may] shall adopt a policy with regard to student promotion which may require remediation as a condition of promotion to the next grade level for any student identified by the district as failing to master skills and competencies established for that particular grade level by the district board of education. School districts may also require parents or guardians of such students to commit to conduct home-based tutorial activities with their children or, in the case of a student with disabilities eligible for services pursuant to sections 162.670 to 162.1000, the individual education plan shall determine the nature of parental involvement consistent with the requirements for a free, appropriate public education.

2. Such remediation shall recognize that different students learn differently and shall employ methods designed to help these students achieve at high levels. Such remediation may include, but shall not necessarily be limited to, a mandatory summer school program focused on the areas of deficiency or other such activities conducted by the school district outside of the regular school day. Decisions concerning the instruction of a child who receives special educational services pursuant to sections 162.670 to 162.1000 shall be made in accordance with the child's individualized education plan.

3. School districts providing remediation pursuant to this section or section 167.645 outside of the traditional school day may count extra hours of instruction in the calculation of average daily attendance as defined in section 163.011.

167.645. READING ASSESSMENTS REQUIRED, WHEN — READING IMPROVEMENT PLAN REQUIRED, WHEN — ADDITIONAL READING INSTRUCTION REQUIRED, WHEN — RETENTION IN GRADE PERMITTED, WHEN. — 1. [For purposes of this section, the following terms mean:

(1) "Reading assessment", a recognized method of judging a student's reading ability, with results expressed as reading at a particular grade level. The term reading assessment shall include, but is not limited to, standard checklists designed for use as a student reads out loud, paper-and-pencil tests promulgated by nationally recognized organizations and other recognized methods of determining a student's reading accuracy, expression, fluency and comprehension in order to make a determination of the student's grade-level reading ability. Assessments which do not give a grade-level result may be used in combination with other assessments to reach a grade-level determination. Districts are encouraged but not required to select assessment methods identified pursuant to section 167.346. Districts are also encouraged to use multiple methods of assessment;

(2) "Summer school", for reading instruction purposes, a minimum of forty hours of reading instruction and practice. A school district may arrange the hours and days of instruction to coordinate with its regular program of summer school.

2. For purposes of this section, methods of reading assessment shall be determined by each school district. Unless a student has been determined in the current school year to be reading at grade level or above, each school district shall administer a reading assessment or set of assessments to each student within forty-five days of the end of the third-grade year, except that the provisions of this subsection shall not apply to students receiving special education services under an individualized education plan pursuant to sections 162.670 to 162.999, to students receiving services pursuant to Section 504 of the Rehabilitation Act of 1973 whose services plan includes an element addressing reading or to students determined to have limited English proficiency or to students who have been determined, prior to the

beginning of any school year, to have a cognitive ability insufficient to meet the reading requirement set out in this section, provided that districts shall provide reading improvement plans for students determined to have such insufficient cognitive ability. The assessment required by this subsection shall also be required for students who enter a school district in grades four, five or six unless such student has been determined in the current school year to be reading at grade level or above.

3. Beginning with school year 2002-03, for each student whose third-grade reading assessment determines that such student is reading below second-grade level, the school district shall design a reading improvement plan for the student's fourth-grade year. Such reading improvement plan shall include, at a minimum, thirty hours of additional reading instruction or practice outside the regular school day during the fourth-grade year. The school district shall determine the method of reading instruction necessary to enforce this subsection. The school district may also require the student to attend summer school for reading instruction as a condition of promotion to fourth grade. The department of elementary and secondary education may, from funds appropriated for the purpose, reimburse school districts for additional instructional personnel costs incurred in the implementation and execution of the thirty hours of additional reading instruction minus the revenue generated by the school district through the foundation formula for the additional reading instruction average daily attendance.

4. Each student for whom a reading improvement plan has been designed pursuant to subsection 3 of this section shall be given another reading assessment, to be administered within forty-five days of the end of such student's fourth-grade year. If such student is determined to be reading below third-grade level, the student shall be required to attend summer school to receive reading instruction. At the end of such summer school instruction, such student shall be given another reading assessment. If such student is determined to be reading below third-grade level, the district shall notify the student's parents or guardians, and the student shall not be promoted to fifth grade. No student shall be denied promotion more than once solely for inability to meet the reading standards set out in this section.

5. The process described in subsections 3 and 4 of this section shall be repeated as necessary through the end of the sixth grade, with the target grade level rising accordingly. Mandatory retention in grade shall not apply to grades subsequent to fourth grade.

6. The mandatory process of additional reading instruction pursuant to this section shall cease at the end of the sixth grade. The permanent record of students who are determined to be reading below the fifth-grade level at the end of sixth grade shall carry a notation advising that such student has not met minimal reading standards. The notation shall stay on the student's record until such time as the district determines that a student has met minimal reading standards.

7. Each school district shall be required to offer summer school reading instruction to any student with a reading improvement plan. Districts may fulfill the requirement of this section through cooperative arrangements with neighboring districts; provided that such districts shall timely make all payments provided pursuant to such cooperative agreements.

8. A school district may adopt a policy that requires retention in grade of any student who has been determined to require summer school instruction in reading and who does not fulfill the summer school attendance requirement.

9. Nothing in this section shall preclude a school district from retaining any student in grade when a determination is made in accordance with district policy that retention is in the best interests of the student.

10. The state board of education shall not incorporate information about the number of students receiving additional instruction pursuant to this section into any element of any standard of the Missouri school improvement program or its successor accreditation program; provided, however, each district shall make available, upon the request of any parent, patron, or media outlet within the district, the number and percentage of students receiving remediation pursuant to this section. The information shall

be presented in a way that does not permit personal identification of any student or educational personnel.

11. Each school district shall make a systematic effort to inform parents of the methods and materials used to teach reading in kindergarten through fourth grade, in terms understandable to a layperson and shall similarly inform parents of students for whom a reading improvement plan is required pursuant to this section] Each school district and charter school shall assess all students enrolled in kindergarten through grade three at the beginning and end of each school year for their level of reading or reading readiness on state-approved reading assessments. Additionally, all school districts and charter schools shall assess any newly enrolled student in grades one through five for their level of reading or reading readiness on a reading assessment from the state-approved list. At the beginning of the school year, each school district and charter school shall provide a reading success plan to any student who:

(1) Exhibits a substantial deficiency in reading which creates a barrier to the child's progress learning to read. The identification of such deficiency may be based upon the most recent assessments or teacher observation; or

(2) Has been identified as being at risk of dyslexia in the statewide dyslexia screening or has a formal diagnosis of dyslexia.

For the purposes of this section, a substantial reading deficiency shall refer to a student who is one or more grade level or levels behind in reading or reading readiness; provided that nothing in this section shall be interpreted to prevent a school district or charter school from offering a reading success plan to any student based on an assessment completed at the start and end of the school year or teacher observation. For any student entering the school district or charter school after the start of the school year, such student shall be provided a reading success plan in the event the student has been identified as having a substantial reading deficiency based on the student's most recent assessment or otherwise being identified through teacher observation. The student's reading proficiency shall be reassessed by reading assessments on the state-approved list. The student shall continue to be provided with intensive reading instruction under a reading success plan until the reading deficiency is remedied.

2. The district or charter school shall notify the parent or guardian of any student in kindergarten through grade three who exhibits a substantial deficiency in reading, as described in subsection 1 of this section, at least annually in writing, and in an appropriate, alternative manner for the parent or other guardian if necessary, of the following:

(1) That the child has been identified as having a substantial deficiency in reading;

(2) A description of the services currently provided to the child;

(3) A description of the proposed supplemental instructional services and supports that the school district will provide to the child that are designed to remediate the identified area of reading deficiency. For students identified as being at risk of dyslexia or those that have a diagnosis of dyslexia the district shall provide an explanation that the instruction that will be used to teach the child reading shall be explicit, systematic, and diagnostic and based on phonological awareness, phonics, fluency, vocabulary, comprehension, morphology, syntax, and semantics;

(4) Strategies for parents and guardians to use in helping the child succeed in reading proficiency, including but not limited to the promotion of parent-guided home reading.

3. If the school district or charter school provides a summer reading program under this section, the district or charter school shall notify the parent or guardian of each student who exhibits a substantial deficiency in reading of the opportunity to attend the summer reading program.

4. If a student has a substantial reading deficiency at the end of third grade, the student's parent or guardian and appropriate school staff shall discuss whether the student should be retained in grade level, based on a consideration of all relevant factors, including the reading deficiency, the student's progress in other subject areas, and the student's overall intellectual, physical, emotional, and social development.

EXPLANATION--Matter enclosed in bold-faced brackets [thus] is not enacted and is intended to be omitted in the law. Matter underscored is proposed language.

A decision to promote or retain a student with a substantial reading deficiency at the end of grade three shall be made only after direct personal consultation with the student's parent or guardian and after the formulation of a specific plan of action to remedy the student's reading deficiency.

5. Each school district or charter school shall do all of the following:

(1) Provide students who are identified as having a substantial deficiency in reading under subsection 1 of this section, have been identified as being at risk of dyslexia in the statewide dyslexia screening, or have a formal diagnosis of dyslexia with intensive instructional services and supports specified in a reading success plan, as appropriate according to student need, free of charge, to remediate the identified areas of reading deficiency, including additional scientific, evidence-based reading instruction and other strategies prescribed by the school district or charter school which may include but are not limited to the following:

- (a) Small group or individual instruction;
- (b) Reduced teacher-student ratios;
- (c) More frequent progress monitoring;
- (d) Tutoring or mentoring;
- (e) Extended school day, week, or year; and
- (f) Summer reading programs;

(2) For any student with a formal diagnosis of dyslexia or for a student who was found to be at risk of dyslexia in the statewide dyslexia screening, the school district or charter school shall provide evidence-based reading instruction that addresses phonology, sound-symbol association, syllable instruction, morphology, syntax, and semantics provided through systematic, cumulative, explicit, and diagnostic methods;

(3) At regular intervals, but no less than four times per year in a manner that reflects progress through each school term, notify the parent or guardian of academic and other progress being made by the student and give the parent or guardian other useful information;

(4) In addition to required reading enhancement and acceleration strategies, provide all parents of students, including parents of students who are identified as having a substantial deficiency in reading under subsection 1 of this section, with a plan that includes suggestions for regular parent-guided home reading.

6. Each school district and charter school shall ensure that intensive reading instruction through a reading development initiative shall be provided to each kindergarten through grade five student who is assessed as exhibiting a substantial deficiency in reading. In addition to the requirements otherwise provided, such instruction shall also comply with all of the following criteria:

(1) Be provided to all kindergarten through grade five students who exhibit a substantial deficiency in reading under this section. The assessments shall measure phonemic awareness, phonics, fluency, vocabulary, and comprehension;

(2) Be provided during regular school hours;

(3) Provide a reading curriculum that meets the requirements of section 170.014, and at a minimum has the following specifications:

(a) Assists students assessed as exhibiting a substantial deficiency in reading to develop the skills to read at grade level;

(b) Provides skill development in phonemic awareness, phonics, fluency, vocabulary, and comprehension;

(c) Includes a scientifically based and reliable assessment;

(d) Provides initial and ongoing analysis of each student's reading progress; and

(e) Provides a curriculum in core academic subjects to assist the student in maintaining or meeting proficiency levels for the appropriate grade in all academic subjects.

7. School districts and charter schools shall report to the department the specific intensive reading interventions and supports implemented by the school district or charter school pursuant to this section

If a school district's current tax rate ceiling is at or above the rate from which an increase would require a two-thirds majority, the school board may submit to the voters of the district a proposition to reduce or eliminate the amount of the levy reduction resulting from section 164.013. If a majority of the voters voting thereon vote in favor of the proposition, the board may certify that seventy-five percent of the revenue generated from this source shall be used to implement the salary supplement program established under this section.

208.044. CHILD DAY CARE SERVICES TO BE PROVIDED CERTAIN PERSONS — ELIGIBLE PROVIDERS. — 1. The [children's division] department of elementary and secondary education shall provide child day care services to any person who meets the qualifications set forth at sections 301 and 302 of the Family Support Act of 1988 (P.L. 100-485).

2. The [division] department shall purchase the child day care services required by this section by making payments directly to any providers of day care services licensed pursuant to chapter 210 or to providers of day care services who are not required by chapter 210 to be licensed because they are providing care to no more than six children pursuant to section 210.211.

3. When a person who has been eligible and receiving day care services under this section becomes ineligible due to the end of the twelve-month period of transitional day care, as defined in section 208.400, such person may receive day care services from the [division] department if otherwise eligible for such services.

208.046. CHILD CARE ASSISTANCE, INCOME ELIGIBILITY CRITERIA, VOUCHERS OR DIRECT REIMBURSEMENT, WHEN. — 1. The [children's division] department of elementary and secondary education shall promulgate rules [to become effective no later than July 1, 2011,] to modify the income eligibility criteria for any person receiving state-funded child care assistance [under this chapter], either through vouchers or direct reimbursement to child care providers, as follows:

(1) Child care recipients eligible under this chapter and the criteria set forth in [13 CSR 35-32.010] 5 CSR 25-200 may pay a fee based on adjusted gross income and family size unit based on a child care sliding fee scale established by the [children's division] department of elementary and secondary education, which shall be subject to appropriations. However, a person receiving state-funded child care assistance under this chapter and whose income surpasses the annual appropriation level may continue to receive reduced subsidy benefits on a scale established by the [children's division] department, at which time such person will have assumed the full cost of the maximum base child care subsidy rate established by the [children's division] department and shall be no longer eligible for child care subsidy benefits;

(2) The sliding scale fee may be waived for children with special needs as established by the [division] department; and

(3) The maximum payment by the [division] department shall be the applicable rate minus the applicable fee.

This section and chapter 536 are nonseverable and if any of the powers vested with the general assembly pursuant to chapter 536 to review, to delay the effective date, or to disapprove and annul a rule are subsequently held unconstitutional, then the grant of rulemaking authority and any rule proposed or adopted after August 28, 2010, shall be invalid and void.

"Low-Wage Trap Elimination Act". In order to more effectively transition persons receiving state-funded child care subsidy benefits under this chapter, the [children's division] department of elementary and secondary education, in conjunction with the department of revenue, shall, subject to appropriations, by July 1, 2022, implement a pilot program in a county with a charter form of government and with more than six hundred thousand but fewer than seven hundred thousand inhabitants, a county of the first classification with more than two hundred sixty thousand but fewer than three hundred thousand inhabitants, and a county of the first classification with more than two hundred thousand but fewer than two hundred sixty thousand inhabitants, to be called the "Hand-Up Program", to allow applicants in the program to receive transitional child care benefits without the requirement that such applicants first be eligible for full child care benefits.

(1) For purposes of this section, "full child care benefits" shall be the full benefits awarded to a recipient based on the income eligibility amount established by the [division] department through the annual appropriations process as of August 28, 2021, to qualify for the benefits and shall not include the transitional child care benefits that are awarded to recipients whose income surpasses the eligibility level for full benefits to continue. The hand-up program shall be voluntary and shall be designed such that an applicant may begin receiving the transitional child care benefit without having first qualified for the full child care benefit or any other tier of the transitional child care benefit. Under no circumstances shall any applicant be eligible for the hand-up program if the applicant's income does not fall within the transitional child care benefit income limits established through the annual appropriations process.

(2) A participating recipient shall be allowed to opt out of the program at any time, but such person shall not be allowed to participate in the program a second time.

2. The [division] department shall track the number of participants in the hand-up program and shall issue an annual report to the general assembly by September 1, 2023, and annually on September first thereafter, detailing the effectiveness of the pilot program in encouraging recipients to secure employment earning an income greater than the maximum wage eligible for the full child care benefit. The report shall also detail the costs of administration and the increased amount of state income tax paid as a result of the program, as well as an analysis of whether the pilot program could be expanded to include other types of benefits, including, but not limited to, food stamps, temporary assistance for needy families, low-income heating assistance, women, infants and children supplemental nutrition program, the state children's health insurance program, and MO HealthNet benefits.

3. The [division] department shall pursue all necessary waivers from the federal government to implement the hand-up program. If the [division] department is unable to obtain such waivers, the [division] department shall implement the program to the degree possible without such waivers.

4. Any rule or portion of a rule, as that term is defined in section 536.010, that is created under the authority delegated under this section shall become effective only if it complies with and is subject to all of the provisions of chapter 536 and, if applicable, section 536.028. This section and chapter 536 are nonseverable and if any of the powers vested with the general assembly pursuant to chapter 536 to review, to delay the effective date, or to disapprove and annul a rule are subsequently held unconstitutional, then the grant of rulemaking authority and any rule proposed or adopted after August 28, 2012, shall be invalid and void.

5. Pursuant to section 23.253 of the Missouri sunset act:

(1) The provisions of the new program authorized under this section shall sunset automatically three years after August 28, 2021, unless reauthorized by an act of the general assembly; and

(2) If such program is reauthorized, the program authorized under this section shall sunset automatically three years after the effective date of the reauthorization of this section; and

If a nonreligious organization having as its principal purpose the provision of child care services enters into an arrangement with a religious organization for the maintenance or operation of a child care facility, the facility is not under the exclusive control of the religious organization.

2. Notwithstanding the provisions of subsection 1 of this section, no child-care facility shall be exempt from licensure if such facility receives any state or federal funds for providing care for children, except for federal funds for those programs which meet the requirements for participation in the Child and Adult Care Food Program pursuant to 42 U.S.C. Section 1766. Grants to parents for child care pursuant to sections 210.201 to 210.257 shall not be construed to be funds received by a person or facility listed in subdivisions (1) and (17) of subsection 1 of this section.

3. [Any] Every child care facility [not exempt from licensure] shall disclose the licensure status of the facility to the parents or guardians of children for which the facility provides care. No child care facility exempt from licensure shall represent to any parent or guardian of children for which the facility

provides care that the facility is licensed when such facility is in fact not licensed. A parent or guardian utilizing an unlicensed child care facility shall sign a written notice indicating he or she is aware of the [licensure] unlicensed status of the facility. The facility shall keep a copy of this signed written notice on file. All child care facilities shall provide the parent or guardian enrolling a child in the facility with a written explanation of the disciplinary philosophy and policies of the child care facility.

4. Up to two children who are five years of age or older and who are related within the third degree of consanguinity or affinity to, adopted by, or under court appointed guardianship or legal custody of a child care provider who is responsible for the daily operation of a licensed family child care home that is organized as a corporation, association, firm, partnership, limited liability company, sole proprietorship, or any other type of business entity in this state shall not be included in the number of children counted toward the maximum number of children for which the family child care home is licensed under section 210.221. If more than one member of the corporation, association, firm, partnership, limited liability company, or other business entity is responsible for the daily operation of the licensed family child care home, then the related children of only one such member shall be excluded. A family child care home caring for children not counted in the maximum number of children, as permitted under this subsection, shall disclose this to parents or guardians on the written notice required under subsection 3 of this section. If a family child care home begins caring for children not counted in the maximum number of children after a parent or guardian has signed the written notice required under subsection 3 of this section, the family child care home shall provide a separate notice to the parent or guardian that the family child care home is caring for children not counted in the maximum number of children for which the family child care home is licensed and shall keep a copy of the signed notice on file.

5. Nothing in this section shall prevent the department from enforcing licensing regulations promulgated under this chapter, including, but not limited to, supervision requirements and capacity limitations based on the amount of child care space available.

210.221. LICENSES TO BE ISSUED BY DEPARTMENT OF HEALTH AND SENIOR SERVICES — DUTY TO FIX STANDARDS AND MAKE INVESTIGATIONS — RULE VARIANCE GRANTED WHEN, PROCEDURE — SANCTIONING OF LICENSES, WHEN — DENIAL OF APPLICATION, WHEN. — 1. The department of [health and senior services] elementary and secondary education shall have the following powers and duties:

(1) After inspection, to grant licenses to persons to operate child-care facilities if satisfied as to the good character and intent of the applicant and that such applicant is qualified and equipped to render care or service conducive to the welfare of children. Each license shall specify the kind of child-care services the licensee is authorized to perform, the number of children that can be received or maintained, and their ages [and sex];

(2) To inspect the conditions of the homes and other places in which the applicant operates a child-care facility, inspect their books and records, premises and children being served, examine their officers and agents, deny, suspend, place on probation or revoke the license of such persons as fail to obey the provisions of sections 210.201 to 210.245 or the rules and regulations made by the department of [health and senior services] elementary and secondary education. The [director] commissioner also may revoke or suspend a license when the licensee [fails to renew or] surrenders the license;

(3) To promulgate and issue rules and regulations the department deems necessary or proper in order to establish standards of service and care to be rendered by such licensees to children. No rule or regulation promulgated by the [division] department shall in any manner restrict or interfere with any religious instruction, philosophies or ministries provided by the facility and shall not apply to facilities operated by religious organizations which are not required to be licensed;

(5) To determine what records shall be kept by such persons and the form thereof, and the methods to be used in keeping such records, and to require reports to be made to the department at regular intervals.

2. Any child-care facility may request a variance from a rule or regulation promulgated pursuant to this section. The request for a variance shall be made in writing to the department of [health and senior services] elementary and secondary education and shall include the reasons the facility is requesting the variance. The department shall approve any variance request that does not endanger the health or safety of the children served by the facility. The burden of proof at any appeal of a disapproval of a variance application shall be with the department of [health and senior services] elementary and secondary education. Local inspectors may grant a variance, subject to approval by the department of [health and senior services] elementary and secondary education.

3. The department shall deny, suspend, place on probation or revoke a license if it receives official written notice that the local governing body has found that license is prohibited by any local law related to the health and safety of children. The department may deny an application for a license if the department determines that a home or other place in which an applicant would operate a child-care facility is located within one thousand feet of any location where a person required to register under sections 589.400 to 589.425 either resides, as that term is defined in subsection 3 of section 566.147, or regularly receives treatment or services, excluding any treatment or services delivered in a hospital, as that term is defined in section 197.020, or in facilities owned or operated by a hospital system. The department may, after inspection, find the licensure, denial of licensure, suspension or revocation to be in the best interest of the state.

4. Any rule or portion of a rule, as that term is defined in section 536.010, that is created under the authority delegated in sections 210.201 to 210.245 shall become effective only if it complies with and is subject to all of the provisions of chapter 536 and, if applicable, section 536.028. All rulemaking authority delegated prior to August 28, 1999, is of no force and effect and repealed. Nothing in this section shall be interpreted to repeal or affect the validity of any rule filed or adopted prior to August 28, 1999, if it fully complied with all applicable provisions of law. This section and chapter 536 are nonseverable and if any of the powers vested with the general assembly pursuant to chapter 536 to review, to delay the effective date, or to disapprove and annul a rule are subsequently held unconstitutional, then the grant of rulemaking authority and any rule proposed or adopted after August 28, 1999, shall be invalid and void.

210.223. SAFE SLEEP POLICY TO BE MAINTAINED, PURPOSE — ALTERNATIVES, WRITTEN INSTRUCTIONS REQUIRED — DEFINITIONS — TRAINING — RULEMAKING AUTHORITY. — 1.

All licensed child care facilities that provide care for children less than one year of age shall implement and maintain a written safe sleep policy in accordance with the most recent safe sleep recommendations of the American Academy of Pediatrics. The purpose of the safe sleep policy is to maintain a safe sleep environment that reduces the risk of sudden infant death syndrome and sudden unexpected infant deaths in children less than one year of age.

2. When, in the opinion of the infant's licensed health care provider, an infant requires alternative sleep positions or special sleeping arrangements that differ from those set forth in the most recent sleep recommendations of the American Academy of Pediatrics, the child care facility shall be provided with written instructions, signed by the infant's licensed health care provider, detailing the alternative sleep positions or special sleeping arrangements for such infant. The child care facility shall put the infant to sleep in accordance with such written instructions.

3. As used in this section, the following terms shall mean:

(1) "Sudden infant death syndrome", the sudden death of an infant less than one year of age that cannot be explained after a thorough investigation has been conducted, including a complete autopsy, an examination of the death scene, and a review of the clinical history;

4. All employees of licensed child care facilities who care for infants less than one year of age or any volunteer who may be assisting at the facility shall successfully complete department-approved training on the most recent safe sleep recommendations of the American Academy of Pediatrics every three years.

5. The department of elementary and secondary education shall promulgate rules to implement the provisions of this section. Such rules shall include, but not be limited to:

(1) Amending any current rules which are not in compliance with the most recent safe sleep recommendations of the American Academy of Pediatrics[, including but not limited to 19 CSR 30.62-092(1)C which permits the use of bumper pads in cribs or playpens];

(2) Keeping soft or loose bedding away from sleeping infants and out of safe sleep environments, including, but not limited to, bumper pads, pillows, quilts, comforters, sleep positioning devices, sheepskins, blankets, flat sheets, cloth diapers, bibs, and other similar items; and

(3) Prohibiting blankets or other soft or loose bedding from being hung on the sides of cribs.

6. The department of elementary and secondary education may adopt emergency rules to implement the requirements of this section. Any rule or portion of a rule, as that term is defined in section 536.010, that is created under the authority delegated in this section shall become effective only if it complies with and is subject to all of the provisions of chapter 536 and, if applicable, section 536.028. This section and chapter 536 are nonseverable and if any of the powers vested with the general assembly pursuant to chapter 536 to review, to delay the effective date, or to disapprove and annul a rule are subsequently held unconstitutional, then the grant of rulemaking authority and any rule proposed or adopted after August 28, 2015, shall be invalid and void.

210.231. DEPARTMENT OF HEALTH AND SENIOR SERVICES MAY DELEGATE POWERS. —

Local inspection of child care facilities may be accomplished if the standards employed by local personnel are substantially equivalent to state standards and local personnel are available for enforcement of such standards.

210.241. JUDICIAL REVIEW. — Any person aggrieved by a final decision of the department of [health and senior services] elementary and secondary education made in the administration of sections 210.201 to 210.245 shall be entitled to judicial review thereof as provided in chapter 536.

210.245. VIOLATIONS, PENALTIES — PROSECUTOR MAY FILE SUIT TO OVERSEE OR PREVENT OPERATION OF DAY CARE CENTER — ATTORNEY GENERAL MAY SEEK INJUNCTION, WHEN — UNLICENSED FACILITIES, CIVIL PENALTY — FUND ESTABLISHED, USE OF MONEYS.

In case such guilty person is a corporation, association, institution or society, the officers thereof who participate in such misdemeanor shall be subject to the penalties provided by law.

2. If the department of [health and senior services] elementary and secondary education proposes to deny, suspend, place on probation or revoke a license, the department of [health and senior services] elementary and secondary education shall serve upon the applicant or licensee written notice of the proposed action to be taken. The notice shall contain a statement of the type of action proposed, the basis for it, the date the action will become effective, and a statement that the applicant or licensee shall have thirty days to request in writing a hearing before the administrative hearing commission and that such request shall be made to the department of [health and senior services] elementary and secondary education. If no written request for a hearing is received by the department of [health and senior services] elementary and secondary education within thirty days of the delivery or mailing by certified mail of the notice to the applicant or licensee, the proposed discipline shall take effect on the thirty-first day after such delivery or mailing of the notice to the applicant or licensee. If the applicant or licensee makes a written request for a hearing, the department of [health and senior services] elementary and secondary education shall file a complaint with the administrative hearing commission within ninety days of receipt of the request for a hearing.

3. The department of [health and senior services] elementary and secondary education may issue letters of censure or warning without formal notice or hearing. Additionally, the department of [health and senior services] elementary and secondary education may place a licensee on probation pursuant to chapter 621.

4. The department of [health and senior services] elementary and secondary education may suspend any license simultaneously with the notice of the proposed action to be taken in subsection 2 of this section, if the department of [health and senior services] elementary and secondary education finds that there is a threat of imminent bodily harm to the children in care. The notice of suspension shall include the basis of the suspension and the appeal rights of the licensee pursuant to this section. The licensee may appeal the decision to suspend the license to the department of [health and senior services] elementary and secondary education. The appeal shall be filed within ten days from the delivery or mailing by certified mail of the notice of appeal. A hearing shall be conducted by the department of [health and senior services] elementary and secondary education within ten days from the date the appeal is filed. The suspension shall continue in effect until the conclusion of the proceedings, including review thereof, unless sooner withdrawn by the department of [health and senior services] elementary and secondary education, dissolved by a court of competent jurisdiction or stayed by the administrative hearing commission. Any person aggrieved by a final decision of the department made pursuant to this section shall be entitled to judicial review in accordance with chapter 536.

5. In addition to initiating proceedings pursuant to subsection 1 of this section, or in lieu thereof, the prosecuting attorney of the county where the child-care facility is located may file suit for a preliminary and permanent order overseeing or preventing the operation of a child-care facility for violating any provision of sections 210.201 to 210.245. The order shall remain in force until such a time as the court determines that the child-care facility is in substantial compliance. If the prosecuting attorney refuses to act or fails to act after receipt of notice from the department of [health and senior services] elementary and secondary education, the department of [health and senior services] elementary and secondary education may request that the attorney general seek an injunction of the operation of such child-care facility.

6. In cases of imminent bodily harm to children in the care of a child-care facility, including an unlicensed, nonexempt facility, the department may file suit in the circuit court of the county in which the child-care facility is located for injunctive relief, which may include removing the children from the facility, overseeing the operation of the facility or closing the facility. Failure by the department to file suit under the provisions of this subsection shall not be construed as creating any liability in tort or incurring other obligations or duties except as otherwise specified.

7. Any person who operates an unlicensed, nonexempt child-care facility in violation of the provisions of sections 210.201 to 210.245 shall be liable for a civil penalty of not less than seven hundred

The notice shall contain a statement that the person shall have thirty days to become compliant with sections 210.245, including attaining exempt status or becoming licensed. The person's failure to do so shall result in a civil action in the circuit court of Cole County or criminal charges under this section. If, following the receipt of the written notice, the person operating the child-care facility fails to become compliant with sections 210.245, the department may bring a civil action in the circuit court of Cole County against such person. The department may, but shall not be required to, request that the attorney general bring the action in place of the department. No civil action provided by this subsection shall be brought if the criminal penalties under subsection 1 of this section have been previously ordered against the person for the same violation. Failure by the department to file suit under the provisions of this subsection shall not be construed as creating any liability in tort or incurring other obligations or duties except as otherwise specified.

8. There shall be established the "Family Child Care Provider Fund" in the state treasury, which shall consist of such funds as appropriated by the general assembly. The state treasurer shall be custodian of the fund. In accordance with sections 30.170 and 30.180, the state treasurer may approve disbursements. The fund shall be a dedicated fund and moneys in the fund shall be used solely by the department for the dissemination of information concerning compliance with child-care facility laws and regulations, including licensed or exempt status; educational initiatives relating to, inter alia, child care, safe sleep practices, and child nutrition; and the provision of financial assistance on the basis of need for family child-care homes to become licensed, as determined by the department and subject to available moneys in the fund. Notwithstanding the provisions of section 33.080 to the contrary, any moneys remaining in the fund at the end of the biennium shall not revert to the credit of the general revenue fund. The request for a variance shall be made in writing to the department of elementary and secondary education and shall include the reasons the facility is requesting the variance. 3. In cases of imminent bodily harm to children in the care of a child-care facility, the department of [health and senior services] elementary and secondary education may apply to the circuit court of the county in which the child-care facility is located for injunctive relief, which may include removing the children from the facility, overseeing the operation of the facility or closing the facility.

If emergency placement of a child with [a grandparent] grandparents or relatives is deemed not to be in the best interest of the child, the children's division shall document in writing the reason [the grandparent has been denied emergency placement] for denial and shall have just cause to deny the emergency placement. Notwithstanding any rule of the division to the contrary, the children's division shall ~~make diligent efforts to~~ complete a diligent search to locate and notify the grandparents, adult siblings, ~~and~~ parents of siblings of the child, and all other relatives and determine whether they wish to be considered for placement of the child. Grandparents who request consideration shall be given preference and first consideration for foster home placement of the child. If more than one grandparent requests consideration, the family support team shall make recommendations to the juvenile or family court about which grandparent should be considered for placement.

(1) "Adult sibling", any brother or sister of whole or half-blood who is at least eighteen years of age;

(2) "Relative", a grandparent or any other person related to another by blood or affinity or a person who is not so related to the child but has a close relationship with the child or the child's family. If the court finds that it is contrary to the best interest of a child to be placed with grandparents or other relatives, the court shall make specific findings on the record detailing the reasons why the best interests of the child necessitate placement of the child with persons other than grandparents or other relatives.

5. Recognizing the critical nature of sibling bonds for children, the children's division shall make reasonable efforts to place siblings in the same foster care, kinship, guardianship, or adoptive placement, unless doing so would be contrary to the safety or well-being of any of the siblings. 9. The guardian ad litem shall ascertain the child's wishes and feelings about his or her placement by conducting an interview or interviews with the child, if appropriate based on the child's age and maturity level, which shall be considered as a factor in placement decisions and recommendations, but shall not supersede the preference for relative placement created by this section or be contrary to the child's best interests.

For the purposes of sections 144.010 to 144.525 the total amount of the sale price above mentioned shall be deemed to be the amount received. It shall also include the lease or rental consideration where the right to continuous possession or use of any article of tangible personal property is granted under a lease or contract and such transfer of possession would be taxable if outright sale were made and, in such cases, the same shall be taxable as if outright sale were made and considered as a sale of such article, and the tax shall be computed and paid by the lessee upon the rentals paid. The term gross receipts shall not include usual and customary delivery charges that are stated separately from the sale price;

144.030. EXEMPTIONS FROM STATE AND LOCAL SALES AND USE TAXES. — 1. There is hereby specifically exempted from the provisions of sections 144.010 to 144.525 and from the computation of the tax levied, assessed or payable pursuant to sections 144.010 to 144.525 such retail sales as may be made in commerce between this state and any other state of the United States, or between this state and any foreign country, and any retail sale which the state of Missouri is prohibited from taxing pursuant to the Constitution or laws of the United States of America, and such retail sales of tangible personal property which the general assembly of the state of Missouri is prohibited from taxing or further taxing by the constitution of this state.

2. There are also specifically exempted from the provisions of the local sales tax law as defined in section 32.085, section 238.235, and sections 144.010 to 144.525 and 144.600 to 144.761 and from the computation of the tax levied, assessed or payable pursuant to the local sales tax law as defined in section 32.085, section 238.235, and sections 144.010 to 144.525 and 144.600 to 144.745:

provisions of the Missouri pesticide registration law, sections 281.220 to 281.310, which are to be used in connection with the growth or production of crops, fruit trees or orchards applied before, during, or after planting, the crop of which when harvested will be sold at retail or will be converted into foodstuffs which are to be sold ultimately in processed form at retail;

(2) Materials, manufactured goods, machinery and parts which when used in manufacturing, processing, compounding, mining, producing or fabricating become a component part or ingredient of the new personal property resulting from such manufacturing, processing, compounding, mining, producing or fabricating and which new personal property is intended to be sold ultimately for final use or consumption; and materials, including without limitation, gases and manufactured goods, including without limitation slagging materials and firebrick, which are ultimately consumed in the manufacturing process by blending, reacting or interacting with or by becoming, in whole or in part, component parts or ingredients of steel products intended to be sold ultimately for final use or consumption;

(3) Materials, replacement parts and equipment purchased for use directly upon, and for the repair and maintenance or manufacture of, motor vehicles, watercraft, railroad rolling stock or aircraft engaged as common carriers of persons or property;

(4) Replacement machinery, equipment, and parts and the materials and supplies solely required for the installation or construction of such replacement machinery, equipment, and parts, used directly in manufacturing, mining, fabricating or producing a product which is intended to be sold ultimately for final use or consumption; and machinery and equipment, and the materials and supplies required solely for the operation, installation or construction of such machinery and equipment, purchased and used to establish new, or to replace or expand existing, material recovery processing plants in this state. For the purposes of this subdivision, a "material recovery processing plant" means a facility that has as its primary purpose the recovery of materials into a usable product or a different form which is used in producing a new product and shall include a facility or equipment which are used exclusively for the collection of recovered materials for delivery to a material recovery processing plant but shall not include motor vehicles used on highways. For purposes of this section, the terms motor vehicle and highway shall have the same meaning pursuant to section 301.010. For the purposes of this subdivision, subdivision (5) of this subsection, and section 144.054, as well as the definition in subdivision (9) of subsection 1 of section 144.010, the term "product" includes telecommunications services and the term "manufacturing" shall include the production, or production and transmission, of telecommunications services. The preceding sentence does not make a substantive change in the law and is intended to clarify that the term "manufacturing" has included and continues to include the production and transmission of "telecommunications services", as enacted in this subdivision and subdivision (5) of this subsection, as well as the definition in subdivision (9) of subsection 1 of section 144.010. The preceding two sentences reaffirm legislative intent consistent with the interpretation of this subdivision and subdivision (5) of this subsection in *Southwestern Bell Tel. Co. v. Director of Revenue*, 78 S.W.3d 763 (Mo. banc 2002) and *Southwestern Bell Tel. Co. v. Director of Revenue*, 182 S.W.3d 226 (Mo. banc 2005), and accordingly abrogates the Missouri supreme court's interpretation of those exemptions in *IBM Corporation v. Director of Revenue*, 491 S.W.3d 535 (Mo. banc 2016) to the extent inconsistent with this section and *Southwestern Bell Tel. Co. v. Director of Revenue*, 78 S.W.3d 763 (Mo. banc 2002) and *Southwestern Bell Tel. Co. v. Director of Revenue*, 182 S.W.3d 226 (Mo. banc 2005). The construction and application of this subdivision as expressed by the Missouri supreme court in *DST Systems, Inc. v. Director of Revenue*, 43 S.W.3d 799 (Mo. banc 2001); *Southwestern Bell Tel. Co. v. Director of Revenue*, 78 S.W.3d 763 (Mo. banc 2002); and *Southwestern Bell Tel. Co. v. Director of Revenue*, 182 S.W.3d 226 (Mo. banc 2005), is hereby affirmed. Material recovery is not the reuse of materials within a manufacturing process or the use of a product previously recovered. The material recovery processing plant shall qualify under the provisions of this section regardless of ownership of the material being recovered;

(5) Machinery and equipment, and parts and the materials and supplies solely required for the installation or construction of such machinery and equipment, purchased and used to establish new or to expand existing manufacturing, mining or fabricating plants in the state if such machinery and equipment is used directly in manufacturing, mining or fabricating a product which is intended to be sold ultimately for final use or consumption. The construction and application of this subdivision as expressed by the Missouri supreme court in *DST Systems, Inc. v. Director of Revenue*, 43 S.W.3d 799 (Mo. banc 2001); *Southwestern Bell Tel. Co. v. Director of Revenue*, 78 S.W.3d 763 (Mo. banc 2002); and *Southwestern Bell Tel. Co. v. Director of Revenue*, 182 S.W.3d 226 (Mo. banc 2005), is hereby affirmed;

There shall be a rebuttable presumption that the raw materials used in the primary manufacture of automobiles contain at least twenty-five percent recovered materials. For purposes of this subdivision, "processing" means any mode of treatment, act or series of acts performed upon materials to transform and reduce them to a different state or thing, including treatment necessary to maintain or preserve such processing by the producer at the production facility;

386.266. RATE SCHEDULES FOR INTERIM ENERGY CHARGES OR PERIODIC RATE ADJUSTMENT — APPLICATION FOR APPROVAL, PROCEDURE — ADJUSTMENT MECHANISMS — RULEMAKING AUTHORITY — TASK FORCE TO BE APPOINTED — SURVEILLANCE MONITORING, REQUIREMENTS. — 1. Subject to the requirements of this section, any electrical corporation may make an application to the commission to approve rate schedules authorizing an interim energy charge, or periodic rate adjustments outside of general rate proceedings to reflect increases and decreases in its prudently incurred fuel and purchased-power costs, including transportation. The commission may, in accordance with existing law, include in such rate schedules features designed to provide the electrical corporation with incentives to improve the efficiency and cost-effectiveness of its fuel and purchased-power procurement activities.

2. Subject to the requirements of this section, any electrical, gas, or water corporation may make an application to the commission to approve rate schedules authorizing periodic rate adjustments outside of general rate proceedings to reflect increases and decreases in its prudently incurred costs, whether capital or expense, to comply with any federal, state, or local environmental law, regulation, or rule. Any rate adjustment made under such rate schedules shall not exceed an annual amount equal to two and one-half percent of the electrical, gas, or water corporation's Missouri gross jurisdictional revenues, excluding gross receipts tax, sales tax and other similar pass-through taxes not included in tariffed rates, for regulated services as established in the utility's most recent general rate case or complaint proceeding. In addition to the rate adjustment, the electrical, gas, or water corporation shall be permitted to collect any applicable gross receipts tax, sales tax, or other similar pass-through taxes, and such taxes shall not be counted against the two and one-half percent rate adjustment cap. Any costs not recovered as a result of the annual two and one-half percent limitation on rate adjustments may be deferred, at a carrying cost each month equal to the utilities net of tax cost of capital, for recovery in a subsequent year or in the corporation's next general rate case or complaint proceeding.

3. Subject to the requirements of this section, any gas or electrical corporation may make an application to the commission to approve rate schedules authorizing periodic rate adjustments outside of general rate proceedings to adjust rates of customers in eligible customer classes to account for the impact on utility revenues of increases or decreases in residential and commercial customer usage due to variations in either weather, conservation, or both. [No electrical corporation shall make an application to the commission under this subsection if such corporation has provided notice to the commission under subsection 5 of section 393.1400.] For purposes of this section: for electrical corporations, "eligible customer classes" means the residential class and classes that are not demand metered; and for gas corporations, "eligible customer classes" means the residential class and the smallest general service class. As used in this subsection, "revenues" means the revenues recovered through base rates, and does not include revenues collected through a rate adjustment mechanism authorized by this section or any other provisions of law. This subsection shall apply to electrical corporations beginning January 1, 2019, and shall expire for electrical corporations on January 1, 2029.

EXPLANATION--Matter enclosed in bold-faced brackets [thus] is not enacted and is intended to be omitted in the law.
Matter underscored is proposed language.

An electrical corporation may make a one-time application to the commission under this subsection if such corporation has provided notice to the commission under subsection 5 of section 393.1400, provided the corporation shall not concurrently utilize electric rate adjustments under this subsection and the deferrals set forth in subsection 5 of section 393.1400.

4. Subject to the requirements of this section, a water corporation with more than eight thousand Missouri retail customers may make an application to the commission to approve rate schedules authorizing periodic rate adjustments outside of general rate proceedings to ensure revenues billed by such water corporation for regulated services equal the revenue requirement for regulated services as established in the water corporation's most recent general rate proceeding or complaint proceeding, excluding any other commission-approved surcharges and gross receipts tax, sales tax, and other similar pass-through taxes not included in tariffed rates, due to any revenue variation resulting from increases or decreases in residential, commercial, public authority, and sale for resale usage.

5. The commission shall have the power to approve, modify, or reject adjustment mechanisms submitted under subsections 1 to 4 of this section only after providing the opportunity for a full hearing in a general rate proceeding, including a general rate proceeding initiated by complaint. The commission may approve such rate schedules after considering all relevant factors which may affect the costs or overall rates and charges of the corporation, provided that it finds that the adjustment mechanism set forth in the schedules:

(1) Is reasonably designed to provide the utility with a sufficient opportunity to earn a fair return on equity;

(2) Includes provisions for an annual true-up which shall accurately and appropriately remedy any over- or under-collections, including interest at the utility's short-term borrowing rate, through subsequent rate adjustments or refunds;

(3) In the case of an adjustment mechanism submitted under subsections 1 and 2 of this section, includes provisions requiring that the utility file a general rate case with the effective date of new rates to be no later than four years after the effective date of the commission order implementing the adjustment mechanism. However, with respect to each mechanism, the four-year period shall not include any periods in which the utility is prohibited from collecting any charges under the adjustment mechanism, or any period for which charges collected under the adjustment mechanism must be fully refunded. In the event a court determines that the adjustment mechanism is unlawful and all moneys collected thereunder are fully refunded, the utility shall be relieved of any obligation under that adjustment mechanism to file a rate case;

(4) In the case of an adjustment mechanism submitted under subsection 1 or 2 of this section, includes provisions for prudence reviews of the costs subject to the adjustment mechanism no less frequently than at eighteen-month intervals, and shall require refund of any imprudently incurred costs plus interest at the utility's short-term borrowing rate.

6. Once such an adjustment mechanism is approved by the commission under this section, it shall remain in effect until such time as the commission authorizes the modification, extension, or discontinuance of the mechanism in a general rate case or complaint proceeding.

7. Any amounts charged under any adjustment mechanism approved by the commission under this section shall be separately disclosed on each customer bill.

8. The commission may take into account any change in business risk to the corporation resulting from implementation of the adjustment mechanism in setting the corporation's allowed return in any rate proceeding, in addition to any other changes in business risk experienced by the corporation.

9. In the event the commission lawfully approves an incentive- or performance-based plan, such plan shall be binding on the commission for the entire term of the plan. This subsection shall not be construed to authorize or prohibit any incentive- or performance-based plan.

10. Prior to August 28, 2005, for subsections 1 to 3 of this section, and upon August 28, 2018, for subsection 4 of this section, the commission shall have the authority to promulgate rules under the

EXPLANATION--Matter enclosed in bold-faced brackets [thus] is not enacted and is intended to be omitted in the law.
Matter underscored is proposed language.

provisions of chapter 536 as it deems necessary, to govern the structure, content and operation of such rate adjustments, and the procedure for the submission, frequency, examination, hearing and approval of such rate adjustments. Any electrical, gas, or water corporation may apply for any adjustment mechanism under this section whether or not the commission has promulgated any such rules.

11. Nothing contained in this section shall be construed as affecting any existing adjustment mechanism, rate schedule, tariff, incentive plan, or other ratemaking mechanism currently approved and in effect.

12. Each of the provisions of this section is severable. In the event any provision or subsection of this section is deemed unlawful, all remaining provisions shall remain in effect.

13. The provisions of subsections 1 to 3 of this section shall take effect on January 1, 2006, and the commission shall have previously promulgated rules to implement the application process for any rate adjustment mechanism under subsections 1 to 3 of this section prior to the commission issuing an order for any such rate adjustment.

14. The public service commission shall appoint a task force, consisting of all interested parties, to study and make recommendations on the cost recovery and implementation of conservation and weatherization programs for electrical and gas corporations.

This section shall be known and may be cited as the "Net Metering and Easy Connection Act".

2. As used in this section, the following terms shall mean:

(1) "Avoided fuel cost", the current average cost of fuel for the entity generating electricity, as defined by the governing body with jurisdiction over any municipal electric utility, rural electric cooperative as provided in chapter 394, or electrical corporation as provided in this chapter;

(2) "Commission", the public service commission of the state of Missouri;

(3) "Customer-generator", the owner or operator of a qualified electric energy generation unit which:

(a) Is powered by a renewable energy resource;

(b) Has an electrical generating system with a capacity of not more than one hundred kilowatts;

(c) Is located on a premises owned, operated, leased, or otherwise controlled by the customer-generator;

(d) Is interconnected and operates in parallel phase and synchronization with a retail electric supplier and has been approved by said retail electric supplier;

EXPLANATION--Matter enclosed in bold-faced brackets [thus] is not enacted and is intended to be omitted in the law.

Matter underscored is proposed language.

(e) Is intended primarily to offset part or all of the customer-generator's own electrical energy requirements;

(f) Meets all applicable safety, performance, interconnection, and reliability standards established by the National Electrical Code, the National Electrical Safety Code, the Institute of Electrical and Electronics Engineers, Underwriters Laboratories, the Federal Energy Regulatory Commission, and any local governing authorities; and

(g) Contains a mechanism that automatically disables the unit and interrupts the flow of electricity back onto the supplier's electricity lines in the event that service to the customer-generator is interrupted;

(4) "Department", the department of **[economic development]** natural resources;

(5) "Net metering", using metering equipment sufficient to measure the difference between the electrical energy supplied to a customer-generator by a retail electric supplier and the electrical energy supplied by the customer-generator to the retail electric supplier over the applicable billing period;

(6) "Renewable energy resources", electrical energy produced from wind, solar thermal sources, hydroelectric sources, photovoltaic cells and panels, fuel cells using hydrogen produced by one of the above-named electrical energy sources, and other sources of energy that become available after August 28, 2007, and are certified as renewable by the department;

(7) "Retail electric supplier" or "supplier", any **[municipal]** municipally owned electric utility operating under chapter 91, electrical corporation regulated by the commission under this chapter, or rural electric cooperative operating under chapter 394 that provides retail electric service in this state. An electrical corporation that operates under a cooperative business plan as described in subsection 2 of section 393.110 shall be deemed to be a rural electric cooperative for purposes of this section.

3. A retail electric supplier shall:

(1) Make net metering available to customer-generators on a first-come, first-served basis until the total rated generating capacity of net metering systems equals five percent of the **[utility's]** retail electric supplier's single-hour peak load during the previous year, after which the commission for **[a public utility]** an electrical corporation or the respective governing body **[for]** of other [electric utilities] retail electric suppliers may increase the total rated generating capacity of net metering systems to an amount above five percent. However, in a given calendar year, no retail electric supplier shall be required to approve any application for interconnection if the total rated generating capacity of all applications for interconnection already approved to date by said supplier in said calendar year equals or exceeds one percent of said supplier's single-hour peak load for the previous calendar year;

(2) Offer to the customer-generator a tariff or contract that is identical in electrical energy rates, rate structure, and monthly charges to the contract or tariff that the customer would be assigned if the customer were not an eligible customer-generator but shall not charge the customer-generator any additional standby, capacity, interconnection, or other fee or charge that would not otherwise be charged if the customer were not an eligible customer-generator; and

(3) Disclose annually the availability of the net metering program to each of its customers with the method and manner of disclosure being at the discretion of the supplier.

4. A customer-generator's facility shall be equipped with sufficient metering equipment that can measure the net amount of electrical energy produced or consumed by the customer-generator. If the customer-generator's existing meter equipment does not meet these requirements or if it is necessary for the retail electric supplier to install additional distribution equipment to accommodate the customer-generator's facility, the customer-generator shall reimburse the retail electric supplier for the costs to purchase and install the necessary additional equipment. At the request of the customer-generator, such costs may be initially paid for by the retail electric supplier, and any amount up to the total costs and a reasonable interest charge may be recovered from the customer-generator over the course of up to twelve billing cycles. Any subsequent meter testing, maintenance or meter equipment change necessitated by the customer-generator shall be paid for by the customer-generator.

5. Consistent with the provisions in this section, the net electrical energy measurement shall be calculated in the following manner:

(1) For a customer-generator, a retail electric supplier shall measure the net electrical energy produced or consumed during the billing period in accordance with normal metering practices for customers in the same rate class, either by employing a single, bidirectional meter that measures the amount of electrical energy produced and consumed, or by employing multiple meters that separately measure the customer-generator's consumption and production of electricity;

(2) If the electricity supplied by the supplier exceeds the electricity generated by the customer-generator during a billing period, the customer-generator shall be billed for the net electricity supplied by the supplier in accordance with normal practices for customers in the same rate class;

(3) If the electricity generated by the customer-generator exceeds the electricity supplied by the supplier during a billing period, the customer-generator shall be billed for the appropriate customer charges for that billing period in accordance with subsection 3 of this section and shall be credited an amount at least equal to the avoided fuel cost of the excess kilowatt-hours generated during the billing period, with this credit applied to the following billing period;

(4) Any credits granted by this subsection shall expire without any compensation at the earlier of either twelve months after their issuance or when the customer-generator disconnects service or terminates the net metering relationship with the supplier;

(5) For any rural electric cooperative under chapter 394, or [municipal] any municipally owned utility, upon agreement of the wholesale generator supplying electric energy to the retail electric supplier, at the option of the retail electric supplier, the credit to the customer-generator may be provided by the wholesale generator.

6. (1) Each qualified electric energy generation unit used by a customer-generator shall meet all applicable safety, performance, interconnection, and reliability standards established by any local code authorities, the National Electrical Code, the National Electrical Safety Code, the Institute of Electrical and Electronics Engineers, and Underwriters Laboratories for distributed generation. No supplier shall impose any fee, charge, or other requirement not specifically authorized by this section or the rules promulgated under subsection 9 of this section unless the fee, charge, or other requirement would apply to similarly situated customers who are not customer-generators, except that a retail electric supplier may require that a customer-generator's system contain a switch, circuit breaker, fuse, or other easily accessible device or feature located in immediate proximity to the customer-generator's metering equipment that would allow a utility worker the ability to manually and instantly disconnect the unit from the utility's electric distribution system.

(2) For systems of ten kilowatts or less, a customer-generator whose system meets the standards and rules under subdivision (1) of this subsection shall not be required to install additional controls, perform or pay for additional tests or distribution equipment, or purchase additional liability insurance beyond what is required under subdivision (1) of this subsection and subsection 4 of this section.

(3) For customer-generator systems of greater than ten kilowatts, the commission for [public utilities] electrical corporations and the respective governing body for other [utilities] retail electric suppliers shall, by rule or equivalent formal action by each respective governing body:

(a) Set forth safety, performance, and reliability standards and requirements; and

(b) Establish the qualifications for exemption from a requirement to install additional controls, perform or pay for additional tests or distribution equipment, or purchase additional liability insurance.

7. (1) Applications by a customer-generator for interconnection of a qualified electric energy generation unit meeting the requirements of subdivision (3) of subsection 2 of this section to the distribution system shall be accompanied by the plan for the customer-generator's electrical generating system, including but not limited to a wiring diagram and specifications for the generating unit, and shall be reviewed and responded to by the retail electric supplier within thirty days of receipt for systems ten kilowatts or less and within ninety days of receipt for all other systems. Prior to the interconnection

of the qualified generation unit to the supplier's system, the customer-generator will furnish the retail electric supplier a certification from a qualified professional electrician or engineer that the installation meets the requirements of subdivision (1) of subsection 6 of this section. If the application for interconnection is approved by the retail electric supplier and the customer-generator does not complete the interconnection within one year after receipt of notice of the approval, the approval shall expire and the customer-generator shall be responsible for filing a new application.

(2) Upon the change in ownership of a qualified electric energy generation unit, the new customer-generator shall be responsible for filing a new application under subdivision (1) of this subsection.

8. Each [commission-regulated supplier] electrical corporation shall submit an annual net metering report to the commission, and all other [nonregulated] retail electric suppliers shall submit the same report to their respective governing body and make said report available to a consumer of the supplier upon request, including the following information for the previous calendar year:

- (1) The total number of customer-generator facilities;
- (2) The total estimated generating capacity of its net-metered customer-generators; and
- (3) The total estimated net kilowatt-hours received from customer-generators.

9. The commission shall, within nine months of January 1, 2008, promulgate initial rules necessary for the administration of this section for [public utilities] electrical corporations, which shall include regulations ensuring that simple contracts will be used for interconnection and net metering. For systems of ten kilowatts or less, the application process shall use an all-in-one document that includes a simple interconnection request, simple procedures, and a brief set of terms and conditions. Any rule or portion of a rule, as that term is defined in section 536.010, that is created under the authority delegated in this section shall become effective only if it complies with and is subject to all of the provisions of chapter 536 and, if applicable, section 536.028. This section and chapter 536 are nonseverable and if any of the powers vested with the general assembly under chapter 536 to review, to delay the effective date, or to disapprove and annul a rule are subsequently held unconstitutional, then the grant of rulemaking authority and any rule proposed or adopted after August 28, 2007, shall be invalid and void.

10. The governing body of a rural electric cooperative or municipal utility shall, within nine months of January 1, 2008, adopt policies establishing a simple contract to be used for interconnection and net metering. For systems of ten kilowatts or less, the application process shall use an all-in-one document that includes a simple interconnection request, simple procedures, and a brief set of terms and conditions.

11. For any cause of action relating to any damages to property or person caused by the qualified electric energy generation unit of a customer-generator or the interconnection thereof, the retail electric supplier shall have no liability absent clear and convincing evidence of fault on the part of the supplier.

12. The estimated generating capacity of all net metering systems operating under the provisions of this section shall count towards the respective retail electric supplier's accomplishment of any renewable energy portfolio target or mandate adopted by the Missouri general assembly.

13. The sale of qualified electric energy generation units to any customer-generator shall be subject to the provisions of sections 407.010 to 407.145 and sections 407.700 to 407.720. The attorney general shall have the authority to promulgate in accordance with the provisions of chapter 536 rules regarding mandatory disclosures of information by sellers of qualified electric energy generation units. Any interested person who believes that the seller of any qualified electric energy generation unit is misrepresenting the safety or performance standards of any such systems, or who believes that any electric energy generation unit poses a danger to any property or person, may report the same to the attorney general, who shall be authorized to investigate such claims and take any necessary and appropriate actions.

14. Any costs incurred under this act by a retail electric supplier shall be recoverable in that utility's rate structure.

15. No consumer shall connect or operate [an] a qualified electric energy generation unit in parallel phase and synchronization with any retail electric supplier without written approval by said supplier that all of the requirements under subdivision (1) of subsection 7 of this section have been met. For a consumer who violates this provision, a supplier may immediately and without notice disconnect the electric facilities of said consumer and terminate said consumer's electric service.

16. The manufacturer of any qualified electric energy generation unit used by a customer-generator may be held liable for any damages to property or person caused by a defect in the qualified electric energy generation unit of a customer-generator.

17. The seller, installer, or manufacturer of any qualified electric energy generation unit who knowingly misrepresents the safety aspects of [an] a qualified electric generation unit may be held liable for any damages to property or person caused by the qualified electric energy generation unit of a customer-generator.

393.1275. REGULATORY ASSET OR LIABILITY ACCOUNTS — CORPORATIONS TO DEFER PORTION OF LOCAL PROPERTY TAXES TO ACCOUNT, HOW CALCULATED — RATE BASE ADJUSTMENT, WHEN. — 1. The provisions of section 386.020 defining words, phrases, and terms shall apply to and determine the meaning of all such words, phrases, or terms as used in this section.

2. Electrical corporations, gas corporations, sewer corporations, and water corporations shall defer to a regulatory asset or liability account any difference in state or local property tax expenses actually incurred, and those on which the revenue requirement used to set rates in the corporation's most recently completed general rate proceeding was based. The regulatory asset or liability account balances shall be included in the revenue requirement used to set rates through an amortization over a reasonable period of time in such corporation's subsequent general rate proceedings. The commission shall also adjust the rate base used to establish the revenue requirement of such corporation to reflect the unamortized regulatory asset or liability account balances in such general rate proceedings. Such expenditures deferred under the provisions of this section are subject to commission prudence review in the next general rate proceeding after deferral.

393.1400. DEFERRAL OF DEPRECIATION TO REGULATORY ASSET — RETURN FOR QUALIFYING ELECTRIC PLANT RECORDED TO PLANT-IN-SERVICE ON UTILITY'S BOOKS — DEFINITIONS — REGULATORY ASSET BALANCES — REQUIREMENTS — GRID MODERNIZATION PROJECTS — EXPIRATION DATE. — 1. For purposes of this section, the following terms shall mean:

- (1) "Commission", the public service commission;
- (2) "Electrical corporation", the same as defined in section 386.020, but shall not include an electrical corporation as described in subsection 2 of section 393.110;
- (3) "Qualifying electric plant", all rate-base additions, except rate-base additions for new coal-fired generating units, new nuclear generating units, new natural gas units, or rate-base additions that increase revenues by allowing service to new customer premises;
- (4) "Rate-base cutoff date", the date rate-base additions are accounted for in a general rate proceeding. In the absence of a commission order that specifies the rate-base cutoff date, such date as reflected in any jointly proposed procedural schedule submitted by the parties in the applicable general rate proceeding, or as otherwise agreed to by such parties, shall be used;
- (5) "Weighted average cost of capital", the return on rate base used to determine the revenue requirement in the electrical corporation's most recently completed general rate proceeding; provided, that in the absence of a commission determination of the return on rate base within the three-year period prior to August 28, [2018] 2022, the weighted average cost of capital shall be determined using the electrical corporation's actual capital structure as of December 31, [2017] 2021, excluding short-term debt, the electrical corporation's actual cost of long-term debt and preferred stock as of December 31, [2017] 2021, and a cost of common equity of nine and one-half percent.

2. (1) Notwithstanding any other provision of this chapter to the contrary, electrical corporations shall defer to a regulatory asset eighty-five percent of all depreciation expense and return associated

with all qualifying electric plant recorded to plant-in-service on the utility's books commencing on or after August 28, 2018, if the electrical corporation has made the election provided for by subsection 5 of this section by that date, or on the date such election is made if the election is made after August 28, 2018. In each general rate proceeding concluded after August 28, 2018, the balance of the regulatory asset as of the rate-base cutoff date shall, subject only to the cap provided for in section 393.1655 or section 393.1656, as applicable, be included in the electrical corporation's rate base without any offset, reduction, or adjustment based upon consideration of any other factor, other than as provided for in subdivision (2) of this subsection, with the regulatory asset balance arising from deferrals associated with qualifying electric plant placed in service after the rate-base cutoff date to be included in rate base in the next general rate proceeding. The expiration of this section shall not affect the continued inclusion in rate base and amortization of regulatory asset balances that arose under this section prior to such expiration.

(2) The regulatory asset balances arising under this section shall be adjusted to reflect any prudence disallowances ordered by the commission. The provisions of this section shall not be construed to affect existing law respecting the burdens of production and persuasion in general rate proceedings for rate-base additions.

(3) Parts of regulatory asset balances created under this section that are not yet being recovered through rates shall include carrying costs at the electrical corporation's weighted average cost of capital, plus applicable federal, state, and local income or excise taxes. Regulatory asset balances arising under this section and included in rate base shall be recovered in rates through a twenty-year amortization beginning on the date new rates reflecting such amortization take effect.

3. (1) Depreciation expense deferred under this section shall account for all qualifying electric plant placed into service less retirements of plant replaced by such qualifying electric plant.

(2) Return deferred under this section shall be determined using the weighted average cost of capital applied to the change in plant-related rate base caused by the qualifying electric plant, plus applicable federal, state, and local income or excise taxes. In determining the return deferred, the electrical corporation shall account for changes in all plant-related accumulated deferred income taxes and changes in accumulated depreciation, excluding retirements.

4. Beginning February 28, 2019, and by each February twenty-eighth thereafter while the electrical corporation is allowed to make the deferrals provided for by subsection 2 of this section, electrical corporations that defer depreciation expense and return authorized under this section shall submit to the commission a five-year capital investment plan setting forth the general categories of capital expenditures the electrical corporation will pursue in furtherance of replacing, modernizing, and securing its infrastructure. The plan shall also include a specific capital investment plan for the first year of the five-year plan consistent with the level of specificity used for annual capital budgeting purposes. For each project in the specific capital investment plan on which construction commences on or after January first of the year in which the plan is submitted, and where the cost of the project is estimated to exceed twenty million dollars, the electrical corporation shall identify all costs and benefits that can be quantitatively evaluated and shall further identify how those costs and benefits are quantified. For any cost or benefit with respect to such a project that the electrical corporation believes cannot be quantitatively evaluated, the electrical corporation shall state the reasons the cost or benefit cannot be quantitatively evaluated, and how the electrical corporation addresses such costs and benefits when reviewing and deciding to pursue such a project. No such project shall be based solely on costs and benefits that the electrical corporation believes cannot be quantitatively evaluated. Any quantification for such a project that does not produce quantified benefits exceeding the costs shall be accompanied by additional justification in support of the project. For each of the first five years that an electrical corporation is allowed to make the deferrals provided for by subsection 2 of this section, the purchase and installation of smart meters shall constitute no more than six percent of the electrical corporation's total capital expenditures during any given year under the corporation's specific capital investment plan.

EXPLANATION--Matter enclosed in bold-faced brackets [thus] is not enacted and is intended to be omitted in the law.

Matter underscored is proposed language.

At least twenty-five percent of the cost of each year's capital investment plan shall be comprised of grid modernization projects, including but not limited to:

- (1) Increased use of digital information and controls technology to improve reliability, security, and efficiency of the electric grid;
- (2) Dynamic optimization of grid operations and resources, with full cybersecurity;
- (3) Deployment and integration of distributed resources and generation, including renewable resources;
- (4) Development and incorporation of demand response, demand-side resources, and energy-efficiency resources;
- (5) Deployment of smart technologies (real-time, automated, interactive technologies that optimize the physical operation of appliances and consumer devices) for metering, communications, concerning grid operations and status, and distribution automation;
- (6) Integration of smart appliances and devices;
- (7) Deployment and integration of advanced electricity storage and peak-shaving technologies, including plug-in electric and hybrid electric vehicles, and thermal storage air conditioning;
- (8) Provision of timely information and control options to consumer;
- (9) Development of standards for communication and interoperability of appliances and equipment connected to the electric grid, including the infrastructure serving the grid; and
- (10) Identification and lowering of unreasonable or unnecessary barriers to adoption of smart grid technologies, practices, and services.

Project specific information need not be included for the five-year period covered by the plan. Within thirty days of the filing of any capital investment plan or annual update to an existing plan, the electrical corporation shall host a public stakeholder meeting to answer questions and receive feedback about the plan. After feedback is received, the electrical corporation shall file a notice with the commission of any modifications to the capital investment plan it has accepted. Changes to the plan, its implementation, or the level of investments made shall not constitute evidence of imprudence of the investments made under such plan. The submission of a capital investment plan under this section shall not affect in any way the commission's authority with respect to the grant or denial of a certificate of convenience and necessity under section 393.170. By February twenty-eighth following each year in which the electrical corporation submits a capital investment plan, the electrical corporation shall submit a report to the commission detailing actual capital investments made the previous year, the quantitatively evaluated benefits and costs generated by each of those investments that exceeded twenty million dollars, and any efficiencies achieved as a result of those investments.

5. This section shall only apply to any electrical corporation that has filed a notice with the commission of the electrical corporation's election to make the deferrals for which this section provides. [No electrical corporation shall file a notice with the commission under this subsection if such corporation has made an application under subsection 3 of section 386.266, and such application has been approved.] An electrical corporation may provide notice to the commission one time under this subsection if such corporation has applied to the commission under subsection 2 of section 386.266, provided the corporation shall not concurrently utilize deferrals under this subsection and the electric rate adjustments set forth in subsection 3 of section 386.266. An electrical corporation's election shall allow it to make the deferrals provided for by subsection 2 [of this section until December 31, 2023 , unless the electrical corporation requests and the commission approves the continuation of such deferrals beyond that date and approves continuation of the discounts authorized by section 393.1640 beyond that date as hereinafter provided. An electrical corporation that wishes to continue to make the deferrals provided for by subsection 2 of this section from January 1, 2024 , through December 31, 2028 , shall obtain the commission's approval to do so, shall be subject to the compound annual growth rate limitations set forth under section 393.1655 , and shall also obtain the commission's approval to continue

EXPLANATION--Matter enclosed in bold-faced brackets [thus] is not enacted and is intended to be omitted in the law. Matter underscored is proposed language.

to provide the discounts authorized by section 393.1640 in a commission order issued on or before December 31, 2023. The commission shall have the authority to grant or deny such approval based upon the commission's evaluation of the costs and benefits of such continuation to electrical corporations and consumers, but shall not be authorized to condition such approval or otherwise modify the deferrals authorized by subsection 2 of this section, or the discounts authorized by section 393.1640. In deciding whether to extend the program for an additional five years, the commission shall develop an objective analytical framework to determine whether there is a continuing need. The commission shall make a finding about whether there is a continuing need after hearing. Failure to obtain such commission approval shall not affect deferrals made through December 31, 2023, or the regulatory and ratemaking treatment of the regulatory assets arising from such deferrals as provided for by this section] of this section until December 31, 2028. Notwithstanding the immediately preceding sentence, an electrical corporation may seek permission to continue to make the deferrals provided for by subsection 2 of this section for an additional five years beyond December 31, 2028, by filing an application with the commission seeking such permission by December 31, 2026, which application shall be ruled upon by the commission within one hundred eighty days after its filing. In deciding whether to grant such permission to continue the commission shall have the authority, consistent with its statutory authority outside this section, to consider such factors as in its judgment it deems necessary and may condition the permission on factors that are relevant to the deferrals authorized by subsection 2 of this section. The commission shall make the determination of whether to grant such permission to continue after a hearing. An electrical corporation making deferrals provided for by subsection 2 of this section on and after January 1, 2024, shall be subject to the revenue requirement impact cap set forth under section 393.1656. Failure to obtain such commission permission to continue shall not affect deferrals made through the date for which permission has been granted, or the regulatory and ratemaking treatment of the regulatory assets arising from such deferrals as provided for by this section.

6. The commission may take into account any change in business risk to the corporation resulting from implementation of the deferrals in setting the corporation's allowed return in any rate proceeding, in addition to any other changes in business risk experienced by the corporation.

7. This section shall expire on December 31, [2028] 2033, except that the amortization of the regulatory asset balances arising under this section shall continue to be reflected in the electrical corporation's rates and remaining regulatory asset balances shall be included in the electrical corporation's rate base consistent with the ratemaking treatment and amortization previously approved by the commission pursuant to this section.

393.1640. GROWTH PROJECT, DISCOUNT RATE, WHEN — REQUIREMENTS — EXPIRATION DATE. — 1. Subject to the limitations provided for in subsection 2 of this section, and upon proper application by an eligible customer prior to public announcement of a growth project, a new or existing account meeting the [following] criteria in this subsection shall [be considered] qualify for [qualification for] one of the [discount] discounts set forth in subdivision (1) or (2) of this subsection [if]:

(1) [The customer adds incremental load, net of any offsetting load reductions due to the termination of other accounts of the customer or an affiliate of the customer within twelve months prior to the commencement of service to the new load, with average monthly demand that is reasonably projected to be at least three hundred kilowatts with a load factor of at least fifty-five percent within two years after the date the application is submitted;

(2) The customer receives local, regional, or state economic development incentives in conjunction with the incremental load; and

(3) The customer meets the criteria set forth in the electrical corporation's economic development rider tariff sheet, as approved by the commission, that are not inconsistent with the provisions of this subsection.] When the new load is reasonably projected to be at least three hundred kilowatts but not more than ten megawatts and have a load factor of at least forty-five percent, the discount shall equal

EXPLANATION--Matter enclosed in bold-faced brackets [thus] is not enacted and is intended to be omitted in the law.
Matter underscored is proposed language.

thirty-five percent and shall apply for five years, provided that if it is expected as of the date the discount is to commence that a thirty-five percent discount would produce revenues from the applicant's total bill that would not exceed the electrical corporation's variable cost to serve the applicant's account or accounts that are to receive the discount, the discount shall be determined so that the percentage discount, rounded to the nearest one percent, is expected, as of the date the discount percentage is determined, to provide revenues equal to one hundred twenty percent of the electrical corporation's variable cost to serve the applicant's account or accounts that are to receive the discount;

(2) When the new load is reasonably projected to be more than ten megawatts and have a load factor of at least fifty-five percent, the discount percentage, rounded to the nearest one percent, shall be determined such that the applicant's total bill is expected, as of the date the discount percentage is determined, to provide revenues equal to one hundred twenty percent of the electrical corporation's variable cost to serve the applicant's account or accounts that are to receive the discount. Such discount shall apply for ten years.

For the purposes of this section, the variable cost to serve new load for purposes of establishing a discount under this section shall be determined using (a) the energy and capacity market prices that underlie the net base energy costs reflected in the revenue requirement from the electrical corporation's most recent general rate proceeding; (b) any operations and maintenance expenses that vary with respect to the total number of customers or load served by the electrical corporation, excluding operations and maintenance expenses associated with generating electricity; and (c) any other incremental costs to serve the customer.

To obtain one of the discounts set forth in subdivision (1) or (2) of this subsection, the customer's load shall be incremental, net of any offsetting load reductions due to the termination of other accounts of the customer or an affiliate of the customer within twelve months prior to the commencement of service to the new load, the customer shall receive an economic development incentive from the local, regional, state, or federal government, or from an agency or program of any such government, in conjunction with the incremental load, and the customer shall meet the criteria set forth in the electrical corporation's economic development rider tariff sheet, as approved by the commission, that are not inconsistent with the provisions of this subsection.

Unless otherwise provided for by the electrical corporation's tariff, the applicable discount shall be a percentage applied to all base-rate components of the bill. [The percentage shall be fixed for each year of service under the discount for a period of up to five years. Subject to the remaining provisions of this subsection, the average of the annual discount percentages shall equal forty percent and shall not be less than thirty percent nor more than fifty percent in any year.] The discount shall be applied to such incremental load from the date when the meter has been permanently set until the date that such incremental load no longer meets the criteria required to qualify for the discount, as determined under the provisions of subsection 2 of this section. An eligible customer shall also receive a ten percent discount of all base-rate components of the bill applied to such incremental load for an additional one year [after] period beyond the [initial] period during which the applicable discount [period ends] under subdivision (1) or (2) of this subsection applies if the electrical corporation determines that the customer is taking service from an under-utilized circuit. [In no event shall a customer receive a discount under this subsection after December 31, 2028.] The electrical corporation may include in its tariff additional or alternative terms and conditions to a customer's utilization of the discount, subject to approval of such terms and conditions by the commission. The customer, on forms supplied by the electrical corporation, shall apply for the applicable discount provided for by this subsection at least ninety days prior to the date the customer requests that the incremental demand receive one of the discounts provided for by this subsection and shall enter into a written agreement with the electrical corporation reflecting the discount percentages and other pertinent details. If the incremental demand is not separately metered.

EXPLANATION--Matter enclosed in bold-faced brackets [thus] is not enacted and is intended to be omitted in the law.

Matter underscored is proposed language.

the electrical corporation's determination of the incremental demand shall control. The electrical corporation shall verify the customer's incremental demand annually to determine continued qualification for the applicable discount. Notwithstanding the foregoing provisions of this subsection, the cents-per-kilowatt-hour realization resulting from application of any [such] discounted [rate] rates as calculated shall be higher than the electrical corporation's variable cost to serve such [accounts in aggregate] incremental demand and the applicable discounted rate also shall make a positive contribution to fixed costs associated with [such] service to such incremental demand. If in a subsequent general rate proceeding the commission determines that application of [such] a discounted rate is not adequate to cover the electrical corporation's variable cost to serve [such] the accounts in question and provide a positive contribution to fixed costs then the commission shall increase the rate for those accounts prospectively to the extent necessary to do so.

2. In each general rate proceeding concluded after August 28, [2018] 2022, the [reduced level of] difference in revenues [arising from] generated by applying the [application of] discounted rates provided for by [subsection 1 of] this section and the revenues that would have been generated without such discounts shall not be imputed into the electrical corporation's revenue requirement. Instead, such revenue requirement shall be set using the revenues generated by such discounted rates and the impact of the discounts provided for by this section shall be allocated to all the electrical corporation's customer classes, including the classes with customers that qualify for discounts under this section]. This increase shall be implemented] through the application of a uniform percentage adjustment to the revenue requirement responsibility of all customer classes. To qualify for the discounted rates provided for in this section, [if incremental load is separately metered,] customers shall meet the applicable criteria within twenty-four months [after the date the meter is permanently set] of initially receiving discounts based on metering data for calendar months thirteen through twenty-four and annually thereafter. If such data indicates that the customer did not meet [the criteria] both of the three hundred kilowatt and forty-five percent load factor requirements for any applicable twelve-month period, it shall thereafter no longer qualify for [the] a discounted rate. For customers receiving service under subdivision (2) of subsection 1 of this section, if after the fourth year, the demand has not exceeded ten thousand kilowatts during any twelve-month period, the customer's qualification shall revert to subdivision (1) of subsection 1 of this section. The provisions of this section do not supersede or limit the ability of an electrical corporation to continue to utilize economic development or retention tariffs previously approved by the commission that are in effect on August 28, [2018] 2022. If, however, a customer is receiving any economic development or retention-related discounts as of the date it would otherwise qualify for a discount provided for by this section, the customer shall agree to relinquish the prior discount concurrently with the date it begins to receive a discount under this section; otherwise, the customer shall not be eligible to receive any discount under this section. Customer demand existing at the time the customer begins to receive discounted rates under this section shall not constitute incremental demand. The discounted rates provided for by this section apply only to base-rate components, with the charges or credits arising from any rate adjustment mechanism authorized by law to be applied to customers qualifying for discounted rates under this section in the same manner as such rate adjustments would apply in the absence of this section.

3. For purposes of this section, "electrical corporation" shall mean the same as defined in section 386.020, but shall not include an electrical corporation as described in subsection 2 of section 393.110.

4. [This section shall expire on December 31, 2028, provided, that unless the electrical corporation has timely obtained the order provided for by subsection 5 of section 393.1400, the electrical corporation's customers shall, after December 31, 2023, no longer receive the discounts provided under this section.] An electrical corporation's authority to offer the discounts provided for by this section shall terminate on the date that such electrical corporation's authority to make the deferrals required by subsection 2 of section 393.1400 expires.

393.1655. RATE MODIFICATIONS, LIMITATIONS ON — DEFINITIONS. — 1. This section applies to an electrical corporation that has elected to exercise any option under section 393.1400 and that has more than two hundred thousand Missouri retail customers in 2018, and shall continue to apply to such electrical corporation until December 31, 2023], if the commission has not issued an order approving continuation of the deferrals authorized by subsection 2 of section 393.1400, and continuation of the discounts authorized by section 393.1640 as authorized by subsection 5 of section 393.1400 with respect to the electrical corporation, or until December 31, 2028, if the commission has issued such an order with respect to the electrical corporation].

2. Notwithstanding any other provision of law and except as otherwise provided for by this section, an electrical corporation's base rates shall be held constant for a period starting on the date new base rates were established in the electrical corporation's last general rate proceeding concluded prior to the date the electrical corporation gave notice under subsection 5 of section 393.1400 and ending on the third anniversary of that date, unless a force majeure event as determined by the commission occurs. Whether a force majeure event has occurred shall be subject to commission review and approval in a general rate proceeding, and shall not preclude the commission from reviewing the prudence of any revenue reductions or costs incurred during any proceeding to set rates. This subsection shall not affect the electrical corporation's ability to adjust its nonbase rates during the three-year period provided for in this subsection as authorized by its commission-approved rate adjustment mechanisms arising under section 386.266, 393.1030, or 393.1075, or as authorized by any other rate adjustment mechanism authorized by law.

3. This subsection shall apply to electrical corporations that have a general rate proceeding pending before the commission as of the later of February 1, 2018, or August 28, 2018. If the difference between (a) the electrical corporation's average overall rate at any point in time while this section applies to the electrical corporation, and (b) the electrical corporation's average overall rate as of the date new base rates are set in the electrical corporation's most recent general rate proceeding concluded prior to the date the electrical corporation gave notice under section 393.1400, reflects a compound annual growth rate of more than three percent, the electrical corporation shall not recover any amount in excess of such three percent as a performance penalty.

4. This section shall apply to electrical corporations that do not have a general rate proceeding pending before the commission as of the later of February 1, 2018, or August 28, 2018. If the difference between (a) the electrical corporation's average overall rate at any point in time while this section applies to the electrical corporation, and (b) the average of (i) the electrical corporation's average overall rate as of the date new base rates are set in the electrical corporation's most recent general rate proceeding concluded prior to the date the electrical corporation gave notice under section 393.1400, and (ii) the electrical corporation's average overall rate set under section 393.137, reflects a compound annual growth rate of more than two and eighty-five hundredths percent, the electrical corporation shall not recover any amount in excess of such two and eighty-five hundredths percent as a performance penalty.

5. If a change in any rates charged under a rate adjustment mechanism approved by the commission under sections 386.266 and 393.1030 would cause an electrical corporation's average overall rate to exceed the compound annual growth rate limitation set forth in subsection 3 or 4 of this section, the electrical corporation shall reduce the rates charged under that rate adjustment mechanism in an amount sufficient to ensure that the compound annual growth rate limitation set forth in subsection 3 or 4 of this section is not exceeded due to the application of the rate charged under such mechanism and the performance penalties under such subsections are not triggered. Sums not recovered under any such mechanism because of any reduction in rates under such a mechanism pursuant to this subsection shall be deferred to and included in the regulatory asset arising under section 393.1400 or, if applicable, under the regulatory and ratemaking treatment ordered by the commission under section 393.1400, and recovered through an amortization in base rates in the same manner as deferrals under that section or order are recovered in base rates.

EXPLANATION--Matter enclosed in bold-faced brackets [thus] is not enacted and is intended to be omitted in the law.
Matter underscored is proposed language.

6. If the difference between (a) the electrical corporation's class average overall rate at any point in time while this section applies to the electrical corporation, and (b) the electrical corporation's class average overall rate as of the date rates are set in the electrical corporation's most recent general rate proceeding concluded prior to the date the electrical corporation gave notice under subsection 5 of section 393.1400, reflects a compound annual growth rate of more than two percent for the large power service rate class, the class average overall rate shall increase by an amount so that the increase shall equal a compound annual growth rate of two percent over such period for such large power service rate class, with the reduced revenues arising from limiting the large power service class average overall rate increase to two percent to be allocated to all the electrical corporation's other customer classes through the application of a uniform percentage adjustment to the revenue requirement responsibility of all the other customer classes.

7. For purposes of this section, the following terms shall mean:

(1) "Average base rate", a rate calculated by dividing the total retail revenue requirement for all the electrical corporation's rate classes by the total sales volumes stated in kilowatt-hours for all such rate classes used to set rates in the applicable general rate proceeding, exclusive of gross receipts tax, sales tax, and other similar pass-through taxes;

(2) "Average overall rate", a rate equal to the sum of the average base rate and the average rider rate;

(3) "Average rider rate", a rate calculated by dividing the total of the sums to be recovered from all customer classes under the electrical corporation's rate adjustment mechanisms in place other than a rate adjustment mechanism under section 393.1075 by the total sales volumes stated in kilowatt-hours for all of the electrical corporation's rate classes used to set rates under such rate adjustment mechanisms, exclusive of gross receipts tax, sales tax, and other similar pass-through taxes;

(4) "Class average base rate", a rate calculated by dividing the retail revenue requirement from the applicable general rate proceeding that is allocated to the electrical corporation's large power service rate class in that general rate proceeding, by the total sales volumes stated in kilowatt-hours for that class used to set rates in that general rate proceeding, exclusive of gross receipts tax, sales tax, and other similar pass-through taxes;

(5) "Class average overall rate", a rate equal to the sum of the class average base rate and the class average rider rate;

(6) "Class average rider rate", a rate calculated by dividing the total of the sums allocated for recovery from the large power service rate class under the electrical corporation's rate adjustment mechanisms in place other than a rate adjustment mechanism under section 393.1075 by the total sales volumes stated in kilowatt-hours for that class used to set rates under such rate adjustment mechanisms, exclusive of gross receipts tax, sales tax, and other similar pass-through taxes;

(7) "Force majeure event", an event or circumstance that occurs as a result of a weather event, an act of God, war, terrorism, or other event which threatens the financial integrity of the electrical corporation that causes a reduction in revenues, an increase in the cost of providing electrical service, or some combination thereof, and the event has an associated fiscal impact on the electrical corporation's operations equal to three percent or greater of the total revenue requirement established in the electrical corporation's last general rate proceeding after taking into account the financial impact specified in section 393.137. Any force majeure event shall be subject to commission review and approval, and shall not preclude the commission from reviewing the prudence of any revenue reductions or costs incurred during any proceeding to set rates;

(8) "Large power service rate class", the rate class of each corporation that requires the highest minimum monthly billing demand of all of the electrical corporation's rate classes in order to qualify as a member of such rate class, and that applies to qualifying customers only if they utilize the electrical corporation's distribution system.

393.1656. ELECTRIC CORPORATION BASE RATES — REGULATORY ASSET BALANCE INCLUSION, IMPACT CAP, EFFECT ON — EXCESS AMOUNT NOT INCLUDED IN RATE BASE — DEFINITIONS. — 1. This section applies beginning January 1, 2024, to an electrical corporation that has elected to exercise any option under section 393.1400 and shall continue to apply to such electrical corporation until such electrical corporation's permission to make the deferrals authorized by subsection 2 of section 393.1400 expires.

2. That part of the electrical corporation's retail revenue requirement used to set the electrical corporation's base rates in each of the electrical corporation's general rate proceedings that are concluded on or after August 31, 2023, that consists of revenue requirement arising from inclusion in rate base of the section 393.1400 regulatory asset balance shall not exceed the revenue requirement impact cap. If inclusion in rate base of the full balance of the subject section 393.1400 regulatory asset would cause the electrical corporation to exceed the revenue requirement impact cap, that part of the balance necessary to prevent inclusion of the full balance from causing an exceedance of the revenue requirement impact cap shall not be included in rate base and the section 393.1400 regulatory asset balance shall be reduced accordingly as a penalty.

3. For purposes of this section, the following terms shall mean:

(1) "Commission", the public service commission;

(2) "Electrical corporation", the same as defined in section 386.020, but shall not include an electrical corporation as described in subsection 2 of section 393.110;

(3) "Rate-base cutoff date", the date rate-base additions are accounted for in a general rate proceeding. (4) "Revenue requirement impact cap", the product of (i) one-twelfth of two and one-half percent, multiplied by (ii) the number of months that have elapsed from the effective date of new base rates in the electrical corporation's most recently completed general rate proceeding to the effective date of new base rates in the general rate proceeding in which the cap is being applied, with that product to be multiplied by the retail revenue requirement used to set base rates in the electrical corporation's most recently completed general rate proceeding concluded prior to the general rate proceeding in which the cap is being applied;

(5) "Subject section 393.1400 regulatory asset", deferrals under section 393.1400 from the rate-base cutoff date in the electrical corporation's prior general rate proceeding to the rate-base cutoff date in the current general rate proceeding in which the cap reflected in subsection 2 of this section is being applied.

393.1715. RETIREMENT OF GENERATING FACILITIES, RATEMAKING PRINCIPLES AND TREATMENT AS APPLIED TO BASE RATES, RETIREMENT DATE, USEFUL LIFE, AND DEPRECIATION — PROCEDURE — MONITORING — RETIREMENT OF COAL-FIXED GENERATING ASSETS IN RATE BASE — RULEMAKING AUTHORITY. — 1. An electrical corporation may petition the commission for a determination of the ratemaking principles and treatment, as proposed by the electrical corporation, that will apply to the reflection in base rates of the electrical corporation's capital and noncapital costs associated with the proposed retirement of one or more of the electrical corporation's generating facilities. Without limiting the foregoing, such principles and treatment may also establish the retirement date and useful life parameters used to set depreciation rates for such facilities. Except as provided for in subsection 4 of this section, the ratemaking principles and treatment approved by the commission under this section for such facilities shall apply to the determination of the revenue requirement in each of the electrical corporation's post-determination general rate proceedings until such time as such facility is fully depreciated on the electrical corporation's books.

EXPLANATION--Matter enclosed in bold-faced brackets [thus] is not enacted and is intended to be omitted in the law.
Matter underscored is proposed language.

2. If the commission fails to issue a determination within two hundred fifteen days that a petition for determination of ratemaking principles and treatment is filed, the ratemaking principles and treatment proposed by the petitioning electrical corporation shall be deemed to have been approved by the commission.

3. Subject to the provisions of subsection 4 of this section, ratemaking principles and treatment approved by the commission, or deemed to have been approved under subsection 2 of this section, shall be binding for ratemaking purposes.

4. (1) An electrical corporation with ratemaking principles and treatment approved by the commission, or deemed to have been approved under subsection 2 of this section, shall monitor the major factors and circumstances relating to the facility to which such principles and treatment apply. Such factors and circumstances include, but are not limited to:

- (k) A significant change in the scope or effective dates of environmental regulations; or
- (l) A significant change in federal or state environmental laws.

(2) If the electrical corporation determines that one or more major factor or circumstance has changed in a manner that warrants a change in the approved ratemaking principles and treatment, then it shall file a notice in the docket in which the approved ratemaking principles and treatment were established within forty-five days of any such determination. In its notification, the electrical corporation shall:

- (a) Explain and specify the changes it contends are appropriate to the ratemaking principles and treatment and the reasons for the proposed changes;
- (b) Provide a description of the alternatives that it evaluated and the process that it went through in developing its proposed changes; and
- (c) Provide detailed workpapers that support the evaluation and the process whereby proposed changes were developed.

(3) If a party has concerns regarding the proposed changes, that party shall file a notice of its concerns within thirty days of the electrical corporation's filing. If the parties agree on a resolution of the concerns, the agreement shall be submitted to the commission for approval. If the parties do not reach agreement on changes to the ratemaking principles and treatment within ninety days of the date the electrical corporation filed its notice, whether the previously approved ratemaking and treatment will be changed shall be determined by the commission. If a party to the docket in which the approved ratemaking principles and treatment were approved believes that one or more major factor or circumstance has changed in a manner that warrants a change in the approved ratemaking principles and treatment and if the electrical corporation does not agree the principles and treatment should be changed, such party shall file a notice in the docket in which the approved ratemaking principles and treatment were established within forty-five days of any such determination. In its notification, such party shall:

If the parties do not reach agreement on changes to the ratemaking principles and treatment within ninety days of the date the notice was filed, whether the previously approved ratemaking and treatment will be changed shall be determined by the commission.

5. A determination of ratemaking principles and treatment under this section does not preclude an electrical corporation from also petitioning the commission under either or both of sections 393.1700 and 393.1705, provided that any costs to which such ratemaking principles and treatment would have applied in the electrical corporation's general rate proceedings which become funded by securitized utility tariff bond proceeds from a securitized utility tariff bond issued under section 393.1700 shall not thereafter be reflected in the electrical corporation's base rates.

6. If determined by the commission to be just, reasonable, and necessary for the provision of safe and adequate service, the electrical corporation [may] shall be permitted to retain coal-fired generating assets in rate base and recover prudently incurred costs associated with operating the coal-fired assets [that remain in service to provide greater certainty that generating capacity will be available to provide essential service to customers, including during extreme weather events, and the commission shall not disallow any portion of such cost recovery on the basis that such coal-fired generating assets operate], including at a low capacity factor, or that are offline and providing capacity only], during normal operating conditions] in order to remain in service to customers for reliability during events such as extreme weather.

7. The commission may promulgate rules necessary to implement the provisions of sections 393.1700 to 393.1715. Any rule or portion of a rule, as that term is defined in section 536.010, that is created under the authority delegated in this section shall become effective only if it complies with and is subject to all of the provisions of chapter 536 and, if applicable, section 536.028. This section and chapter 536 are nonseverable and if any of the powers vested with the general assembly pursuant to chapter 536 to review, to delay the effective date, or to disapprove and annul a rule are subsequently held unconstitutional, then the grant of rulemaking authority and any rule proposed or adopted after August 28, 2021, shall be invalid and void.

4. The number of such public bids shall not be restricted or curtailed, but shall be open to all persons complying with the terms upon which the bids are requested or solicited unless debarred for cause. No contract shall be awarded when the amount appropriated for same is not sufficient to complete the work ready for service.

5. Dividing a project into component labor or material allocations for the purpose of avoiding bidding or advertising provisions required by this section is specifically prohibited.

[34.057.] 8.960. PROMPT PAYMENTS REQUIRED — PROGRESS PAYMENTS — RETAINAGE — LATE PAYMENT CHARGES — WITHHOLDING OF PAYMENTS. — 1. Unless contrary to any federal funding requirements or unless funds from a state grant are not timely received by the contracting public municipality but notwithstanding any other law to the contrary, all public works contracts made and awarded by the appropriate officer, board or agency of the state or of a political subdivision of the state or of any district therein, including any municipality, county and any board referred to as the public owner, for construction, reconstruction or alteration of any public works project, shall provide for prompt payment by the public owner to the contractor, and any professional engineer, architect, landscape architect, or land surveyor, as well as prompt payment by the contractor to the subcontractor and material supplier in accordance with the following:

(1) A public owner shall make progress payments to the contractor and any professional engineer, architect, landscape architect, or land surveyor on at least a monthly basis as the work progresses, or, on a lump sum basis according to the terms of the lump sum contract. Except in the case of lump sum contracts, payments shall be based upon estimates prepared at least monthly of work performed and material delivered, as determined by the project architect or engineer. Retainage withheld on any construction contract or subcontract for public works projects shall not exceed five percent of the value of the contract or subcontract. If the contractor is not required to obtain a bond under section 107.170 because the cost of the public works contract is not estimated to exceed fifty thousand dollars, the public owner may withhold retainage on the public works project in an amount not to exceed ten percent of the value of the contract or subcontract. The public owner shall pay the contractor the amount due, less a retainage, within thirty days following the latter of the following:

(a) The date of delivery of materials or construction services purchased;

(b) The date, as designated by the public owner, upon which the invoice is duly delivered to the person or place designated by the public owner; or

(c) In those instances in which the contractor approves the public owner's estimate, the date upon which such notice of approval is duly delivered to the person or place designated by the public owner;

(2) Payments shall be considered received within the context of this section when they are duly posted with the United States Postal Service or other agreed upon delivery service or when they are hand-delivered to an authorized person or place as agreed to by the contracting parties;

(3) If, in the discretion of the owner and the project architect or engineer and the contractor, it is determined that a subcontractor's performance has been completed and the subcontractor can be released prior to substantial completion of the public works contract without risk to the public owner, the contractor shall request such adjustment in retainage, if any, from the public owner as necessary to enable the contractor to pay the subcontractor in full. The public owner may reduce or eliminate retainage on any contract payment if, in the public owner's opinion, the work is proceeding satisfactorily. If retainage is released and there are any remaining minor items to be completed, an amount equal to one hundred fifty percent of the value of each item as determined by the public owner's duly authorized representatives shall be withheld until such item or items are completed;

(4) The public owner shall pay at least ninety-eight percent of the retainage, less any offsets or deductions authorized in the contract or otherwise authorized by law, to the contractor. The contractor

shall pay the subcontractor or supplier after substantial completion of the contract work and acceptance by the public owner's authorized contract representative, or as may otherwise be provided by the contract specifications for state highway, road or bridge projects administered by the state highways and transportation commission. Such payment shall be made within thirty days after acceptance, and the invoice and all other appropriate documentation and certifications in complete and acceptable form are provided, as may be required by the contract documents. If the public owner or the owner's representative determines the work is not substantially completed and accepted, then the owner or the owner's representative shall provide a written explanation of why the work is not considered substantially completed and accepted within fourteen calendar days to the contractor, who shall then provide such notice to the subcontractor or suppliers responsible for such work. If such written explanation is not given by the public body, the public body shall pay at least ninety-eight percent of the retainage within thirty calendar days. If at that time there are any remaining minor items to be completed, an amount equal to one hundred fifty percent of the value of each item as determined by the public owner's representative shall be withheld until such items are completed;

(5) All estimates or invoices for supplies and services purchased, approved and processed, or final payments, shall be paid promptly and shall be subject to late payment charges provided in this section. Except as provided in subsection 4 of this section, if the contractor has not been paid within thirty days as set forth in subdivision (1) of subsection 1 of this section, the contracting agency shall pay the contractor, in addition to the payment due him, interest at the rate of one and one-half percent per month calculated from the expiration of the thirty-day period until fully paid;

(6) When a contractor receives any payment, the contractor shall pay each subcontractor and material supplier in proportion to the work completed by each subcontractor and material supplier his application less any retention not to exceed five percent. If the contractor receives less than the full payment due under the public construction contract, the contractor shall be obligated to disburse on a pro rata basis those funds received, with the contractor, subcontractors and material suppliers each receiving a prorated portion based on the amount of payment. When, however, the public owner does not release the full payment due under the contract because there are specific areas of work or materials he is rejecting or because he has otherwise determined such areas are not suitable for payment then those specific subcontractors or suppliers involved shall not be paid for that portion of the work rejected or deemed not suitable for payment; provided the public owner or the owner's representative gives a written explanation to the contractor, subcontractor, or supplier involved as to why the work or supplies were rejected or deemed not suitable for payment, and all other subcontractors and suppliers shall be paid in full;

(7) If the contractor, without reasonable cause, fails to make any payment to his subcontractors and material suppliers within fifteen days after receipt of payment under the public construction contract, the contractor shall pay to his subcontractors and material suppliers, in addition to the payment due them, interest in the amount of one and one-half percent per month, calculated from the expiration of the fifteen-day period until fully paid. This subdivision shall also apply to any payments made by subcontractors and material suppliers to their subcontractors and material suppliers and to all payments made to lower tier subcontractors and material suppliers throughout the contracting chain;

(8) The public owner shall make final payment of all moneys owed to the contractor, including any retainage withheld under subdivision (4) of this subsection, less any offsets or deductions authorized in the contract or otherwise authorized by law, within thirty days of the due date. Final payment shall be considered due upon the earliest of the following events:

(a) Completion of the project and filing with the owner of all required documentation and certifications, in complete and acceptable form, in accordance with the terms and conditions of the contract;

(b) The project is certified by the architect or engineer authorized to make such certification on behalf of the owner as having been completed, including the filing of all documentation and certifications required by the contract, in complete and acceptable form; or

(c) The project is certified by the contracting authority as having been completed, including the filing of all documentation and certifications required by the contract, in complete and acceptable form.

2. Nothing in this section shall prevent the contractor or subcontractor, at the time of application or certification to the public owner or contractor, from withholding such applications or certifications to the owner or contractor for payment to the subcontractor or material supplier. Amounts intended to be withheld shall not be included in such applications or certifications to the public owner or contractor. Reasons for withholding such applications or certifications shall include, but not be limited to, the following: unsatisfactory job progress; defective construction work or material not remedied; disputed work; failure to comply with other material provisions of the contract; third-party claims filed or reasonable evidence that a claim will be filed; failure of the subcontractor to make timely payments for labor, equipment and materials; damage to a contractor or another subcontractor or material supplier; reasonable evidence that the contract cannot be completed for the unpaid balance of the subcontract sum or a reasonable amount for retention, not to exceed the initial percentage retained by the owner.

3. Should the contractor determine, after application or certification has been made and after payment has been received from the public owner, or after payment has been received by a contractor based upon the public owner's estimate of materials in place and work performed as provided by contract, that all or a portion of the moneys needs to be withheld from a specific subcontractor or material supplier for any of the reasons enumerated in this section, and such moneys are withheld from such subcontractor or material supplier, then such undistributed amounts shall be specifically identified in writing and deducted from the next application or certification made to the public owner or from the next estimate by the public owner of payment due the contractor, until a resolution of the matter has been achieved. Disputes shall be resolved in accordance with the terms of the contract documents. Upon such resolution the amounts withheld by the contractor from the subcontractor or material supplier shall be included in the next application or certification made to the public owner or the next estimate by the public owner and shall be paid promptly in accordance with the provisions of this section. This subsection shall also apply to applications or certifications made by subcontractors or material suppliers to the contractor and throughout the various tiers of the contracting chain.

4. The contracts which provide for payments to the contractor based upon the public owner's estimate of materials in place and work performed rather than applications or certifications submitted by the contractor, the public owner shall pay the contractor within thirty days following the date upon which the estimate is required by contract to be completed by the public owner, the amount due less a retainage not to exceed five percent. All such estimates by the public owner shall be paid promptly and shall be subject to late payment charges as provided in this subsection. After the thirtieth day following the date upon which the estimate is required by contract to be completed by the public owner, the contracting agency shall pay the contractor, in addition to the payment due him, interest at a rate of one and one-half percent per month calculated from the expiration of the thirty-day period until fully paid.

5. The public owner shall pay or cause to be paid to any professional engineer, architect, landscape architect, or land surveyor the amount due within thirty days following the receipt of an invoice prepared and submitted in accordance with the contract terms. In addition to the payment due, the contracting agency shall pay interest at the rate of one and one-half percent per month calculated from the expiration of the thirty-day period until fully paid.

6. Nothing in this section shall prevent the owner from withholding payment or final payment from the contractor, or a subcontractor or material supplier. Reasons for withholding payment or final payment shall include, but not be limited to, the following: liquidated damages; unsatisfactory job progress; defective construction work or material not remedied; disputed work; failure to comply with any material provision of the contract; third party claims filed or reasonable evidence that a claim will

be filed; failure to make timely payments for labor, equipment or materials; damage to a contractor, subcontractor or material supplier; reasonable evidence that a subcontractor or material supplier cannot be fully compensated under its contract with the contractor for the unpaid balance of the contract sum; or citation by the enforcing authority for acts of the contractor or subcontractor which do not comply with any material provision of the contract and which result in a violation of any federal, state or local law, regulation or ordinance applicable to that project causing additional costs or damages to the owner.

7. Nothing in this section shall be construed to require direct payment by a public owner to a subcontractor or supplier, except in the case of the default, as determined by a court, of the contractor on the contract with the public owner where no performance or payment bond is required or where the surety fails to execute its duties, as determined by a court.

8. Notwithstanding any other provisions in this section to the contrary, no late payment interest shall be due and owing for payments which are withheld in good faith for reasonable cause pursuant to subsections 2, 5, and 6 of this section. If it is determined by a court of competent jurisdiction that a payment which was withheld pursuant to subsections 2, 5, and 6 of this section was not withheld in good faith for reasonable cause, the court may impose interest at the rate of one and one-half percent per month calculated from the date of the invoice and may, in its discretion, award reasonable attorney fees to the prevailing party. In any civil action or part of a civil action brought pursuant to this section, if a court determines after a hearing for such purpose that the cause was initiated, or a defense was asserted, or a motion was filed, or any proceeding therein was done frivolously and in bad faith, the court shall require the party who initiated such cause, asserted such defense, filed such motion, or caused such proceeding to be had to pay the other party named in such action the amount of the costs attributable thereto and reasonable expenses incurred by such party, including reasonable attorney fees.

[34.058.] 8.962. PUBLIC WORKS CONTRACT DEFINED — CERTAIN CONTRACT CLAUSES AGAINST PUBLIC POLICY, EXCEPTIONS. — 1. As used in this section, the term "public works contract" means a contract of the state, county, city and other political subdivisions of the state, except the Missouri transportation department, for the construction, alteration, repair, or maintenance of any building, structure, highway, bridge, viaduct, pipeline, public works, or any other works dealing with construction, which shall include, but need not be limited to, moving, demolition, or excavation performed in conjunction with such work.

2. Any clause in a public works contract that purports to waive, release, or extinguish the rights of a contractor to recover costs or damages, or obtain an equitable adjustment, for delays in performing such contract, if such delay is caused in whole, or in part, by acts or omissions within the control of the contracting public entity or persons acting on behalf thereof, is against public policy and is void and unenforceable.

3. Subsection 2 of this section is not intended to render void any contract provision of a public works contract that:

- (1) Precludes a contractor from recovering that portion of delay costs caused by the acts or omissions of the contractor or its agents;
- (2) Requires notice of any delay by the party responsible for such delay;
- (3) Provides for reasonable liquidated damages; or
- (4) Provides for arbitration or any other procedure designed to settle contract disputes.

[34.203.] 8.964. CITATION OF LAW. — The provisions of sections **[34.203 to 34.216]** 8.964 to 8.974 shall be known and may be cited as the "Fairness in Public Construction Act".

[34.206.] 8.966. PURPOSE STATEMENT. — The purpose of sections **[34.203 to 34.216]** 8.964 to 8.974 is to fulfill the state's proprietary objectives in maintaining and promoting the economical, nondiscriminatory, and efficient expenditures of public funds in connection with publicly funded or

assisted construction projects. Nothing in sections [34.203 to 34.216] 8.964 to 8.974 shall prohibit employers or other parties covered by the National Labor Relations Act from entering into agreements or engaging in any other activity arguably protected by law, nor shall any aspect of sections [34.203 to 34.216] 8.964 to 8.974 be interpreted in such a way as to interfere with the labor relations of parties covered by the National Labor Relations Act.

[34.209.] 8.968. REQUIREMENTS FOR CERTAIN CONTRACTS FOR CONSTRUCTION, REPAIR, REMODELING, OR DEMOLITION OF FACILITIES. — 1. The state, any agency of the state, any political subdivision of the state, or any instrumentality thereof, when engaged in procuring or letting contracts for construction, repair, remodeling, or demolition of a facility shall ensure that bid specification, project agreements, and other controlling documents entered into, required, or subject to approval by the state, agency, political subdivision, or instrumentality do not:

(1) Require or prohibit bidders, offerors, contractors, or subcontractors to enter into or adhere to agreements with one or more labor organizations on the same or related projects; or

(2) Discriminate against, encourage, or give preferential treatment to bidders, offerors, contractors, or subcontractors for:

(a) Entering or refusing to enter agreements with one or more labor organizations on the same or related construction projects; or

(b) Remaining or refusing to remain signatory with one or more labor organizations on the same or related construction projects.

2. Nothing in this section shall be construed to prohibit the state, any agency of the state, any political subdivision of the state, or any instrumentality thereof from requiring bidders, offerors, contractors, or subcontractors, as a condition of receiving work or submitting a bid, to test its workers and employees for the presence of illegal drugs.

[34.212.] 8.970. GRANTS, TAX ABATEMENTS OR TAX CREDITS, AND COOPERATIVE AGREEMENTS FOR CONSTRUCTION PROJECTS PROHIBITED, WHEN. — 1. The state, any agency of the state, any political subdivision of the state, or any instrumentality thereof shall not issue or award grants, tax abatements, or tax credits or enter into cooperative agreements for construction projects or for the improvement, maintenance, or renovation of real property or fixtures, a condition of which requires that bid specifications, project agreements, or other controlling documents pertaining to the grant, tax abatement, tax credit, or cooperative agreement contain any of the elements specified in section [34.209] 8.968.

2. The state, any agency of the state, any political subdivision, or any instrumentality thereof shall exercise such authority as may be required to preclude a grant, tax abatement, or tax credit recipient or party to a cooperative agreement from imposing any of the elements specified in section [34.209] 8.968 in connection with any grant or cooperative agreement awarded or entered into. Nothing in sections [34.203 to 34.217] 8.964 to 8.974 shall prohibit contractors or subcontractors from voluntarily entering into agreements described in section [34.209] 8.968.

[34.217.] 8.972. NONSEVERABILITY CLAUSE. — Notwithstanding the provisions of section 1.140, the provisions of sections 290.095 and 290.250 and sections [34.203 to 34.216] 8.964 to 8.974 shall not be severable. In the event a court of competent jurisdiction rules that any part of this act is unenforceable, the entire act shall be rendered null and void.

[34.218.] 8.974. VIOLATION, REMEDIES — INVESTIGATION OF COMPLAINTS. — 1. Any entity which violates the provisions of sections [34.203 to 34.217] 8.964 to 8.974 shall be liable to the person affected for such equitable relief as may be appropriate, including reasonable attorney's fees.

2. Any entity which violates the provisions of sections [34.203 to 34.217] 8.964 to 8.974 shall not be eligible for any state funding or tax credits issued by the state for two years.

3. The prosecuting attorney or circuit attorney with jurisdiction over the location where a violation of sections [34.203 to 34.217] 8.964 to 8.974 occurs, or the attorney general of this state, shall investigate complaints of violation of such sections, and use all means at their command to ensure the effective enforcement of this section.

34.055. STATE TO PAY LATE CHARGES FOR SUPPLIES AND SERVICES, WHEN, RATE — VENDOR TO APPLY, EXCEPTION — ENERGY ASSISTANCE PROGRAM FOR PERSONS OF LOW INCOME, RECIPIENTS EXEMPT FROM INTEREST CHARGES. — 1. Except as otherwise provided in section [34.057] 8.960, all invoices for supplies and services purchased by the state, duly approved and processed, shall be subject to interest charges or late payment charges as provided in this section.

2. After the forty-fifth day following the later of the date of delivery of the supplies and services or the date upon which the invoice is duly approved and processed, interest retroactive to the thirtieth day shall be paid on any unpaid balance, except balances for services provided by a gas corporation, electrical corporation, water corporation, or sewer corporation which has received authorization from the public service commission to impose late payment charges on delinquent utility bills, upon application of the vendor thereof. The rate of such interest shall be three percentage points above the average predominant prime rate quoted by commercial banks to large businesses, as determined by the Board of Governors of the Federal Reserve System.

3. The state shall be liable for late payment charges on any delinquent bill for services purchased by the state from a gas corporation, electrical corporation, water corporation, or sewer corporation which has received authorization from the public service commission to impose late payment charges on delinquent utility bills. The rate of such late payment charges shall be as established for each such corporation by order of the public service commission, but bills rendered to the state shall not be considered delinquent until thirty days after rendition of the bill by the corporation.

4. Any such interest charges or late payment charges shall be paid from appropriations which were made for the fiscal year in which the supplies or services were delivered to the respective departments purchasing such supplies or services. The commissioner of administration shall be responsible for the timely implementation of this section and all officers, departments, institutions and agencies of state government shall fully cooperate with the commissioner of administration in the implementation of this section. No late payment penalty shall be assessed against, nor payable by, the state unless pursuant to the provisions of this section.

5. Notwithstanding any other provision of this section, recipients of funds from the low-income energy assistance program shall be exempt from interest charges imposed by such section for the duration of the recipient's participation in the program.

34.100. DIRECT PURCHASES AND EMERGENCY PURCHASES, WHEN AUTHORIZED, PROCEDURE. — The commissioner of administration may, when in the commissioner's best judgment it is in the best interests of the state, delegate the commissioner's procurement authority pursuant to this chapter to an individual department; provided, however, that each instance of single feasible source purchasing authority in excess of [five] ten thousand dollars under section 34.044 must be specifically delegated by the commissioner. The delegation may allow departments to negotiate in accordance with section 34.042 the purchase of services for patients, residents or clients with funds appropriated for this purpose. In accepting this delegated authority the department acknowledges its ability to, and agrees to, fulfill all of the requirements of this chapter in making purchases and entering into contracts and keeping records. No claim for payment based upon any purchase under this section shall be certified by the commissioner unless accompanied by such documentation of compliance with the provisions of

this chapter as the commissioner may require. Any department that fails to fulfill all such requirements may have its delegated authority rescinded by the commissioner of administration.

67.5065. POLITICAL SUBDIVISION DEFINITION. — For purposes of section 67.5050 and section 67.5060, the term "political subdivision" includes any public institution of higher education.

217.703. EARNED COMPLIANCE CREDITS AWARDED, WHEN. — 1. The division of probation and parole shall award earned compliance credits to any offender who is:

(1) Not subject to lifetime supervision under sections 217.735 and 559.106 or otherwise found to be ineligible to earn credits by a court pursuant to subsection 2 of this section;

(2) On probation, parole, or conditional release for an offense listed in chapter 579, or an offense previously listed in chapter 195, or for a class D or E felony, excluding sections 565.225, 565.252, 566.031, 566.061, 566.083, 566.093, 568.020, 568.060, offenses defined as sexual assault under section 589.015, deviate sexual assault, assault in the second degree under subdivision (2) of subsection 1 of section 565.052, endangering the welfare of a child in the first degree under subdivision (2) of subsection 1 of section 568.045, and any offense of aggravated stalking or assault in the second degree under subdivision (2) of subsection 1 of section 565.060 as such offenses existed prior to January 1, 2017;

(3) Supervised by the division of probation and parole; and

(4) In compliance with the conditions of supervision imposed by the sentencing court or board.

2. If an offender was placed on probation, parole, or conditional release for an offense of:

(1) Involuntary manslaughter in the second degree;

(2) Assault in the second degree except under subdivision (2) of subsection 1 of section 565.052 or section 565.060 as it existed prior to January 1, 2017;

(3) Domestic assault in the second degree;

(4) Assault in the third degree when the victim is a special victim or assault of a law enforcement officer in the second degree as it existed prior to January 1, 2017;

(5) Statutory rape in the second degree;

(6) Statutory sodomy in the second degree;

(7) Endangering the welfare of a child in the first degree under subdivision (1) of subsection 1 of section 568.045; or

(8) Any case in which the defendant is found guilty of a felony offense under chapter 571;

the sentencing court may, upon its own motion or a motion of the prosecuting or circuit attorney, make a finding that the offender is ineligible to earn compliance credits because the nature and circumstances of the offense or the history and character of the offender indicate that a longer term of probation, parole, or conditional release is necessary for the protection of the public or the guidance of the offender. The motion may be made any time prior to the first month in which the person may earn compliance credits under this section or at a hearing under subsection 5 of this section. The offender's ability to earn credits shall be suspended until the court or board makes its finding. If the court or board finds that the offender is eligible for earned compliance credits, the credits shall begin to accrue on the first day of the next calendar month following the issuance of the decision.

3. Earned compliance credits shall reduce the term of probation, parole, or conditional release by thirty days for each full calendar month of compliance with the terms of supervision. Credits shall begin to accrue for eligible offenders after the first full calendar month of supervision or on October 1, 2012, if the offender began a term of probation, parole, or conditional release before September 1, 2012.

4. For the purposes of this section, the term "compliance" shall mean the absence of an initial violation report or notice of citation submitted by a probation or parole officer during a calendar month, or a motion to revoke or motion to suspend filed by a prosecuting or circuit attorney, against the offender.

5. Credits shall not accrue during any calendar month in which a violation report, which may include a report of absconder status, has been submitted, the offender is in custody, or a motion to revoke or motion to suspend has been filed, and shall be suspended pending the outcome of a hearing, if a

hearing is held. If no hearing is held, or if a hearing is held and the offender is continued under supervision, or the court or board finds that the violation did not occur, then the offender shall be deemed to be in compliance and shall begin earning credits on the first day of the next calendar month following the month in which the report was submitted or the motion was filed. If a hearing is held, all earned credits shall be rescinded if:

(1) The court or board revokes the probation or parole or the court places the offender in a department program under subsection 4 of section 559.036 ~~or under section 217.785~~; or

(2) The offender is found by the court or board to be ineligible to earn compliance credits because the nature and circumstances of the violation indicate that a longer term of probation, parole, or conditional release is necessary for the protection of the public or the guidance of the offender.

Earned credits, if not rescinded, shall continue to be suspended for a period of time during which the court or board has suspended the term of probation, parole, or release, and shall begin to accrue on the first day of the next calendar month following the lifting of the suspension.

6. Offenders who are deemed by the division to be absconders shall not earn credits. For purposes of this subsection, "absconder" shall mean an offender under supervision whose whereabouts are unknown and who has left such offender's place of residency without the permission of the offender's supervising officer and without notifying of their whereabouts for the purpose of avoiding supervision. An offender shall no longer be deemed an absconder when such offender is available for active supervision.

7. Notwithstanding subsection 2 of section 217.730 to the contrary, once the combination of time served in custody, if applicable, time served on probation, parole, or conditional release, and earned compliance credits satisfy the total term of probation, parole, or conditional release, the board or sentencing court shall order final discharge of the offender, so long as the offender has completed restitution and at least two years of his or her probation, parole, or conditional release, which shall include any time served in custody under section 217.718 and sections 559.036 and 559.115.

8. The award or rescission of any credits earned under this section shall not be subject to appeal or any motion for postconviction relief.

9. At least twice a year, the division shall calculate the number of months the offender has remaining on his or her term of probation, parole, or conditional release, taking into consideration any earned compliance credits, and notify the offender of the length of the remaining term.

10. No less than sixty days before the date of final discharge, the division shall notify the sentencing court, the board, and, for probation cases, the circuit or prosecuting attorney of the impending discharge. If the sentencing court, the board, or the circuit or prosecuting attorney upon receiving such notice does not take any action under subsection 5 of this section, the offender shall be discharged under subsection 7 of this section.

11. Any offender who was sentenced prior to January 1, 2017, to an offense that was eligible for earned compliance credits under subsection 1 or 2 of this section at the time of sentencing shall continue to remain eligible for earned compliance credits so long as the offender meets all the other requirements provided under this section.

12. The application of earned compliance credits shall be suspended upon entry into a treatment court, as described in sections 478.001 to 478.009, and shall remain suspended until the offender is discharged from such treatment court. Upon successful completion of treatment court, all earned compliance credits accumulated during the suspension period shall be retroactively applied, so long as the other terms and conditions of probation have been successfully completed.

Matter underscored is proposed language.

- (1) Develop and adopt uniform forms for petitions and orders of protection; and
- (2) Provide the forms to each circuit clerk.
2. The following statements shall be printed in bold faced type or in capital letters on the order of protection:
 - (1) "Violation of this order may be punished by confinement in jail for as long as five years and by a fine of as much as five thousand dollars"; and
 - (2) "If so ordered by the court, the respondent is forbidden to enter or stay at the petitioner's residence".
3. The form prescribed by the supreme court for the notice of hearing required by subsection 2 of section 455.040 shall list all potential relief that can be granted by the court in any proceeding pursuant to sections 455.010 to 455.085 as described in section 455.050, and shall advise the respondent that such relief may be granted if the court finds for the petitioner, or if the respondent defaults to the petition.
4. If a full order of protection is granted, all temporary orders shall continue in the full order of protection and shall remain in full force and effect unless otherwise ordered by the court.
5. All orders of protection shall be issued on the form adopted pursuant to subsection 1 of this section.

455.075. ATTORNEY'S FEES, COST. — The court may order a party to pay a reasonable amount to the other party for attorney's fees incurred prior to the commencement of the proceeding [or, throughout the proceeding, and after entry of judgment. The court shall consider all relevant factors, including the financial resources of both parties, and may order that the amount be paid directly to the attorney, who may enforce the order in his name.

455.085. ARREST FOR VIOLATION OF ORDER — PENALTIES — GOOD FAITH IMMUNITY FOR LAW ENFORCEMENT OFFICIALS. — 1. When a law enforcement officer has probable cause to believe a party has committed a violation of law amounting to domestic violence, as defined in section 455.010, against a family or household member, the officer may arrest the offending party whether or not the violation occurred in the presence of the arresting officer. When the officer declines to make arrest pursuant to this subsection, the officer shall make a written report of the incident completely describing the offending party, giving the victim's name, time, address, reason why no arrest was made and any other pertinent information. Any law enforcement officer subsequently called to the same address within a twelve-hour period, who shall find probable cause to believe the same offender has again committed a violation as stated in this subsection against the same or any other family or household member, shall arrest the offending party for this subsequent offense. The primary report of nonarrest in the preceding twelve-hour period may be considered as evidence of the defendant's intent in the violation for which arrest occurred. The refusal of the victim to sign an official complaint against the violator shall not prevent an arrest under this subsection.

2. When a law enforcement officer has probable cause to believe that a party, against whom a protective order has been entered and who has notice of such order entered, has committed an act of abuse in violation of such order, the officer shall arrest the offending party-respondent whether or not the violation occurred in the presence of the arresting officer. Refusal of the victim to sign an official complaint against the violator shall not prevent an arrest under this subsection.

3. When an officer makes an arrest, the officer is not required to arrest two parties involved in an assault when both parties claim to have been assaulted. The arresting officer shall attempt to identify and shall arrest the party the officer believes is the primary physical aggressor. The term "primary physical aggressor" is defined as the most significant, rather than the first, aggressor. The law enforcement officer shall consider any or all of the following in determining the primary physical aggressor:

- (1) The intent of the law to protect victims from continuing domestic violence;

EXPLANATION--Matter enclosed in bold-faced brackets [thus] is not enacted and is intended to be omitted in the law. Matter underscored is proposed language.

- (2) The comparative extent of injuries inflicted or serious threats creating fear of physical injury;
- (3) The history of domestic violence between the persons involved.

No law enforcement officer investigating an incident of domestic violence shall threaten the arrest of all parties for the purpose of discouraging requests or law enforcement intervention by any party. Where complaints are received from two or more opposing parties, the officer shall evaluate each complaint separately to determine whether the officer should seek a warrant for an arrest.

4. In an arrest in which a law enforcement officer acted in good faith reliance on this section, the arresting and assisting law enforcement officers and their employing entities and superiors shall be immune from liability in any civil action alleging false arrest, false imprisonment or malicious prosecution.

5. When a person against whom an order of protection has been entered fails to surrender custody of minor children to the person to whom custody was awarded in an order of protection, the law enforcement officer shall arrest the respondent, and shall turn the minor children over to the care and custody of the party to whom such care and custody was awarded.

6. The same procedures, including those designed to protect constitutional rights, shall be applied to the respondent as those applied to any individual detained in police custody.

7. A violation of the terms and conditions, with regard to domestic violence, stalking, sexual assault, child custody, communication initiated by the respondent or entrance upon the premises of the petitioner's dwelling unit or place of employment or school, or being within a certain distance of the petitioner or a child of the petitioner, of an ex parte order of protection of which the respondent has notice, shall be a class A misdemeanor unless the respondent has previously pleaded guilty to or has been found guilty in any division of the circuit court of violating an ex parte order of protection or a full order of protection within five years of the date of the subsequent violation, in which case the subsequent violation shall be a class E felony. Evidence of prior pleas of guilty or findings of guilt shall be heard by the court out of the presence of the jury prior to submission of the case to the jury. If the court finds the existence of such prior pleas of guilty or finding of guilt beyond a reasonable doubt, the court shall decide the extent or duration of sentence or other disposition and shall not instruct the jury as to the range of punishment or allow the jury to assess and declare the punishment as a part of its verdict.

8. A violation of the terms and conditions, with regard to domestic violence, stalking, sexual assault, child custody, communication initiated by the respondent or entrance upon the premises of the petitioner's dwelling unit or place of employment or school, or being within a certain distance of the petitioner or a child of the petitioner, of a full order of protection shall be a class A misdemeanor, unless the respondent has previously pleaded guilty to or has been found guilty in any division of the circuit court of violating an ex parte order of protection or a full order of protection within five years of the date of the subsequent violation, in which case the subsequent violation shall be a class E felony. Evidence of prior pleas of guilty or findings of guilt shall be heard by the court out of the presence of the jury prior to submission of the case to the jury. If the court finds the existence of such prior plea of guilty or finding of guilt beyond a reasonable doubt, the court shall decide the extent or duration of the sentence or other disposition and shall not instruct the jury as to the range of punishment or allow the jury to assess and declare the punishment as a part of its verdict. For the purposes of this subsection, in addition to the notice provided by actual service of the order, a party is deemed to have notice of an order of protection if:

(1) The law enforcement officer responding to a call of a reported incident of domestic violence, stalking, sexual assault, or violation of an order of protection presented a copy of the order of protection to the respondent; or

(2) Notice is given by actual communication to the respondent in a manner reasonably likely to advise the respondent.

9. Good faith attempts to effect a reconciliation of a marriage shall not be deemed tampering with a witness or victim tampering under section 575.270.

559.036. DURATION OF PROBATION — REVOCATION. — 1. A term of probation commences on the day it is imposed. Multiple terms of Missouri probation, whether imposed at the same time or at different times, shall run concurrently. Terms of probation shall also run concurrently with any federal or other state jail, prison, probation or parole term for another offense to which the defendant is or becomes subject during the period[, unless otherwise specified by the Missouri court].

2. The court may terminate a period of probation and discharge the defendant at any time before completion of the specific term fixed under section 559.016 if warranted by the conduct of the defendant and the ends of justice. The court may extend the term of the probation, but no more than one extension of any probation may be ordered except that the court may extend the term of probation by one additional year by order of the court if the defendant admits he or she has violated the conditions of probation or is found by the court to have violated the conditions of his or her probation. Total time on any probation term, including any extension shall not exceed the maximum term established in section 559.016. Total time on any probation term shall not include time when the probation term is suspended under this section. Procedures for termination, discharge and extension may be established by rule of court.

3. If the defendant violates a condition of probation at any time prior to the expiration or termination of the probation term, the court may continue him or her on the existing conditions, with or without modifying or enlarging the conditions or extending the term.

4. (1) Unless the defendant consents to the revocation of probation, if a continuation, modification, enlargement or extension is not appropriate under this section, the court shall order placement of the offender in [one of the] a department of corrections' one hundred twenty-day [programs] program so long as:

(a) The underlying offense for the probation is a class D or E felony or an offense listed in chapter 579 or an offense previously listed in chapter 195; except that, the court may, upon its own motion or a motion of the prosecuting or circuit attorney, make a finding that an offender is not eligible if the underlying offense is involuntary manslaughter in the second degree, stalking in the first degree, assault in the second degree, sexual assault, rape in the second degree, domestic assault in the second degree, assault in the third degree when the victim is a special victim, statutory rape in the second degree, statutory sodomy in the second degree, deviate sexual assault, sodomy in the second degree, sexual misconduct involving a child, incest, endangering the welfare of a child in the first degree under subdivision (1) or (2) of subsection 1 of section 568.045, abuse of a child, invasion of privacy, any case in which the defendant is found guilty of a felony offense under chapter 571, or an offense of aggravated stalking or assault of a law enforcement officer in the second degree as such offenses existed prior to January 1, 2017;

(b) The probation violation is not the result of the defendant being an absconder or being found guilty of, pleading guilty to, or being arrested on suspicion of any felony, misdemeanor, or infraction. For purposes of this subsection, "absconder" shall mean an offender under supervision who has left such offender's place of residency without the permission of the offender's supervising officer for the purpose of avoiding supervision;

(c) The defendant has not violated any conditions of probation involving the possession or use of weapons, or a stay-away condition prohibiting the defendant from contacting a certain individual; and

(d) The defendant has not already been placed in one of the programs by the court for the same underlying offense or during the same probation term.

(2) Upon receiving the order, the department of corrections shall conduct an assessment of the offender and place such offender in either the [appropriate] one hundred twenty-day structured cognitive behavioral intervention program [under subsection 3 of section 559.115] or the one hundred twenty-day institutional treatment program. The placement of the offender in the structured cognitive behavioral intervention program or institutional treatment program shall be at the sole discretion of the department based on the assessment of the offender. The program shall begin upon receipt of the offender by the department. The time between the court's order and receipt of the offender by the department shall not apply toward the program.

(3) [Notwithstanding any of the provisions of subsection 3 of section 559.115 to the contrary,] Upon successful completion of a program under this subsection, as determined by the department, the division of probation and parole shall advise the sentencing court of the defendant's probationary release date thirty days prior to release. Once the defendant has successfully completed [the] a program under this subsection, the court shall release the defendant to continue to serve the term of probation, which shall not be modified, enlarged, or extended based on the same incident of violation.

(4) If the department determines the defendant has not successfully completed a one hundred twenty-day program under this section, the division of probation and parole shall advise the prosecuting attorney and the sentencing court of the defendant's unsuccessful program exit and the defendant shall be removed from the program. The defendant shall be released from the department within fifteen working days after the court is notified of the unsuccessful program exit, unless the court has issued a warrant in response to the unsuccessful program exit to facilitate the return of the defendant to the county of jurisdiction for further court proceedings. If a defendant is discharged as unsuccessful from a one hundred twenty-day program, the sentencing court may modify, enlarge, or revoke the defendant's probation based on the same incident of the violation.

(5) Time served in the program shall be credited as time served on any sentence imposed for the underlying offense.

5. If the defendant consents to the revocation of probation or if the defendant is not eligible under subsection 4 of this section for placement in a program and a continuation, modification, enlargement, or extension of the term under this section is not appropriate, the court may revoke probation and order that any sentence previously imposed be executed. If imposition of sentence was suspended, the court may revoke probation and impose any sentence available under section 557.011. The court may mitigate any sentence of imprisonment by reducing the prison or jail term by all or part of the time the defendant was on probation. The court may, upon revocation of probation, place an offender on a second term of probation. Such probation shall be for a term of probation as provided by section 559.016, notwithstanding any amount of time served by the offender on the first term of probation.

6. Probation shall not be revoked without giving the probationer notice and an opportunity to be heard on the issues of whether such probationer violated a condition of probation and, if a condition was violated, whether revocation is warranted under all the circumstances. Not less than five business days prior to the date set for a hearing on the violation, except for a good cause shown, the judge shall inform the probationer that he or she may have the right to request the appointment of counsel if the probationer is unable to retain counsel. If the probationer requests counsel, the judge shall determine whether counsel is necessary to protect the probationer's due process rights. If the judge determines that counsel is not necessary, the judge shall state the grounds for the decision in the record.

7. The prosecuting or circuit attorney may file a motion to revoke probation or at any time during the term of probation, the court may issue a notice to the probationer to appear to answer a charge of a violation, and the court may issue a warrant of arrest for the violation. Such notice shall be personally served upon the probationer. The warrant shall authorize the return of the probationer to the custody of the court or to any suitable detention facility designated by the court. Upon the filing of the prosecutor's or circuit attorney's motion or on the court's own motion, the court may immediately enter an order suspending the period of probation and may order a warrant for the defendant's arrest. The probation

shall remain suspended until the court rules on the prosecutor's or circuit attorney's motion, or until the court otherwise orders the probation reinstated. Notwithstanding any other provision of the law to the contrary, the probation term shall be tolled during the time period when the probation is suspended under this section. The court may grant the probationer credit on the probation term for any of the tolled period when reinstating the probation term.

8. The power of the court to revoke probation shall extend for the duration of the term of probation designated by the court and for any further period which is reasonably necessary for the adjudication of matters arising before its expiration, provided that some affirmative manifestation of an intent to conduct a revocation hearing occurs prior to the expiration of the period and that every reasonable effort is made to notify the probationer and to conduct the hearing prior to the expiration of the period. If the delay of the hearing is attributable to the probationer's actions or the probationer otherwise consents or acquiesces to the delay, the court shall have been found to have made every reasonable effort to conduct the hearing within the probation term.

9. A defendant who was sentenced prior to January 1, 2017 to an offense that was eligible at the time of sentencing under paragraph (a) of subdivision (1) of subsection 4 of this section for the court ordered detention sanction shall continue to remain eligible for the sanction so long as the defendant meets all the other requirements provided under subsection 4 of this section.

APPEALS, PROBATION NOT TO BE GRANTED, WHEN — PROBATION GRANTED AFTER DELIVERY TO DEPARTMENT OF CORRECTIONS, TIME LIMITATION, ASSESSMENT — ONE HUNDRED TWENTY DAY PROGRAM — NOTIFICATION TO STATE, WHEN, HEARING — NO PROBATION IN CERTAIN CASES. — 1. Neither probation nor parole shall be granted by the circuit court between the time the transcript on appeal from the offender's conviction has been filed in appellate court and the disposition of the appeal by such court.

2. Unless otherwise prohibited by subsection 8 of this section, a circuit court only upon its own motion and not that of the state or the offender shall have the power to grant probation to an offender anytime up to one hundred twenty days after such offender has been delivered to the department of corrections but not thereafter. The court may request information and a recommendation from the department concerning the offender and such offender's behavior during the period of incarceration. Except as provided in this section, the court may place the offender on probation in a program created pursuant to section 217.777, or may place the offender on probation with any other conditions authorized by law.

3. The court may recommend placement of an offender in a department of corrections one hundred twenty-day program under this subsection **[or order such placement under subsection 4 of section 559.036].** **[Upon the recommendation or order of the court,]** The department of corrections shall assess each offender to determine the appropriate one hundred twenty-day program in which to place the offender, which may include placement in the **[shock incarceration]** structured cognitive behavioral intervention program or institutional treatment program. The placement of an offender in the structured cognitive behavioral intervention program or institutional treatment program shall be at the sole discretion of the department based on the assessment of the offender and available bed space. When the court recommends and receives placement of an offender in a department of corrections one hundred twenty-day program, the offender shall be released on probation if the department of corrections determines that the offender has successfully completed the program except as follows. Upon successful completion of a program under this subsection, the division of probation and parole shall advise the sentencing court of an offender's probationary release date thirty days prior to release. The court shall follow the recommendation of the department unless the court determines that probation is not appropriate. If the court determines that probation is not appropriate, the court may order the execution of the offender's sentence only after conducting a hearing on the matter within ninety to one hundred twenty days from the date the offender was delivered to the department of corrections. If the

department determines the offender has not successfully completed a one hundred twenty-day program under this subsection, the [offender shall be removed from the program and the court shall be advised of the removal] division of probation and parole shall advise the prosecuting attorney and the sentencing court of the defendant's unsuccessful program exit and the defendant shall be removed from the program. The department shall report on the offender's participation in the program and may provide recommendations for terms and conditions of an offender's probation. The court shall then have the power to grant probation or order the execution of the offender's sentence.

4. If the court is advised that an offender is not eligible for placement in a one hundred twenty-day program under subsection 3 of this section, the court shall consider other authorized dispositions. If the department of corrections one hundred twenty-day program under subsection 3 of this section is full, the court may place the offender in a private program approved by the department of corrections or the court, the expenses of such program to be paid by the offender, or in an available program offered by another organization. If the offender is convicted of a class C, class D, or class E nonviolent felony, the court may order probation while awaiting appointment to treatment.

5. Except when the offender has been found to be a predatory sexual offender pursuant to section 566.125, the court shall request the department of corrections to conduct a sexual offender assessment if the defendant has been found guilty of sexual abuse when classified as a class B felony. Upon completion of the assessment, the department shall provide to the court a report on the offender and may provide recommendations for terms and conditions of an offender's probation. The assessment shall not be considered a one hundred twenty-day program as provided under subsection 3 of this section. The process for granting probation to an offender who has completed the assessment shall be as provided under subsections 2 and 6 of this section.

6. Unless the offender is being granted probation pursuant to successful completion of a one hundred twenty-day program the circuit court shall notify the state in writing when the court intends to grant probation to the offender pursuant to the provisions of this section. The state may, in writing, request a hearing within ten days of receipt of the court's notification that the court intends to grant probation. Upon the state's request for a hearing, the court shall grant a hearing as soon as reasonably possible. If the state does not respond to the court's notice in writing within ten days, the court may proceed upon its own motion to grant probation.

7. An offender's first incarceration under this section prior to release on probation shall not be considered a previous prison commitment for the purpose of determining a minimum prison term under the provisions of section 558.019.

8. Notwithstanding any other provision of law, probation may not be granted pursuant to this section to offenders who have been convicted of murder in the second degree pursuant to section 565.021; forcible rape pursuant to section 566.030 as it existed prior to August 28, 2013; rape in the first degree under section 566.030; forcible sodomy pursuant to section 566.060 as it existed prior to August 28, 2013; sodomy in the first degree under section 566.060; statutory rape in the first degree pursuant to section 566.032; statutory sodomy in the first degree pursuant to section 566.062; child molestation in the first degree pursuant to section 566.067 when classified as a class A felony; abuse of a child pursuant to section 568.060 when classified as a class A felony; or an offender who has been found to be a predatory sexual offender pursuant to section 566.125; any offense under section 557.045; or any offense in which there exists a statutory prohibition against either probation or parole.

2. Any provider in Missouri who defaults or otherwise fails to deploy broadband after receiving federal funds or any moneys from any other state for broadband services shall disclose such default or failure to deploy broadband services on any application to receive any state moneys in Missouri within seven days of such notice of default or failure to deploy broadband services. Any provider who has defaulted in this state or any other state shall be presumed incapable of fulfilling the provider's obligations to deploy broadband internet in Missouri. Such presumption shall be rebuttable.

3. The Missouri office of broadband development is hereby authorized to adjudicate any such findings under subsection 2 of this section in a manner consistent with Missouri law.

8.475. CITATION OF LAW — DEFINITIONS — VERTICAL REAL ESTATE OR TOWERS, POLITICAL SUBDIVISIONS MAY BE CONSTRUCTED. — 1. This section shall be known and may be cited as the "Vertical Real Estate Act".

3. Any political subdivision of the state of Missouri is hereby authorized to erect vertical real estate or towers on its property unless otherwise proscribed by law. Any such political subdivision is hereby authorized to enter into public-private partnerships in order to effectuate construction of vertical real estate or towers.

44.032. EMERGENCY POWERS OF GOVERNOR, USES — MISSOURI DISASTER FUND, FUNDING, EXPENDITURES, PROCEDURES, PURPOSES — AID TO POLITICAL SUBDIVISIONS, WHEN, PROCEDURE — EXPENDITURES IN EXCESS OF \$1,000, GOVERNOR TO APPROVE. — 1. Applications for aid under this section shall be made to the state emergency management agency on such forms as may be prescribed and furnished by the agency, which forms shall require the furnishing of sufficient information to determine eligibility for aid and the extent of the financial burden incurred. The agency may call upon other agencies of the state in evaluating such applications. The director of the state emergency management agency shall review each application for aid under the provisions of this section and recommend its approval or disapproval, in whole or in part, to the governor. If approved, the governor shall determine and certify to the director of the state emergency management agency the amount of aid to be furnished. The director of the state emergency management agency shall thereupon issue [his] the director's voucher to the commissioner of administration, who shall issue [his] the commissioner's warrants therefor to the applicant.

5. When a disaster or emergency has been proclaimed by the governor or there is a national emergency, the director of the state emergency management agency, upon order of the governor, shall have authority to expend funds for the following:

9. Such funds as may be made available by the government of the United States for the purpose of alleviating distress from disasters may be accepted by the state treasurer and shall be credited to the Missouri disaster fund, unless otherwise specifically provided in the act of Congress making such funds available.

There is hereby specifically exempted from the provisions of sections 144.010 to 144.525 and from the computation of the tax levied, assessed or payable pursuant to sections 144.010 to 144.525 such retail sales as may be made in commerce between this state and any other state of the United States, or between this state and any foreign country, and any retail sale which the state of Missouri is prohibited from taxing pursuant to the Constitution or laws of the United States of America, and such retail sales of tangible personal property which the general assembly of the state of Missouri is prohibited from taxing or further taxing by the constitution of this state.

2. There are also specifically exempted from the provisions of the local sales tax law as defined in section 32.085, section 238.235, and sections 144.010 to 144.525 and 144.600 to 144.761 and from the computation of the tax levied, assessed or payable pursuant to the local sales tax law as defined in section 32.085, section 238.235, and sections 144.010 to 144.525 and 144.600 to 144.745:

(1) Motor fuel or special fuel subject to an excise tax of this state, unless all or part of such excise tax is refunded pursuant to section 142.824; or upon the sale at retail of fuel to be consumed in manufacturing or creating gas, power, steam, electrical current or in furnishing water to be sold ultimately at retail; or feed for livestock or poultry; or grain to be converted into foodstuffs which are to be sold ultimately in processed form at retail; or seed, limestone or fertilizer which is to be used for seeding, liming or fertilizing crops which when harvested will be sold at retail or will be fed to livestock or poultry to be sold ultimately in processed form at retail; economic poisons registered pursuant to the provisions of the Missouri pesticide registration law, sections 281.220 to 281.310, which are to be used in connection with the growth or production of crops, fruit trees or orchards applied before, during, or after planting, the crop of which when harvested will be sold at retail or will be converted into foodstuffs which are to be sold ultimately in processed form at retail;

(2) Materials, manufactured goods, machinery and parts which when used in manufacturing, processing, compounding, mining, producing or fabricating become a component part or ingredient of the new personal property resulting from such manufacturing, processing, compounding, mining,

producing or fabricating and which new personal property is intended to be sold ultimately for final use or consumption; and materials, including without limitation, gases and manufactured goods, including without limitation slagging materials and firebrick, which are ultimately consumed in the manufacturing process by blending, reacting or interacting with or by becoming, in whole or in part, component parts or ingredients of steel products intended to be sold ultimately for final use or consumption;

(3) Materials, replacement parts and equipment purchased for use directly upon, and for the repair and maintenance or manufacture of, motor vehicles, watercraft, railroad rolling stock or aircraft engaged as common carriers of persons or property;

(4) Replacement machinery, equipment, and parts and the materials and supplies solely required for the installation or construction of such replacement machinery, equipment, and parts, used directly in manufacturing, mining, fabricating or producing a product which is intended to be sold ultimately for final use or consumption; and machinery and equipment, and the materials and supplies required solely for the operation, installation or construction of such machinery and equipment, purchased and used to establish new, or to replace or expand existing, material recovery processing plants in this state. For the purposes of this subdivision, a "material recovery processing plant" means a facility that has as its primary purpose the recovery of materials into a usable product or a different form which is used in producing a new product and shall include a facility or equipment which are used exclusively for the collection of recovered materials for delivery to a material recovery processing plant but shall not include motor vehicles used on highways. For purposes of this section, the terms motor vehicle and highway shall have the same meaning pursuant to section 301.010. For the purposes of this subdivision, subdivision (5) of this subsection, and section 144.054, as well as the definition in subdivision (9) of subsection 1 of section 144.010, the term "product" includes telecommunications services and the term "manufacturing" shall include the production, or production and transmission, of telecommunications services. The preceding sentence does not make a substantive change in the law and is intended to clarify that the term "manufacturing" has included and continues to include the production and transmission of "telecommunications services", as enacted in this subdivision and subdivision (5) of this subsection, as well as the definition in subdivision (9) of subsection 1 of section 144.010. The preceding two sentences reaffirm legislative intent consistent with the interpretation of this subdivision and subdivision (5) of this subsection in *Southwestern Bell Tel. Co. v. Director of Revenue*, 78 S.W.3d 763 (Mo. banc 2002) and *Southwestern Bell Tel. Co. v. Director of Revenue*, 182 S.W.3d 226 (Mo. banc 2005), and accordingly abrogates the Missouri supreme court's interpretation of those exemptions in *IBM Corporation v. Director of Revenue*, 491 S.W.3d 535 (Mo. banc 2016) to the extent inconsistent with this section and *Southwestern Bell Tel. Co. v. Director of Revenue*, 78 S.W.3d 763 (Mo. banc 2002) and *Southwestern Bell Tel. Co. v. Director of Revenue*, 182 S.W.3d 226 (Mo. banc 2005). The construction and application of this subdivision as expressed by the Missouri supreme court in *DST Systems, Inc. v. Director of Revenue*, 43 S.W.3d 799 (Mo. banc 2001); *Southwestern Bell Tel. Co. v. Director of Revenue*, 78 S.W.3d 763 (Mo. banc 2002); and *Southwestern Bell Tel. Co. v. Director of Revenue*, 182 S.W.3d 226 (Mo. banc 2005), is hereby affirmed. Material recovery is not the reuse of materials within a manufacturing process or the use of a product previously recovered. The material recovery processing plant shall qualify under the provisions of this section regardless of ownership of the material being recovered;

(5) Machinery and equipment, and parts and the materials and supplies solely required for the installation or construction of such machinery and equipment, purchased and used to establish new or to expand existing manufacturing, mining or fabricating plants in the state if such machinery and equipment is used directly in manufacturing, mining or fabricating a product which is intended to be sold ultimately for final use or consumption. The construction and application of this subdivision as expressed by the Missouri supreme court in *DST Systems, Inc. v. Director of Revenue*, 43 S.W.3d 799 (Mo. banc 2001); *Southwestern Bell Tel. Co. v. Director of Revenue*, 78 S.W.3d 763 (Mo. banc 2002);

and Southwestern Bell Tel. Co. v. Director of Revenue, 182 S.W.3d 226 (Mo. banc 2005), is hereby affirmed;

(6) Tangible personal property which is used exclusively in the manufacturing, processing, modification or assembling of products sold to the United States government or to any agency of the United States government;

(7) Animals or poultry used for breeding or feeding purposes, or captive wildlife;

(8) Newsprint, ink, computers, photosensitive paper and film, toner, printing plates and other machinery, equipment, replacement parts and supplies used in producing newspapers published for dissemination of news to the general public;

(9) The rentals of films, records or any type of sound or picture transcriptions for public commercial display;

(10) Pumping machinery and equipment used to propel products delivered by pipelines engaged as common carriers;

(11) Railroad rolling stock for use in transporting persons or property in interstate commerce and motor vehicles licensed for a gross weight of twenty-four thousand pounds or more or trailers used by common carriers, as defined in section 390.020, in the transportation of persons or property;

(12) Electrical energy used in the actual primary manufacture, processing, compounding, mining or producing of a product, or electrical energy used in the actual secondary processing or fabricating of the product, or a material recovery processing plant as defined in subdivision (4) of this subsection, in facilities owned or leased by the taxpayer, if the total cost of electrical energy so used exceeds ten percent of the total cost of production, either primary or secondary, exclusive of the cost of electrical energy so used or if the raw materials used in such processing contain at least twenty-five percent recovered materials as defined in section 260.200. There shall be a rebuttable presumption that the raw materials used in the primary manufacture of automobiles contain at least twenty-five percent recovered materials. For purposes of this subdivision, "processing" means any mode of treatment, act or series of acts performed upon materials to transform and reduce them to a different state or thing, including treatment necessary to maintain or preserve such processing by the producer at the production facility;

(13) Anodes which are used or consumed in manufacturing, processing, compounding, mining, producing or fabricating and which have a useful life of less than one year;

(14) Machinery, equipment, appliances and devices purchased or leased and used solely for the purpose of preventing, abating or monitoring air pollution, and materials and supplies solely required for the installation, construction or reconstruction of such machinery, equipment, appliances and devices;

(15) Machinery, equipment, appliances and devices purchased or leased and used solely for the purpose of preventing, abating or monitoring water pollution, and materials and supplies solely required for the installation, construction or reconstruction of such machinery, equipment, appliances and devices;

(16) Tangible personal property purchased by a rural water district;

supplier's single-hour peak load during the previous year, after which the commission for [a public utility] an electrical corporation or the respective governing body [for] of other [electric utilities] retail electric suppliers may increase the total rated generating capacity of net metering systems to an amount above five percent. However, in a given calendar year, no retail electric supplier shall be required to approve any application for interconnection if the total rated generating capacity of all applications for interconnection already approved to date by said supplier in said calendar year equals or exceeds one percent of said supplier's single-hour peak load for the previous calendar year;

(2) Offer to the customer-generator a tariff or contract that is identical in electrical energy rates, rate structure, and monthly charges to the contract or tariff that the customer would be assigned if the customer were not an eligible customer-generator but shall not charge the customer-generator any additional standby, capacity, interconnection, or other fee or charge that would not otherwise be charged if the customer were not an eligible customer-generator; and

(3) Disclose annually the availability of the net metering program to each of its customers with the method and manner of disclosure being at the discretion of the supplier.

4. A customer-generator's facility shall be equipped with sufficient metering equipment that can measure the net amount of electrical energy produced or consumed by the customer-generator. If the customer-generator's existing meter equipment does not meet these requirements or if it is necessary for the retail electric supplier to install additional distribution equipment to accommodate the customer-generator's facility, the customer-generator shall reimburse the retail electric supplier for the costs to purchase and install the necessary additional equipment. At the request of the customer-generator, such costs may be initially paid for by the retail electric supplier, and any amount up to the total costs and a reasonable interest charge may be recovered from the customer-generator over the course of up to twelve billing cycles. Any subsequent meter testing, maintenance or meter equipment change necessitated by the customer-generator shall be paid for by the customer-generator.

5. Consistent with the provisions in this section, the net electrical energy measurement shall be calculated in the following manner:

(1) For a customer-generator, a retail electric supplier shall measure the net electrical energy produced or consumed during the billing period in accordance with normal metering practices for customers in the same rate class, either by employing a single, bidirectional meter that measures the amount of electrical energy produced and consumed, or by employing multiple meters that separately measure the customer-generator's consumption and production of electricity;

(2) If the electricity supplied by the supplier exceeds the electricity generated by the customer-generator during a billing period, the customer-generator shall be billed for the net electricity supplied by the supplier in accordance with normal practices for customers in the same rate class;

(3) If the electricity generated by the customer-generator exceeds the electricity supplied by the supplier during a billing period, the customer-generator shall be billed for the appropriate customer charges for that billing period in accordance with subsection 3 of this section and shall be credited an amount at least equal to the avoided fuel cost of the excess kilowatt-hours generated during the billing period, with this credit applied to the following billing period;

(4) Any credits granted by this subsection shall expire without any compensation at the earlier of either twelve months after their issuance or when the customer-generator disconnects service or terminates the net metering relationship with the supplier;

(5) For any rural electric cooperative under chapter 394, or [municipal] any municipally owned utility, upon agreement of the wholesale generator supplying electric energy to the retail electric supplier, at the option of the retail electric supplier, the credit to the customer-generator may be provided by the wholesale generator.

6. (1) Each qualified electric energy generation unit used by a customer-generator shall meet all applicable safety, performance, interconnection, and reliability standards established by any local code authorities, the National Electrical Code, the National Electrical Safety Code, the Institute of Electrical

7. (1) Applications by a customer-generator for interconnection of a qualified electric energy generation unit meeting the requirements of subdivision (3) of subsection 2 of this section to the distribution system shall be accompanied by the plan for the customer-generator's electrical generating system, including but not limited to a wiring diagram and specifications for the generating unit, and shall be reviewed and responded to by the retail electric supplier within thirty days of receipt for systems ten kilowatts or less and within ninety days of receipt for all other systems. Prior to the interconnection of the qualified generation unit to the supplier's system, the customer-generator will furnish the retail electric supplier a certification from a qualified professional electrician or engineer that the installation meets the requirements of subdivision (1) of subsection 6 of this section. If the application for interconnection is approved by the retail electric supplier and the customer-generator does not complete the interconnection within one year after receipt of notice of the approval, the approval shall expire and the customer-generator shall be responsible for filing a new application.

(2) Upon the change in ownership of a qualified electric energy generation unit, the new customer-generator shall be responsible for filing a new application under subdivision (1) of this subsection.

8. Each [commission-regulated supplier] electrical corporation shall submit an annual net metering report to the commission, and all other [nonregulated] retail electric suppliers shall submit the same report to their respective governing body and make said report available to a consumer of the supplier upon request, including the following information for the previous calendar year:

(1) The total number of customer-generator facilities;

(2) The total estimated generating capacity of its net-metered customer-generators; and

(3) The total estimated net kilowatt-hours received from customer-generators.

9. The commission shall, within nine months of January 1, 2008, promulgate initial rules necessary for the administration of this section for [public utilities] electrical corporations, which shall include regulations ensuring that simple contracts will be used for interconnection and net metering. For systems of ten kilowatts or less, the application process shall use an all-in-one document that includes a simple interconnection request, simple procedures, and a brief set of terms and conditions. Any rule or portion of a rule, as that term is defined in section 536.010, that is created under the authority delegated in this section shall become effective only if it complies with and is subject to all of the provisions of chapter 536 and, if applicable, section 536.028. This section and chapter 536 are nonseverable and if any of the powers vested with the general assembly under chapter 536 to review, to delay the effective

date, or to disapprove and annul a rule are subsequently held unconstitutional, then the grant of rulemaking authority and any rule proposed or adopted after August 28, 2007, shall be invalid and void.

10. The governing body of a rural electric cooperative or municipal utility shall, within nine months of January 1, 2008, adopt policies establishing a simple contract to be used for interconnection and net metering. For systems of ten kilowatts or less, the application process shall use an all-in-one document that includes a simple interconnection request, simple procedures, and a brief set of terms and conditions.

11. For any cause of action relating to any damages to property or person caused by the qualified electric energy generation unit of a customer-generator or the interconnection thereof, the retail electric supplier shall have no liability absent clear and convincing evidence of fault on the part of the supplier.

12. The estimated generating capacity of all net metering systems operating under the provisions of this section shall count towards the respective retail electric supplier's accomplishment of any renewable energy portfolio target or mandate adopted by the Missouri general assembly.

13. The sale of qualified electric energy generation units to any customer-generator shall be subject to the provisions of sections 407.010 to 407.145 and sections 407.700 to 407.720. The attorney general shall have the authority to promulgate in accordance with the provisions of chapter 536 rules regarding mandatory disclosures of information by sellers of qualified electric energy generation units. Any interested person who believes that the seller of any qualified electric energy generation unit is misrepresenting the safety or performance standards of any such systems, or who believes that any electric energy generation unit poses a danger to any property or person, may report the same to the attorney general, who shall be authorized to investigate such claims and take any necessary and appropriate actions.

14. Any costs incurred under this act by a retail electric supplier shall be recoverable in that utility's rate structure.

15. No consumer shall connect or operate [an] a qualified electric energy generation unit in parallel phase and synchronization with any retail electric supplier without written approval by said supplier that all of the requirements under subdivision (1) of subsection 7 of this section have been met. For a consumer who violates this provision, a supplier may immediately and without notice disconnect the electric facilities of said consumer and terminate said consumer's electric service.

16. The manufacturer of any qualified electric energy generation unit used by a customer-generator may be held liable for any damages to property or person caused by a defect in the qualified electric energy generation unit of a customer-generator.

17. The seller, installer, or manufacturer of any qualified electric energy generation unit who knowingly misrepresents the safety aspects of [an] a qualified electric energy generation unit may be held liable for any damages to property or person caused by the qualified electric energy generation unit of a customer-generator.

[3.] (2) A homeowners' association has the authority to adopt reasonable rules, subject to any applicable statutes or ordinances, regarding the time, size, place, number, and manner of display of political signs.

[4.] (3) A homeowners' association may remove a political sign without liability if such sign is placed within the common ground, threatens the public health or safety, violates an applicable statute or ordinance, is accompanied by sound or music, or if any other materials are attached to the political sign. Subject to the foregoing, a homeowners' association shall not remove a political sign from the property of a homeowner or impose any fine or penalty upon the homeowner unless it has given such homeowner three days after providing written notice to the homeowner, which notice shall specifically identify the rule and the nature of the violation.

3. (1) No deed restrictions, covenants, or similar binding agreements running with the land shall limit or prohibit, or have the effect of limiting or prohibiting, the installation of solar panels or solar collectors on the rooftop of any property or structure.

(2) A homeowners' association may adopt reasonable rules, subject to any applicable statutes or ordinances, regarding the placement of solar panels or solar collectors to the extent that those rules do not prevent the installation of the device, impair the functioning of the device, restrict the use of the device, or adversely affect the cost or efficiency of the device.

(3) The provisions of this subsection shall apply only with regard to rooftops that are owned, controlled, and maintained by the owner of the individual property or structure.

5. A public utility or a rural electric cooperative may only condemn the property of another provider of public utility service, even if the property is used or useful in providing utility services by such provider, if the condemnation is necessary for the public purpose of acquiring a nonexclusive easement or right-of-way across the property of such provider and only if the acquisition will not materially impair or interfere with the current use of such property by the utility or cooperative and will not prevent or materially impair such provider of public utility service from any future expansion of its facilities on such property.

6. If a public utility or rural electric cooperative seeks to condemn the property of another provider of public utility service, and the conditions in subsection 4 of this section do not apply, this section does not limit the condemnation powers otherwise possessed by such public utility or rural electric cooperative.

In the event of such return of the easement to the title holder, no reimbursement of any payment made by the corporation to the title holder shall be due.

523.039. JUST COMPENSATION FOR CONDEMNED PROPERTY, AMOUNT. — 1. 214.160. INVESTMENT OR LENDING OF TRUST FUNDS — INVESTMENT MANAGER, DUTIES — DEFINITIONS. — 1. Under sections 214.140 to 214.180, and as otherwise not prohibited under Article VI, Section 23 of the Constitution of Missouri, the county commission may invest or loan said trust fund or funds in United States government, state, county or municipal bonds, certificates of deposit, first real estate mortgages, or deeds of trust and may utilize investment managers to invest, reinvest, and manage assets, subject to the terms, conditions, and limitations provided in this section and Article IV, Section 15 of the Constitution of Missouri. ~~[They]~~ When sufficient, the commission shall use the net income from said trust fund or funds or such investments or so much thereof as is necessary to support and maintain and beautify any public or private cemetery or any particular part thereof which may be designated by the person, persons or firm or association making said gift or bequest. If the net income from said trust fund or funds is not sufficient to support and maintain and beautify a cemetery, the commission may only use as much of the principal thereof as the commission deems necessary for the purpose of the basic maintenance to control the growth of grass and weeds. In maintaining or supporting the cemetery or any particular part or portion thereof the commission shall as nearly as possible follow the expressed wishes of the creator of said trust fund.

2. An investment manager shall discharge his or her duties in the interest of the public or private cemetery and the interest of the person, persons, or firm making the gift or bequest and shall:

(1) Act with the same care, skill, prudence, and diligence under the circumstances then prevailing that a prudent person acting in a similar capacity and familiar with those matters would use in the conduct of a similar enterprise with similar aims;

(a) The diversification of the investments;

(b) The liquidity and current return of the investments relative to the anticipated cash flow requirements; and

(c) The projected return of the investments relative to the funding objectives; and

(5) Give appropriate consideration to investments that would enhance the general welfare of this state and its citizens if those investments offer the safety and rate of return comparable to other investments available to the investment fiduciary at the time the investment decision is made.

3. As used in this section, "invest" or "investment" means utilization of moneys in the expectation of future returns in the form of income or capital gain.

456.026. RULE AGAINST PERPETUITIES, TRUST SUBJECT TO, WHEN. — For purposes of determining whether a trust that is subject to the rule against perpetuities violates said rule, if there is

only one beneficiary of the trust who is entitled or eligible to receive distributions of income or principal from the trust, such beneficiary holds a general power of appointment over the trust, and no other person has a power to appoint any part of the trust to anyone other than the beneficiary, then the beneficiary has a vested interest in the trust, regardless of whether such general power is presently exercisable or is exercisable only at the powerholder's death.

456.1-114. FAMILIAL RELATIONSHIPS. — 1. For purposes of interpreting a term of familial relationship in a trust, "descendants", "issue", "children", and similar terms of relationship shall be construed as follows:

(1) A child conceived or born of a marriage is presumed to be a child of the persons so married unless a judicial proceeding is commenced before the death of the presumed parent and it is finally determined in such proceeding that the presumed parent is not the parent of the child;

(2) A child who is not conceived or born of a marriage is presumed to not be a child of a person who did not give birth to the child unless:

(a) A judicial proceeding commenced before the death of such person determined that such person is a parent of the child; or

(b) Such person openly recognized the child as his or her child and such person has not refused to voluntarily support the child. A trustee may rely on its discretion regarding the sufficiency of recognition or support, and the trustee shall not be liable to any person for its exercise of this discretion unless the trustee acts in bad faith or with reckless indifference to the purposes of the trust or the interests of the beneficiaries; and

(3) A child adopted prior to the age of eighteen is the child of an adopting parent and not of the natural parents, except that adoption of a child by the spouse of a natural parent has no effect on the relationship between the child and such natural parent.

2. If a parent-child relationship is established pursuant to this section, the rights afforded to the child shall not be retroactive, but instead shall apply from the time the relationship is established.

3. The terms of a trust shall prevail over any provision of this section.

456.4-419. DISTRIBUTIONS OF INCOME AND PRINCIPAL OF FIRST TRUSTS AND SECOND TRUSTS, DISCRETIONARY POWER OF TRUSTEE — NOTICE REQUIREMENTS. — 1. Unless the terms of the trust instrument expressly provide otherwise, a trustee, other than a settlor, who has discretionary power under the terms of a trust to make a distribution of income or principal, whether or not limited by an ascertainable standard, to or for the benefit of one or more beneficiaries of a trust, the first trust, may instead exercise such discretionary power by [appointing] distributing all or part of the income or principal subject to such discretionary power in favor of a trustee of a second trust, the second trust, created under either the same or different trust instrument in the event that the trustee of the first trust decides that the [appointment] distribution is necessary or desirable after taking into account the terms and purposes of the first trust, the terms and purposes of the second trust, and the consequences of the distribution. A trustee may exercise the power described in this subsection by distributing property from the first trust to one or more second trusts or by modifying the trust instrument for the first trust which, as modified, becomes one or more second trusts.

2. With respect to a second trust to which a distribution is made pursuant to subsection 1 of this section:

(1) At least one permissible distributee of the first trust shall be a permissible distributee of the second trust immediately after the distribution;

(2) If, at the time of the distribution, the settlor of the first trust is living and the first trust is not a grantor trust under Subpart E of Part I of Subchapter J of Chapter 1 of the Internal Revenue Code of 1986, as amended, there may not be any permissible distributee of the second trust immediately after the distribution who is not a permissible distributee of the first trust;

(3) If, at the time of the distribution, the settlor of the first trust is deceased or if, at the time of the distribution, the first trust is a grantor trust under Subpart E of Part I of Subchapter J of Chapter 1 of the Internal Revenue Code of 1986, as amended, for reasons other than the trustee having the power granted by this section, any beneficiary of the first trust may be included as a permissible distributee of the second trust immediately after the distribution;

(4) The second trust may not include any beneficiary who is not a beneficiary of the first trust; and

(5) The trust instrument for the second trust may retain, modify, or omit a power of appointment granted in the first trust, and the trust instrument for the second trust may create a power of appointment if the powerholder is a beneficiary of the second trust. Except to the extent provided otherwise in subsection 4 of this section, a power of appointment in the trust instrument for the second trust may be a general or nongeneral power of appointment and the permissible appointees of the power need not be limited to the beneficiaries of the first trust.

3. The following provisions apply to a trust that has a beneficiary with a disability:

(1) As used in this subsection, the following terms mean:

(a) "Beneficiary with a disability", a beneficiary of a first trust who the special-needs fiduciary believes may qualify for governmental benefits based on disability, whether or not the beneficiary currently receives those benefits or is an individual who has been adjudicated disabled or adjudicated incapacitated;

(b) "Governmental benefits", financial aid or services from a state, federal, or other public agency;

(c) "Special-needs fiduciary", with respect to a trust that has a beneficiary with a disability:

a. A trustee or other fiduciary, other than a settlor, who has discretionary power under the terms of a trust to make a distribution of income or principal, whether or not limited by an ascertainable standard, to or for the benefit of one or more beneficiaries; or

b. If no trustee or fiduciary has discretion under subparagraph a. of this paragraph, a trustee or other fiduciary, other than a settlor, who is required to distribute part or all of the income or principal of the first trust to or for the benefit of one or more beneficiaries;

(d) "Special-needs trust", a trust the trustee believes would not be considered a resource for purposes of determining whether a beneficiary with a disability is eligible for governmental benefits;

(2) A special-needs fiduciary may exercise the authority granted by subsection 1 of this section if:

(a) A second trust is a special-needs trust that benefits the beneficiary with a disability; and

(b) The special-needs fiduciary determines that exercise of the authority pursuant to subsection 1 of this section will further the purposes of the first trust; and

(3) The following provisions apply to any exercise of the authority granted by this subsection:

(a) Notwithstanding the provisions of subdivision (4) of subsection 2 of this section to the contrary, the terms of the second trust may:

a. Provide that an interest is held by a pooled trust as defined by Medicaid law for the benefit of the beneficiary with a disability under 42 U.S.C. Section 1396p(d)(4)(C); or

b. Contain payback provisions complying with reimbursement requirements of Medicaid law under 42 U.S.C. Section 1396p(d)(4)(A);

(b) The provisions of subdivision (3) of subsection 4 of this section shall not apply to the interests of the beneficiary with a disability; and

(c) Except as affected by any change to the interests of the beneficiary with a disability, the second trust, or if there are two or more second trusts, the second trusts in the aggregate, shall grant each other beneficiary of the first trust beneficial interests in the second trusts which are substantially similar to the beneficiary's beneficial interests in the first trust, unless such other beneficiary's interest is modified in accordance with the provisions of this section other than this subsection.

4. The following provisions apply to any exercise of the authority granted by subsection 1 of this section:

(1) [The second trust may have as beneficiaries only one or more of those beneficiaries of the first trust to or for whom any discretionary distribution may be made from the first trust and who are proper objects of the exercise of the power, or one or more of those other beneficiaries of the first trust to or for whom a distribution of income or principal may have been made in the future from the first trust at a time or upon the happening of an event specified under the first trust;

(2) Unless the exercise of such power is limited by an ascertainable standard, no trustee of the first trust may exercise such authority to make a distribution from the first trust if:

(a) Such trustee is a beneficiary of the first trust; or

(b) Any beneficiary may remove and replace the trustee of the first trust with a related or subordinate party to such beneficiary within the meaning of Section 672(c) of the Internal Revenue Code;

(3) Except if participating in a change that is needed for a distribution to any such beneficiary under an ascertainable standard, no trustee shall exercise such authority to the extent that doing so would have the effect either of:

(a) Increasing the distributions that can be made in the future from the second trust to the trustee of the first trust or to a beneficiary who can remove and replace the trustee of the first trust with a related or subordinate party to such beneficiary within the meaning of Section 672(c) of the Internal Revenue Code; or

(b) Removing restrictions on discretionary distributions imposed by the instrument under which the first trust was created;

(4) In the case of any trust contributions which have been treated as gifts qualifying for the exclusion from gift tax described in Section 2503(b) of the Internal Revenue Code, by reason of the application of Section 2503(c), the governing instrument for the second trust shall provide that the beneficiary's remainder interest shall vest no later than the date upon which such interest would have vested under the terms of the governing instrument for the first trust;

(5) The exercise of such authority may not reduce any income interest of any income beneficiary of any of the following trusts:

(a) A trust for which a marital deduction has been taken for federal tax purposes under Section 2056 or 2523 of the Internal Revenue Code or for state tax purposes under any comparable provision of applicable state law;

(b) A charitable remainder trust under Section 664 of the Internal Revenue Code;

(c) A grantor retained annuity trust under Section 2702 of the Internal Revenue Code; or

(d) A trust which has been qualified as a Subchapter S trust under Section 1361(d) of the Internal Revenue Code or an electing small business trust under Section 1361(e) of the Internal Revenue Code] If the exercise of the authority granted by subsection 1 of this section is limited by an ascertainable standard and the trustee exercising such authority is a permissible distributee of the first trust under such standard, then:

(a) The discretionary power under the trust instrument for the second trust to distribute income or principal to such trustee as a permissible distributee shall be subject to the same ascertainable standard as, or a more restrictive ascertainable standard than, such standard in the trust instrument for the first trust; and

(b) The trust instrument for the second trust shall not:

a. Modify a power of appointment granted to such trustee in the first trust; or

b. Grant a power of appointment to such trustee that did not exist in the first trust;

(2) An exercise of the authority granted by subsection 1 of this section is subject to the following limitations:

(a) If the first trust contains property that qualified, or would have qualified but for provisions of this section other than this subdivision, for a marital deduction for purposes of the gift or estate tax under the Internal Revenue Code of 1986, as amended, the trust instrument for the second trust shall not

include or omit any term that, if included in or omitted from the trust instrument for the second trust, would have prevented the transfer from qualifying for the deduction, or would have reduced the amount of the deduction, under the same provisions of the Internal Revenue Code under which the transfer qualified;

(b) If the first trust contains property that qualified, or would have qualified but for provisions of this section other than this subdivision, for a charitable deduction for purposes of the income, gift, or estate tax under the Internal Revenue Code of 1986, as amended, the trust instrument for the second trust shall not include or omit any term that, if included in or omitted from the trust instrument for the second trust, would have prevented the transfer from qualifying for the deduction, or would have reduced the amount of the deduction, under the same provisions of the Internal Revenue Code under which the transfer qualified;

(c) If the first trust contains property that qualified, or would have qualified but for provisions of this section other than this subdivision, for the exclusion from the gift tax described in Section 2503(b) of the Internal Revenue Code of 1986, as amended, the trust instrument for the second trust shall not include or omit a term that, if included in or omitted from the trust instrument for the second trust, would have prevented the transfer from qualifying under Section 2503(b) of the Internal Revenue Code. If the first trust contains property that qualified, or would have qualified but for provisions of this section other than this subdivision, for the exclusion from the gift tax described in Section 2503(b) of the Internal Revenue Code, by application of Section 2503(c) of the Internal Revenue Code, the trust instrument for the second trust shall not include or omit a term that, if included or omitted from the trust instrument for the second trust, would have prevented the transfer from meeting the requirements of Section 2503(c) of the Internal Revenue Code;

(d) If the property of the first trust includes shares of stock in an S corporation, as defined in Section 1361 of the Internal Revenue Code of 1986, as amended, and the first trust is, or but for provisions of this section other than this subdivision would be, a permitted shareholder under any provision of Section 1361 of the Internal Revenue Code, the trustee of the first trust may exercise such authority with respect to part or all of the S corporation stock only if the second trust receiving the stock is a permitted shareholder under Section 1361(c)(2) of the Internal Revenue Code. If the property of the first trust includes shares of stock in an S corporation and the first trust is, or but for provisions of this section other than this subdivision would be, a qualified subchapter-S trust within the meaning of Section 1361(d) of the Internal Revenue Code, the trust instrument for the second trust shall not include or omit a term that prevents the second trust from qualifying as a qualified subchapter-S trust; and

(e) If the first trust contains property that qualified, or would have qualified but for provisions of this section other than this subdivision, for a zero inclusion ratio for purpose of the generation-skipping transfer tax under Section 2642(c) of the Internal Revenue Code of 1986, as amended, the trust instrument for the second trust shall not include or omit a term that, if included in or omitted from the first trust, would have prevented the transfer to the first trust from qualifying for a zero inclusion ratio under Section 2642(c) of the Internal Revenue Code;

[(6)] (3) The exercise of such authority does not apply to trust property subject to a presently exercisable power of withdrawal held by a trust beneficiary to whom, or for the benefit of whom, the trustee has authority to make distributions, unless after the exercise of such authority, such beneficiary's power of withdrawal is unchanged with respect to the trust property; and

[(7)] (4) A spendthrift clause or a provision in the trust instrument that prohibits amendment or revocation of the trust shall not preclude the trustee from exercising the authority granted by subsection 1 of this section.

[3.] 5. At least sixty days prior to making a discretionary distribution under subsection 1 of this section, the trustee of the first trust shall notify the permissible distributees of the first trust and the permissible distributees of the second trust[, or the qualified beneficiaries of the second trust if there are no permissible distributees of the second trust,] of the distribution. A beneficiary may waive the right

to the notice required by this subsection and, with respect to future distributions, may withdraw a waiver previously given.

[4.] 6. In exercising the authority granted by subsection 1 of this section, the trustee shall remain subject to all fiduciary duties otherwise imposed under the trust instrument and Missouri law.

[5.] 7. This section does not impose on a trustee a duty to exercise the authority granted by subsection 1 of this section in favor of another trust or to consider exercising such authority in favor of another trust.

8. A second trust may have a duration that is the same as or different from the duration of the first trust. However, to the extent that property of the second trust is attributable to property of the first trust, the property of the second trust is subject to any rules governing maximum perpetuity, accumulation, or suspension of the power of alienation which apply to property of the first trust. The provisions of this subsection shall not preclude the creation of a general power of appointment in the trust instrument for a second trust as authorized by subdivision (5) of subsection 2 of this section.

9. In the event the trust instrument for the second trust in part does not comply with this section but would otherwise be effective under this section, the exercise of the power is effective and the following rules apply with respect to the principal of the second trust attributable to the exercise of the power:

(1) A provision in the trust instrument for the second trust which is not permitted under this section is void to the extent necessary to comply with this section; and

(2) A provision required by this section to be in the trust instrument for the second trust which is not contained in the trust instrument is deemed to be included in the trust instrument to the extent necessary to comply with this section.

[6.] 10. This section is intended to codify and, from and after enactment, to provide certain limitations to the common law of this state, and this section applies to any trust governed by the laws of this state, including a trust whose principal place of administration is transferred to this state before or after the enactment of this section.

456.5-504. DISCRETIONARY TRUSTS, INTEREST NOT ENFORCEABLE, WHEN — APPLICABILITY — EFFECT OF STANDARD. — 1. A beneficiary's interest in a trust that is subject to the trustee's discretion does not constitute an interest in property or an enforceable right even if the discretion is expressed in the form of a standard of distribution or the beneficiary is then serving as a trustee or cotrustee. A creditor or other claimant may not attach present or future distributions from such an interest or right, obtain an order from a court forcing the judicial sale of the interest or compelling the trustee to make distributions, or reach the interest or right by any other means, even if the trustee has abused the trustee's discretion.

2. This section does not limit the right of a beneficiary to maintain a judicial proceeding against a trustee for an abuse of discretion or failure to comply with a standard for distribution.

3. This section applies whether or not an interest is subject to a spendthrift provision.

4. For purposes of this section, a beneficiary's interest in a trust is subject to the trustee's discretion if that interest does not constitute a mandatory distribution as defined in subsection 1 of section 456.5-506.

5. Whether or not a trust contains a spendthrift provision, no creditor or other person making a claim against a beneficiary shall be entitled to any information relating to the trust's assets or other trust records if distributions to the beneficiary are solely within the discretion of the trustee. The provisions of this subsection shall apply during the term of the trust, regardless of whether the beneficiary is also a potential remainder beneficiary of the trust.

456.5-505. CREDITOR'S CLAIM AGAINST SETTLOR. — 1. Whether or not the terms of a trust contain a spendthrift provision, during the lifetime of the settlor, the property of a revocable trust is subject to claims of the settlor's creditors.

EXPLANATION--Matter enclosed in bold-faced brackets [thus] is not enacted and is intended to be omitted in the law.
Matter underscored is proposed language.

2. With respect to an irrevocable trust without a spendthrift provision, a creditor or assignee of the settlor may reach the maximum amount that can be distributed to or for the settlor's benefit. If a trust has more than one settlor, the amount the creditor or assignee of a particular settlor may reach may not exceed the settlor's interest in the portion of the trust attributable to that settlor's contribution.

3. With respect to an irrevocable trust with a spendthrift provision, a spendthrift provision will prevent the settlor's creditors from satisfying claims from the trust assets except:

(1) Where the conveyance of assets to the trust was fraudulent as to creditors pursuant to the provisions of chapter 428; or

(2) To the extent of the settlor's beneficial interest in the trust assets, if at the time the trust became irrevocable:

(a) The settlor was the sole beneficiary of either the income or principal of the trust or retained the power to amend the trust; or

(b) The settlor was one of a class of beneficiaries and retained a right to receive a specific portion of the income or principal of the trust that was determinable solely from the provisions of the trust instrument.

4. In the event that a trust meets the requirements set forth in subsection 3 of this section, a settlor's creditors may not reach the settlor's beneficial interest in that trust, regardless of:

(1) Any testamentary power of appointment [retained by the settlor] that is exercisable by the settlor, by a will or other written instrument, in favor of any appointees other than the settlor, the settlor's estate, the settlor's creditors, or the creditors of the settlor's estate; or

(2) The settlor's power to veto distributions from the trust.

5. Any trustee who has a duty or power to pay the debts of a deceased settlor may publish a notice in a newspaper published in the county designated in subdivision (3) of this subsection once a week for four consecutive weeks in substantially the following form:

To all persons interested in the estate of _____, decedent. The undersigned _____ is acting as Trustee under a trust the terms of which provide that the debts of the decedent may be paid by the Trustee(s) upon receipt of proper proof thereof. The address of the Trustee is _____.

All creditors of the decedent are noticed to present their claims to the undersigned within six (6) months from the date of the first publication of this notice or be forever barred.

_____ Trustee

(1) If such publication is duly made by the trustee, any debts not presented to the trustee within six months from the date of the first publication of the preceding notice shall be forever barred as against the trustee and the trust property.

(2) A trustee shall not be liable to account to the decedent's personal representative under the provisions of section 461.300 by reason of any debt barred under the provisions of this subsection.

(3) Such publication shall be in a newspaper published in:

(a) The county in which the domicile of the settlor at the time of his or her death is situated;

(b) If the settlor had no domicile in this state at the time of his or her death, any county wherein trust assets are located; except that, when the major part of the trust assets in this state consist of real estate, the notice shall be published in the county in which the real estate or the major part thereof is located; or

(c) If the settlor had no domicile in this state at the time of his or her death and no trust assets are located therein, the county wherein the principal place of administration of the trust is located.

(4) For purposes of this subsection, the term "domicile" means the place in which the settlor voluntarily fixed his or her abode, not for a mere special or temporary purpose, but with a present intention of remaining there permanently or for an indefinite term.

6. For purposes of this section:

(1) During the period the power may be exercised, the holder of a power of withdrawal is treated in the same manner as the settlor of a revocable trust to the extent of the property subject to the power; and

(2) Upon the lapse, release, or waiver of the power, the holder is treated as the settlor of the trust only to the extent the value of the property affected by the lapse, release, or waiver exceeds the greater of the amount specified in Sections 2041(b)(2), 2514(e) or 2503(b) of the Internal Revenue Code.

7. For all purposes of section 456.5-501 to 456.5-508, the settlor of any of the following trusts, known as the "first trust" in this subsection, shall not be treated as the settlor of any other trust, known as the "second trust" in this subsection, that is created pursuant to the exercise of a power of appointment over the first trust if the settlor is a beneficiary of the second trust:

(1) An irrevocable inter vivos trust for the benefit of the settlor's spouse that qualifies for the marital deduction from the federal gift tax under Section 2523(e) of the Internal Revenue Code;

(2) An irrevocable inter vivos trust for the benefit of the settlor's spouse that qualifies for the marital deduction from the federal gift tax under Section 2523(f) of the Internal Revenue Code;

(3) An irrevocable inter vivos trust for the benefit of the settlor's spouse, or the settlor's spouse and other beneficiaries, where the settlor's spouse is the beneficiary who exercises the power of appointment to create the second trust; and

(4) An irrevocable inter vivos trust where any beneficiary exercises a general power of appointment to create the second trust.

8. This section shall not apply to a spendthrift trust described, defined, or established in section 456.014.

EXPLANATION--Matter enclosed in bold-faced brackets [thus] is not enacted and is intended to be omitted in the law.
Matter underscored is proposed language.

(3) To adopt standards under which all excursion gambling boat operations shall be held and standards for the facilities within which the gambling operations are to be held. Notwithstanding the provisions of chapter 311 to the contrary, the commission may authorize the operation of gambling games on an excursion gambling boat which is also licensed to sell or serve alcoholic beverages, wine, or beer. The commission shall regulate the wagering structure for gambling excursions, provided that the commission shall not establish any regulations or policies that limit the amount of wagers, losses, or buy-in amounts;

Forfeitures pursuant to this section shall be enforced as provided in sections 513.600 to 513.645;

(7) To require a licensee, an employee of a licensee or holder of an occupational license to remove a person violating a provision of sections 313.800 to 313.850 or the commission rules, orders, or final orders, or other person deemed to be undesirable from the excursion gambling boat or adjacent facilities;

(8) To require the removal from the premises of a licensee, an employee of a licensee, or a holder of an occupational license for a violation of sections 313.800 to 313.850 or a commission rule or engaging in a fraudulent practice;

(14) To require excursion gambling boat licensees to develop a system, approved by the commission, that allows patrons the option to prohibit the excursion gambling boat licensee from using identifying information for marketing purposes. The provisions of this subdivision shall apply only to patrons giving identifying information for the first time. Such system shall be submitted to the commission by October 1, 2000, and approved by the commission by January 1, 2001. The excursion gambling boat licensee shall use identifying information obtained from patrons who have elected to have marketing blocked under the provisions of this section only for the purposes of enforcing the requirements contained in sections 313.800 to 313.850. This section shall not prohibit the commission from accessing identifying information for the purposes of enforcing section 313.004 and sections 313.800 to 313.850;

(15) To determine which of the authorized gambling games will be permitted on any licensed excursion gambling boat;

(16) The commission shall base its decision to license excursion gambling boats on any of the following criteria: the docking location or the excursion cruise could cause danger to the boat's passengers, violate federal law or the law of another state, or cause disruption of interstate commerce or possible interference with railway or barge transportation. The commission shall consider economic feasibility or impact that would benefit land-based development and permanent job creation. The commission shall not discriminate among applicants for excursion gambling boats that are similarly situated with respect to the criteria set forth in this section;

(17) The commission shall render a finding or findings concerning the transition from a boat, barge, or floating facility to a nonfloating facility within thirty days after a hearing on any request from an applicant or existing licensee. Such hearing may be held prior to any final action on licensing to assist an applicant and any city or county in the finalizing of their economic development plan;

(18) To require any applicant for a license or renewal of a license to operate an excursion gambling boat to provide an affirmative action plan which has as its goal the use of best efforts to achieve maximum employment of African-Americans and other minorities and maximum participation in the procurement of contractual purchases of goods and services. This provision shall be administered in accordance with all federal and state employment laws, including Title VII of the Civil Rights Act of 1964, as amended by the Civil Rights Act of 1991. At license renewal, the licensee will report on the effectiveness of the plan. The commission shall include the licensee's reported information in its annual report to the joint committee on gaming and wagering;

(19) To take any other action as may be reasonable or appropriate to enforce sections 313.800 to 313.850 and the commission rules.

The Missouri veterans commission shall contract with other public agencies for the delivery of services beyond its expertise.

(c) All monies from the taxes authorized under this subsection shall provide additional dedicated funding for the purposes enumerated above and shall not replace existing dedicated funding.

(3) For all retail sales of marijuana for medical use, a record shall be kept by the seller which identifies, by secure and encrypted patient number issued by the seller to the qualifying patient involved in the sale, all amounts and types of marijuana involved in the sale and the total amount of money involved in the sale, including itemizations, taxes collected and grand total sale amounts. All such records shall be kept on the premises in a readily available format and be made available for review by the department and the department of revenue upon request. Such records shall be retained for five years from the date of the sale.

(4) The tax levied pursuant to this subsection is separate from, and in addition to, any general state and local sales and use taxes that apply to retail sales, which shall continue to be collected and distributed as provided by general law.

(5) Except as authorized in this subsection, no additional taxes shall be imposed on the sale of marijuana for medical use.

Section 280E of the Internal Revenue Code as in effect on January 1, 2021, or successor provisions, but is disallowed because cannabis is a controlled substance under federal law, shall be subtracted from the taxpayer's federal adjusted gross income, in determining the taxpayer's Missouri adjusted gross income.

5. Additional Patient, Physician, Nurse Practitioner, Caregiver and Provider Protections.

(1) Except as provided in this section, the possession of marijuana in quantities less than the limits of this section, or established by the department, and transportation of marijuana [from a medical marijuana dispensary facility to the qualifying patient's residence] by the qualifying patient or primary caregiver shall not subject the possessor to arrest, criminal or civil liability, or sanctions under Missouri law, provided that the possessor produces on demand to the appropriate authority a valid qualifying patient identification card; a valid qualifying patient cultivation identification card; a valid physician or nurse practitioner certification while making application for an identification card; or a valid primary caregiver identification card. Production of the respective substantially equivalent identification card or authorization issued by another state or political subdivision of another state shall also meet the requirements of this subdivision and shall allow for the purchase of medical marijuana for use by a non-resident patient from a medical marijuana dispensary facility as permitted by this section and in compliance with department regulations.

(2) No patient shall be denied access to or priority for an organ transplant or other medical care because they hold a qualifying patient identification card or use marijuana for medical use.

(3) A physician or nurse practitioner shall not be subject to criminal or civil liability or sanctions under Missouri law or discipline by the Missouri state board of registration for the healing arts, the Missouri state board of nursing, or [its] their respective successor [agency] agencies, for owning, operating, investing in, being employed by, or contracting with any entity licensed or certified pursuant to this section or issuing a physician or nurse practitioner certification

(4) A health care provider shall not be subject to civil or criminal prosecution under Missouri law, denial of any right or privilege, civil or administrative penalty or sanction, or disciplinary action by any accreditation or licensing board or commission for owning, operating, investing in, being employed by, or contracting with any entity licensed or certified pursuant to this section or providing health care services that involve the medical use of marijuana consistent with this section and legal standards of professional conduct.

(5) A [medical] marijuana testing facility shall not be subject to civil or criminal prosecution under Missouri law, denial of any right or privilege, civil or administrative penalty or sanction, or disciplinary action by any accreditation or licensing board or commission for providing laboratory testing services that relate to the medical use of marijuana consistent with this section and otherwise meeting legal standards of professional conduct.

(6) A health care provider shall not be subject to mandatory reporting requirements for the medical use of marijuana by nonemancipated qualifying patients under eighteen years of age in a manner consistent with this section and with consent of a parent or guardian.

(7) A primary caregiver shall not be subject to criminal or civil liability or sanctions under Missouri law for purchasing, transporting, or administering marijuana for medical use to a qualifying patient or participating in the patient cultivation of up to six flowering marijuana plants, six nonflowering marijuana plants (over fourteen inches tall), and six clones (plants under fourteen inches tall) per patient and no more than twenty-four flowering plants for more than one qualifying patient in a manner consistent with this section and generally established legal standards of personal or professional conduct.

(8) [An attorney shall not be subject to disciplinary action by the state bar association or other professional licensing body for owning, operating, investing in, being employed by, contracting with, or providing legal assistance to prospective or licensed medical marijuana testing facilities, medical marijuana cultivation facilities, medical marijuana dispensary facilities, medical marijuana-infused products manufacturing facilities, qualifying patients, primary caregivers, physicians, health care providers or others related to activity that is no longer subject to criminal penalties under state law pursuant to this section.] Notwithstanding any provision of Article V to the contrary, an attorney shall not be subject to disciplinary action by the Supreme Court of Missouri, the office of chief disciplinary counsel, the state bar association, any state agency, or any professional licensing body for any of the following:

(9) Actions and conduct by qualifying patients, primary caregivers, [medical] marijuana testing facilities, medical marijuana cultivation facilities, medical marijuana-infused products manufacturing facilities, or medical marijuana dispensary facilities licensed or registered with the department, or their employees or agents, as permitted by this section and in compliance with department regulations and other standards of legal conduct, shall not be subject to criminal or civil liability or sanctions under Missouri law, except as provided for by this section.

(10) Nothing in this section shall provide immunity for negligence, either common law or statutorily created, nor criminal immunities for operating a vehicle, aircraft, dangerous device, or navigating a boat under the influence of marijuana.

(11) It is the public policy of the state of Missouri that contracts related to marijuana for medical use that are entered into by qualifying patients, primary caregivers, [medical] marijuana testing facilities, medical marijuana cultivation facilities, medical marijuana-infused products manufacturing facilities, or medical marijuana dispensary facilities and those who allow property to be used by those entities, should be enforceable. It is the public policy of the state of Missouri that no contract entered into by qualifying patients, primary caregivers, [medical] marijuana testing facilities, medical marijuana cultivation facilities, medical marijuana-infused products manufacturing facilities, or medical marijuana dispensary facilities, or by a person who allows property to be used for activities that are exempt from state criminal penalties by this section, shall be unenforceable on the basis that activities related to medical marijuana may be prohibited by federal law.

(12) In the process of requesting a search or arrest warrant relating to the production, possession, transportation or storage of marijuana, a state or local law enforcement official shall verify with the department whether the targeted person is a qualifying patient or primary caregiver holding an identification card allowing for cultivation of marijuana plants under subdivision (12) of subsection 3 of this section, and shall inform the issuing authority accordingly when making the warrant request. Evidence of marijuana alone, without specific evidence indicating that the marijuana is outside of what is lawful for medical or adult use, cannot be the basis for a search of a patient or non-patient, including their home, vehicle or other property. Lawful marijuana related activities cannot be the basis for a violation of parole, probation, or any type of supervised release. State and local law enforcement shall only have access to such department information as is necessary to confirm whether the targeted person holds registration card.

(13) Registered qualifying patients on bond for pre-trial release, on probation, or other form of supervised release shall not be prohibited from legally using a lawful marijuana product as a term or condition of release, probation, or parole. An alternative sentencing drug court program may not prohibit individuals under its jurisdiction from using a lawful marijuana product as long as the individual is a registered qualifying patient.

(14) A family court participant or party who requires treatment for a qualified medical condition in accordance with this section shall not be required to refrain from using medical marijuana as a term or condition of successful completion of the family court program. The status and conduct of a qualified patient who acts in accordance with this section shall not, by itself, be used to restrict or abridge custodial or parental rights to minor children in any action or proceeding under the jurisdiction of a family court under chapter 487, RSMo, including domestic matters under chapter 452, RSMo, or a juvenile court under chapter 211, RSMo, or successor provisions.

(15) A person shall not be denied adoption, custody, or visitation rights relative to a minor solely for conduct that is permitted by this section.

(16) No person shall be denied their rights under Article 1, Section 23 of the Missouri Constitution, or successor provisions, solely for conduct that is permitted by this section.

6. Legislation.

Nothing in this section shall limit the general assembly from enacting laws consistent with this section, or otherwise effectuating the patient rights of this section. The legislature shall not enact laws that hinder the right of qualifying patients to access marijuana for medical use as granted by this section.

7. Additional Provisions.

(1) Nothing in this section permits a person to:

(a) Consume marijuana for medical use in a jail or correctional facility;
(b) Undertake any task under the influence of marijuana when doing so would constitute negligence or professional malpractice; or

(c) Operate, navigate, or be in actual physical control of any dangerous device or motor vehicle, aircraft or motorboat while under the influence of marijuana. Notwithstanding the foregoing, an arrest or a conviction of a person who has a valid qualifying patient identification card for any applicable offenses shall require evidence that the person was in fact under the influence of marijuana at the time the person was in actual physical control of the dangerous device or motor vehicle, aircraft or motorboat and not solely on the presence of tetrahydrocannabinol (THC) or THC metabolites, or a combination thereof, in the person's system; or

(d) Bring a claim against any employer, former employer, or prospective employer for wrongful discharge, discrimination, or any similar cause of action or remedy, based on the employer, former employer, or prospective employer prohibiting the employee, former employee, or prospective employee from being under the influence of marijuana while at work or disciplining the employee or former employee, up to and including termination from employment, for working or attempting to work while under the influence of marijuana.

(2) No medical marijuana cultivation facility, [medical] marijuana testing facility, medical marijuana dispensary facility, or medical marijuana-infused products manufacturing facility, or entity with a transportation certification shall be owned, in whole or in part, or have as an officer, director, board member, manager, or employee, any individual with a disqualifying felony offense. A "disqualifying felony offense" is a violation of, and conviction or guilty plea to, state or federal law that is, or would have been, a felony under Missouri law, regardless of the sentence imposed, unless the department determines that:

(a) The person's conviction was for the medical use of marijuana or assisting in the medical use of marijuana; or

(b) The person's conviction was for a nonviolent crime for which he or she was not incarcerated and that is more than five years old; or

(c) More than five years have passed since the person was released from parole or probation, and he or she has not been convicted of any subsequent criminal offenses.

The department may consult with and rely on the records, advice and recommendations of the attorney general and the department of public safety, or their successor entities, in applying this subdivision.

(3) [All medical marijuana cultivation facility, medical marijuana dispensary facility, and medical marijuana-infused products manufacturing facility licenses, entities with medical marijuana testing facility certifications, and entities with transportation certifications shall be held by entities that are majority owned by natural persons who have been citizens of the state of Missouri for at least one year prior to the application for such license or certification. Notwithstanding the foregoing, entities outside the state of Missouri may own a minority stake in such entities.

(4)] No medical marijuana cultivation facility, medical marijuana dispensary facility, or medical marijuana-infused products manufacturing facility shall manufacture, package or label marijuana or marijuana-infused products in a false or misleading manner. No person shall sell any product in a manner designed to cause confusion between a marijuana or marijuana-infused product and any product not containing marijuana. A violation of this subdivision shall be punishable by an appropriate and proportional department sanction, up to and including an administrative penalty of five thousand dollars and loss of license.

[(5)] (4) All edible marijuana-infused products shall be sold in individual, child-resistant containers that are labeled with dosage amounts, instructions for use, and estimated length of effectiveness. All marijuana and marijuana-infused products shall be sold in containers clearly and conspicuously labeled as mandated by the department[, in a font size at least as large as the largest other font size used on the package,] as containing "Marijuana", or a "Marijuana-Infused Product". Violation of this prohibition shall subject the violator to department sanctions, including an administrative penalty of five thousand dollars.

[(6)] (5) No individual shall serve as the primary caregiver for more than [three] six qualifying patients. No primary caregiver cultivating marijuana for more than one qualifying patient may exceed a total of twenty-four flowering plants.

[(7) No qualifying patient shall consume marijuana for medical use in a public place, unless provided by law. Violation of this prohibition shall subject the violator to sanctions as provided by general law.] (6) A person who smokes medical marijuana in a public place, other than in an area licensed for such activity by the department or by local authorities having jurisdiction over the licensing or permitting of said activity, is subject to a civil penalty not exceeding one hundred dollars.

[(8)] (7) No person shall extract resins from marijuana using dangerous materials or combustible gases without a medical marijuana-infused products manufacturing facility license. Violation of this prohibition shall subject the violator to department sanctions, including an administrative penalty of one thousand dollars for a patient or primary caregiver and ten thousand dollars for a facility licensee and, if applicable, loss of their identification card, certificate, or license for up to one year.

[(9)] (8) All qualifying patient cultivation shall take place in an enclosed, locked facility that is equipped with security devices that permit access only by the qualifying patient or by such patient's primary caregiver. Two qualifying patients, who both hold valid qualifying patient cultivation identification cards, may share one enclosed, locked facility. [No more than twelve qualifying patient or primary caregiver cultivated flowering marijuana plants may be cultivated in a single, enclosed locked facility, except when a primary caregiver also holds a qualifying patient cultivation identification card, in which case no more than eighteen flowering marijuana plants may be cultivated in a single, enclosed, locked facility.] Primary caregivers cultivating marijuana for more than one qualifying patient may cultivate each respective qualifying patient's flowering plants in a single, enclosed locked facility subject to the limits of subsection 3, paragraph 12.

[(10)] (9) No medical marijuana cultivation facility, medical marijuana dispensary facility, medical marijuana-infused products manufacturing facility, [medical] marijuana testing facility, or entity with a transportation certification shall assign, sell, give, lease, sublicense, or otherwise transfer its license or certificate to any other entity without the express consent of the department, not to be unreasonably withheld.

[(11)] (10) (a) Unless allowed by the local government, no new medical marijuana cultivation facility, [medical] marijuana testing facility, medical marijuana dispensary facility, or medical marijuana-infused products manufacturing facility shall be initially sited within one thousand feet

In the case of a freestanding facility, the distance between the facility and the school, daycare, or church shall be measured from the external wall of the facility structure closest in proximity to the school, daycare, or church to the closest point of the property line of the school, daycare, or church. If the school, daycare, or church is part of a larger structure, such as an office building or strip mall, the distance shall be measured to the entrance or exit of the school, daycare, or church closest in proximity to the facility. In the case of a facility that is part of a larger structure, such as an office building or strip mall, the distance between the facility and the school, daycare, or church shall be measured from the property line of the school, daycare, or church to the facility's entrance or exit closest in proximity to the school, daycare, or church. If the school, daycare, or church is part of a larger structure, such as an office building or strip mall, the distance shall be measured to the entrance or exit of the school, daycare, or church closest in proximity to the facility. Measurements shall be made along the shortest path between the demarcation points that can be lawfully traveled by foot. No local government shall prohibit medical marijuana cultivation facilities, [medical] marijuana testing facilities, medical marijuana-infused products manufacturing facilities, or medical marijuana dispensary facilities, or entities with a transportation certification either expressly or through the enactment of ordinances or regulations that make their operation unduly burdensome in the jurisdiction. However, local governments may enact ordinances or regulations not in conflict with this section, or with regulations enacted pursuant to this section, governing the time, place, and manner of operation of such facilities in the locality. A local government may establish civil penalties for violation of an ordinance or regulations governing the time, place, and manner of operation of a medical marijuana cultivation facility, [medical] marijuana testing facility, medical marijuana-infused products manufacturing facility, medical marijuana dispensary facility, or entity holding a transportation certification that may operate in such locality.

(b) The only local government ordinances or regulations that are binding on a medical facility are those of the local government where the medical facility is physically located.

~~[(12)]~~ (11) Unless superseded by federal law or an amendment to this Constitution, a physician or nurse practitioner shall not certify a qualifying condition for a patient by any means other than providing a physician or nurse practitioner certification for the patient, whether handwritten, electronic, or in another commonly used format. [A qualifying patient must obtain a new physician certification at least annually.]

~~[(13)]~~ (12) A physician or nurse practitioner shall not issue a certification for the medical use of marijuana for a nonemancipated qualifying patient under the age of eighteen without the written consent of the qualifying patient's parent or legal guardian. The department shall not issue a qualifying patient identification card on behalf of a nonemancipated qualifying patient under the age of eighteen without the written consent of the qualifying patient's parent or legal guardian. Such card shall be issued to one of the parents or guardians and not directly to the patient. Only a parent or guardian may serve as a primary caregiver for a nonemancipated qualifying patient under the age of eighteen. Only the qualifying patient's parent or guardian shall purchase or possess medical marijuana for a nonemancipated qualifying patient under the age of eighteen. A parent or guardian shall supervise the administration of medical marijuana to a nonemancipated qualifying patient under the age of eighteen.

~~[(14)]~~ (13) Nothing in this section shall be construed as mandating health insurance coverage of medical marijuana for qualifying patient use.

~~[(15)]~~ (14) Real and personal property used in the cultivation, manufacture, transport, testing, distribution, sale, and administration of marijuana for medical use or for activities otherwise in compliance with this section shall not be subject to asset forfeiture solely because of that use.

(15) Unless a failure to do so would cause an employer to lose a monetary or licensing-related benefit under federal law, an employer may not discriminate against a person in hiring, termination or any term or condition of employment or otherwise penalize a person, if the discrimination is based upon either of the following:

(a) The person's status as a qualifying patient or primary caregiver who has a valid identification card, including the person's legal use of a lawful marijuana product off the employer's premises during nonworking hours, unless the person was under the influence of medical marijuana on the premises of the place of employment or during the hours of employment; or

(b) A positive drug test for marijuana components or metabolites of a person who has a valid qualifying patient identification card, unless the person used, possessed, or was under the influence of medical marijuana on the premises of the place of employment or during the hours of employment.

Nothing in this subdivision shall apply to an employee in a position in which legal use of a lawful marijuana product affects in any manner a person's ability to perform job-related employment responsibilities or the safety of others, or conflicts with a bona fide occupational qualification that is reasonably related to the person's employment.

(16) The enactment of section 2 of this Article and concurrent amendments to section 1 of this Article shall have no effect upon any valid contract, claim, or cause of action instituted prior to the effective date of this section.

8. Federal Legalization.

If federal law, rules, or regulations are amended to allow the interstate commerce of marijuana or marijuana-infused products or the importation or exportation of marijuana or marijuana-infused products into or out of the state of Missouri, the provisions and intent of this section shall, to the extent possible, remain in full effect, unless explicitly preempted by such federal law, rule, or regulation. If federal law, rules, or regulations are amended as provided above, any marijuana or marijuana-infused products imported into this state shall be subject to the same testing standards and seed to sale tracking system required under this section for marijuana and marijuana-infused products produced within the state. Unless federal law, rules, or regulations explicitly require otherwise, no entity shall sell, transport, produce, distribute, deliver, or cultivate marijuana or marijuana-infused products without an applicable license or certificate as required under this section. In addition, any raw biomass of marijuana or marijuana flower imported from out-of-state shall be received only by a licensed cultivation facility, while all batch oil, infused marijuana products and any marijuana product in any other form shall be received only by a licensed manufacturing facility.

[8.] 9. Severability.

The provisions of this section are severable, and if any clause, sentence, paragraph or section of this measure, or an application thereof, is adjudged invalid by any court of competent jurisdiction, the other provisions shall continue to be in effect to the fullest extent possible.

[9. Effective Date.

The provisions of this section shall become effective on December 6, 2018.]

(h) Smoking marijuana in a location where smoking tobacco is prohibited;

(i) Consumption of marijuana in a public place, other than in an area licensed by the authorities having jurisdiction over the licensing and/or permitting of said activity, as set forth in subsection 5 of this section;

EXPLANATION--Matter enclosed in bold-faced brackets [thus] is not enacted and is intended to be omitted in the law.
Matter in bold-face type is proposed language.

(j) Conduct that endangers others;

(k) Undertaking any task while under the influence of marijuana, if doing so would constitute negligence, recklessness, or professional malpractice; or

(l) Performing solvent-based extractions on marijuana using solvents other than water, glycerin, propylene glycol, vegetable oil, or food-grade ethanol, unless licensed for this activity by the department.

(2) This section does not limit any privileges, rights, immunities, or defenses of a person or entity as provided in section 1 of this Article, or any other law of this state allowing for or regulating marijuana for medical use.

(3) This section does not require an employer to permit or accommodate conduct otherwise allowed by this section in any workplace or on the employer's property. This section does not prohibit an employer from disciplining an employee for working while under the influence of marijuana. This section does not prevent an employer from refusing to hire, discharging, disciplining, or otherwise taking an adverse employment action against a person with respect to hire, tenure, terms, conditions, or privileges of employment because that person was working while under the influence of marijuana.

(4) This section allows an entity to prohibit or otherwise limit the consumption, cultivation, distribution, processing, sale, or display of marijuana, marijuana-infused products, and marijuana accessories on private property the entity owns, leases, occupies, or manages, except that a lease agreement executed after the effective date of this section may not prohibit a tenant from lawfully possessing and consuming marijuana by means other than smoking.

(5) The enactment of this section and all concurrent amendments to section 1 of this Article shall have no effect upon any valid contract, claim, or cause of action instituted prior to the effective date of this section.

4. Regulation of Marijuana.

(1) In carrying out the implementation of this section and as conditioned herein, the department shall have the authority to:

(a) Grant or refuse state licenses for the cultivation, manufacture, dispensing, and sale of marijuana; suspend, restrict, or revoke such licenses upon a violation of this section or a rule promulgated pursuant to this section; and impose any reasonable administrative penalty authorized by this section or any general law enacted or rule promulgated pursuant to this section, so long as any procedure related to a suspension or revocation includes a reasonable cure period, not less than thirty days, prior to the suspension or revocation, except in instances where there is a credible and imminent threat to public health or public safety;

(b) Promulgate rules and emergency rules necessary for the proper regulation and control of the cultivation, manufacture, dispensing, and sale of marijuana and for the enforcement of this section so long as such rules are reasonable and not unduly burdensome;

(c) Develop such forms, certificates, licenses, identification cards, and applications as are necessary for, or reasonably related to, the administration of this section or any of the rules promulgated under this section;

(d) Require a seed-to-sale tracking system that tracks marijuana from either the seed or immature plant stage until the marijuana or marijuana-infused product is sold to a qualified patient, primary caregiver, or consumer to ensure that no marijuana grown by a medical marijuana cultivation facility, comprehensive marijuana cultivation facility, or microbusiness wholesale facility, or manufactured by a medical marijuana-infused products manufacturing facility, a comprehensive marijuana-infused products manufacturing facility, or a microbusiness wholesale facility is sold or otherwise transferred to a consumer, qualified patient, or primary caregiver except

by a medical marijuana dispensary facility, a comprehensive dispensary facility, or a microbusiness dispensary facility. The department shall certify all commercially available tracking systems that are compliant with its tracking standards and issue standards for the creation or use of other systems by licensees;

(e) Issue standards for the secure transportation of marijuana and marijuana-infused products. The department shall certify entities that demonstrate compliance with its transportation standards to transport marijuana and marijuana-infused products to or from a comprehensive facility, medical facility, microbusiness facility, another entity with a transportation certification, or any entity licensed pursuant to paragraph (g) of this subdivision. The department shall develop or adopt from any other governmental agency such safety and security standards as are reasonably necessary for the transportation and temporary storage of marijuana and marijuana-infused products. Any entity licensed or certified pursuant to this section shall be allowed to transport its own inventory and products in compliance with department transportation rules and store marijuana and marijuana-infused products for the purposes related to transportation in compliance with department regulations on secure storage of marijuana and marijuana-infused products;

(f) Promulgate rules and emergency rules specific to the licensing, regulation, and oversight of marijuana microbusiness facilities;

(g) Provide for the issuance of additional types or classes of licenses to operate marijuana-related businesses that:

- (i) allow for only transportation, delivery, or storage of marijuana; or
- (ii) are intended to facilitate scientific research or education.

(h) Prepare and transmit annually a publicly available report accounting to the governor, the general assembly, and the public for the efficient discharge of all responsibilities assigned to the department under this section. The report shall provide aggregate data for each type of license (medical, comprehensive, and microbusiness) and facility (dispensary, cultivation, manufacturers, wholesalers.) Only non-identifying information shall be provided regarding any marijuana facility owners;

(i) Establish a lottery selection process to select comprehensive facility licenses, certificate holders, marijuana microbusiness licensees, but not medical facility licensees that are converting to comprehensive licenses pursuant to this subsection. To become eligible for any license lottery selection process, an owner cannot have pleaded guilty or been found guilty of a disqualifying felony, as that term is defined in subsection 9 of this section.

(j) In developing a lottery selection process to award licenses and certificates, the department may consult or contract with other public agencies with relevant expertise.

(k) While not required as a prerequisite to participation in a comprehensive license lottery, every comprehensive license applicant shall submit to the department a voluntary plan to promote and encourage participation in the regulated marijuana industry by people from communities that have been disproportionately impacted by marijuana prohibition. The plan may include strategies to address geographical defined communities that have been disproportionately impacted by marijuana prohibition; provide for ownership opportunities for disproportionately impacted communities; and provide for employment, supplier, and vendor opportunities for individuals and businesses in communities that have been disproportionately impacted by marijuana prohibition. If licensed, any voluntary applicant plan shall be enforceable by the department.

(l) Notwithstanding other grants of authority herein, neither the department nor any governmental body may restrict the production or use of marijuana and marijuana-infused products based solely upon THC content.

(m) Set a limit on the amount of marijuana that may be purchased in a single transaction provided that limit is not less than three ounces of dried, unprocessed marijuana, or its equivalent.

(n) Regulate the advertising and promotion of marijuana sales, but any such regulation shall be no more stringent than comparable state regulations on the advertising and promotion of alcohol sales.

(2) The department shall issue, at a minimum, the same number of comprehensive marijuana cultivation facility licenses as were authorized or issued for medical marijuana cultivation facilities under section 1 of this Article as of December 7, 2022, the same number of comprehensive marijuana-infused products manufacturing facility licenses as were authorized or issued for medical marijuana-infused products manufacturing facilities under section 1 of this Article as of December 7, 2022, the same number of comprehensive marijuana dispensary facility licenses with the same congressional distribution requirements as were authorized or issued for medical marijuana dispensary facilities under section 1 of this Article as of December 7, 2022, in addition to the minimum number of marijuana microbusiness licenses as are required under this section. The department may lift or ease any limit on the number of licensees or certificate holders in order to meet the demand for marijuana in the state and to ensure a competitive market while also preventing an over-concentration of marijuana facilities within the boundaries of any particular local government.

(3) If comprehensive facility licenses become available because the number of total issued licenses in any respective category falls below the minimum required under this section or the department determines more comprehensive facility licenses are necessary to meet the requirements of subdivision (2) of this subsection, the department shall award by lottery at least fifty percent of any new licenses available to satisfy the minimum requirement to applicants who are owners of a marijuana microbusiness facility that has been in operation for at least one year and is in good standing with the department and is otherwise qualified for the license.

(4) The department may issue any rules or emergency rules necessary for the implementation and enforcement of this section and to ensure the right to, availability, and safe use of marijuana by consumers. In developing such rules or emergency rules, the department may consult or contract with other public agencies. In addition to any other rules or emergency rules necessary to carry out the mandates of this section, the department shall issue rules or emergency rules relating to the following subjects:

(a) Procedures for issuing a license and for renewing, suspending, and revoking a license, so long as any procedure related to a suspension or revocation includes a reasonable cure period, not less than thirty days, prior to the suspension or revocation, except in instances where there is a credible and imminent threat to public health or public safety;

(b) Requirements and standards for safe cultivation, processing, and distribution of marijuana and marijuana-infused products by marijuana facilities, including health standards to ensure the safe preparation of marijuana-infused products;

(c) Testing, packaging, and labeling standards, procedures, and requirements for marijuana and marijuana-infused products and a requirement that a representative sample of marijuana be tested by a marijuana testing facility to ensure public health;

(d) Labeling standards that protect public health by requiring the listing of pharmacologically active ingredients, including, but not limited to, tetrahydrocannabinol (THC), cannabidiol (CBD), and other cannabinoid content, the THC and other cannabinoid amount in milligrams per serving, the number of servings per package, and quantity limits per sale to comply with the allowable possession amount;

(e) Requirements that packaging and labels shall not be made to be attractive to children, required warning labels, and that marijuana and marijuana-infused products be sold in resealable, child-resistant packaging to protect public health;

(f) Security requirements, including lighting, physical security, and alarm requirements, and requirements for securely transporting marijuana between marijuana facilities;

(g) Record keeping requirements for marijuana facilities and monitoring requirements to track the transfer of marijuana by licensees;

(h) A plan to promote and encourage ownership and employment in the marijuana industry by people from political subdivisions and districts that are economically distressed and to positively impact those political subdivisions and districts;

(i) Administrative penalties as authorized by this section for failure to comply with any rule promulgated pursuant to this section or for any violation of rules and regulations adopted pursuant to this section by a licensee, including authorized administrative fines and suspension, revocation, or restriction of a license. The licensee may choose to challenge any penalties imposed by the department through the administrative hearing commission, or its successor entity. Pursuant to section 536.100, RSMo, or its successor provisions, any licensee who has exhausted all administrative remedies provided by law and who is aggrieved by a final decision in a contested case is entitled to judicial review;

(j) Reporting and transmittal of tax payments required under this section;

(k) Authorization for the department of revenue to have access to licensing information to ensure tax payment and the effective administration of this section; and

(l) Such other matters as are necessary for the fair, impartial, stringent, and comprehensive administration of this section.

(5) The department shall issue rules or emergency rules for a marijuana and marijuana-infused products independent testing and certification program for marijuana facility licensees and requiring licensees to test marijuana using one or more impartial, independent laboratory or laboratories to ensure, at a minimum, correct labeling, potency measurement, and that products sold for human consumption do not contain contaminants that are potentially injurious to public health.

(6) The department shall issue rules or emergency rules to provide for the certification of and standards for marijuana testing facilities, including the requirements for equipment and qualifications for personnel, but shall not require certificate holders to have any federal agency licensing or have any relationship with a federally licensed testing facility. No marijuana testing facility shall be owned by an entity or entities under substantially common control, ownership, or management as a marijuana cultivation facility, marijuana-infused products manufacturing facility, marijuana microbusiness facility, or marijuana dispensary facility.

(7) All public records produced or retained pursuant to this section are subject to the general provisions of the Missouri Sunshine Law, chapter 610, RSMo, or its successor provisions. Notwithstanding the foregoing, public records containing proprietary business information obtained from an applicant or licensee shall be closed. The applicant or licensee shall label business information it believes to be proprietary prior to submitting it to the department. Proprietary business information shall include sales information, financial records, tax returns, credit reports, license applications, cultivation information unrelated to product safety, testing results unrelated to product safety, site security information and plans, and individualized consumer information. The presence of proprietary business information shall not justify the closure of public records:

(a) Identifying the applicant or licensee;

EXPLANATION--Matter enclosed in bold-faced brackets [thus] is not enacted and is intended to be omitted in the law.
Matter in bold-face type is proposed language.

(b) Relating to any citation, notice of violation, tax delinquency, or other enforcement action;

(c) Relating to any public official's support or opposition relative to any applicant, licensee, or their proposed or actual operations;

(d) Where disclosure is reasonably necessary for the protection of public health or safety; or

(e) That are otherwise subject to public inspection under applicable law.

(8) Within one hundred and eighty days of the effective date of this section, the department shall make available to the public license application forms and application instructions for marijuana microbusiness facilities. Within two hundred and seventy days of the effective date of this section, the department shall start accepting such applications from applicants.

(9) An entity may apply to the department for and obtain one or more licenses to grow marijuana as a comprehensive marijuana cultivation facility. Each facility in operation shall require a separate license, but multiple licenses may be utilized in a single facility. Each indoor facility utilizing artificial lighting may be limited by the department to thirty thousand square feet of flowering plant canopy space. Each outdoor facility utilizing natural lighting may be limited by the department to two thousand eight hundred flowering plants. Each greenhouse facility using a combination of natural and artificial lighting may be limited by the department, at the election of the licensee, to two thousand eight hundred flowering plants or thirty thousand square feet of flowering plant canopy. The license shall be valid for three years from its date of issuance and shall be renewable, except for good cause. The department shall charge each applicant a non-refundable fee of twelve thousand dollars per license application or renewal for all applicants filing an application within three years of the effective date of this section and shall charge each applicant a non-refundable fee of five thousand dollars per license application or renewal thereafter. Once granted, the department shall charge each licensee an annual fee of twenty-five thousand dollars per facility license. Application and license fees shall be increased or decreased each year by the percentage of increase or decrease from the end of the previous calendar year of the Consumer Price Index, or successor index as published by the U.S. Department of Labor, or its successor agency. An entity may not be an owner of more than ten percent of the total marijuana cultivation facility licenses outstanding under both sections 1 and 2 of this Article at any given time, rounded down to the nearest whole number.

(10) An entity may apply to the department for and obtain one or more licenses to operate a comprehensive marijuana dispensary facility. Each facility in operation shall require a separate license. A license shall be valid for three years from its date of issuance and shall be renewable, except for good cause. The department shall charge each applicant a non-refundable fee of seven thousand dollars per license application or renewal for each applicant filing an application within three years of the effective date of this section and shall charge each applicant a non-refundable fee of three thousand dollars per license application or renewal thereafter. Once granted, the department shall charge each licensee an annual fee of ten thousand dollars per facility license. Application and license fees shall be increased or decreased each year by the percentage of increase or decrease from the end of the previous calendar year of the Consumer Price Index, or successor index as published by the U.S. Department of Labor, or its successor agency. An entity may not be an owner of more than ten percent of the total marijuana dispensary facility licenses outstanding under both sections 1 and 2 of this Article at any given time, rounded down to the nearest whole number.

(11) An entity may apply to the department for and obtain one or more licenses to operate a comprehensive marijuana-infused products manufacturing facility. Each facility in operation shall require a separate license. A license shall be valid for three years from its date of issuance and shall be renewable, except for good cause. The department shall charge each applicant a non-

refundable fee of seven thousand dollars per license application or renewal for each applicant filing an application within three years of the effective date of this section and shall charge each applicant a non-refundable fee of three thousand dollars per license application or renewal thereafter. Once granted, the department shall charge each licensee an annual fee of ten thousand dollars per facility license. Application and license fees shall be increased or decreased each year by the percentage of increase or decrease from the end of the previous calendar year of the Consumer Price Index, or successor index as published by the U.S. Department of Labor, or its successor agency. An entity may not be an owner of more than ten percent of the total marijuana-infused products manufacturing facility licenses outstanding under both sections 1 and 2 of this Article at any given time, rounded down to the nearest whole number.

(12) An entity may apply to the department for and obtain only one license to operate a marijuana microbusiness facility, which may be either a microbusiness dispensary facility or a microbusiness wholesale facility. A marijuana microbusiness facility licensee may engage in all of the activities allowed under the license or it may apply for and engage in a subset of the activities allowed if the applicant or license holder so chooses. A microbusiness wholesale facility may cultivate, process, manufacture, transport, and sell marijuana and marijuana-infused products to any other marijuana microbusiness facility. A microbusiness dispensary facility licensee may acquire from any other microbusiness facility, process, package, deliver, and sell marijuana and marijuana-infused products to any other marijuana microbusiness facility, or directly to qualified patients, their primary caregiver, or consumers. A marijuana microbusiness license shall be valid for three years from its date of issuance and shall be renewable, except for good cause. The department shall charge each applicant a fee of one thousand five hundred dollars per license application and for each subsequent license renewal application thereafter. Any applicant that meets the criteria to apply for a marijuana microbusiness facility license but is not chosen by the lottery system may have their application fee refunded. Once granted, the department shall charge each licensee an annual fee of one thousand five hundred dollars per facility license, but there shall be no annual fee assessed for the first year of licensure. Application and license fees shall be increased or decreased each year by the percentage of increase or decrease from the end of the previous calendar year of the Consumer Price Index, or successor index as published by the U.S. Department of Labor, or its successor agency. An entity may not be an owner of more than one marijuana microbusiness facility license. An owner of a marijuana microbusiness facility may not also be an owner of another licensed marijuana facility or medical facility regulated under this Article. However, the owner of a marijuana microbusiness facility may apply for a license or licenses for other marijuana or medical marijuana facilities under this Article. If granted one or more of these licenses, the marijuana microbusiness facility owner shall transition to other licensed operations on a reasonably practical timetable established by the department, and surrender its marijuana microbusiness facility license to the department for issuance to an applicant for a marijuana microbusiness facility. In addition to other requirements established by this section, an applicant for a marijuana microbusiness license shall be majority owned by individuals who each meet at least one of the following qualifications:

(a) Have a net worth of less than \$250,000 and have had an income below two hundred and fifty percent of the federal poverty level, or successor level, as set forth in the applicable calendar year's federal poverty income guidelines published by the U.S. Department of Health and Human Services or its successor agency, for at least three of the ten calendar years prior to applying for a marijuana microbusiness facility license; or

(b) Have a valid service-connected disability card issued by the United States Department of Veterans Affairs, or successor agency; or

EXPLANATION--Matter enclosed in bold-faced brackets [thus] is not enacted and is intended to be omitted in the law.
Matter in bold-face type is proposed language.

(c) Be a person who has been, or a person whose parent, guardian or spouse has been arrested for, prosecuted for, or convicted of a non-violent marijuana offense, except for a conviction involving provision of marijuana to a minor, or a conviction of driving under the influence of marijuana. The arrest, charge, or conviction must have occurred at least one year prior to the effective date of this section; or

(d) Reside in a ZIP code or census tract area where:

(i) Thirty percent or more of the population lives below the federal poverty level; or

(ii) The rate of unemployment is fifty percent higher than the state average rate of unemployment; or

(iii) The historic rate of incarceration for marijuana-related offenses is fifty percent higher than the rate for the entire state; or

(e) Graduated from a school district that was unaccredited, or had a similar successor designation, at the time of graduation, or has lived in a zip code containing an unaccredited school district, or similar successor designation, for three of the past five years.

(13) The department may restrict the aggregate number of licenses granted for marijuana microbusiness facilities, provided, however, that the number may not be limited to fewer than the following number of licenses in each United States congressional district in the state of Missouri pursuant to the map of each of the eight congressional districts as drawn and effective on December 6, 2018:

(a) Six, once the department begins issuing licenses for marijuana microbusiness facilities under this subsection, at least two of which shall be a microbusiness dispensary facility, and at least four of which will be a microbusiness wholesale facility. The department shall issue the first group of microbusiness licenses no later than three hundred days after the effective date of this section;

(b) An additional six following the first two hundred and seventy days after the department begins issuing licenses for marijuana microbusiness facilities under this subsection, at least two of which shall be a microbusiness dispensary facility, and at least four of which will be a microbusiness wholesale facility, but only after the chief equity officer, or his or her designee, conducts a review and certifies that previous microbusiness licenses were awarded to and are being operated by eligible applicants in good standing; and

(c) An additional six after the first five hundred and forty-eight days after the department begins issuing licenses for marijuana microbusiness facilities under this subsection, at least two of which shall be a microbusiness dispensary facility, and at least four of which will be a microbusiness wholesale facility, but only after the chief equity officer, or his or her designee, conducts a review and certifies that previous microbusiness licenses were awarded to and are being operated in good standing by eligible applicants.

Future changes to the boundaries or the number of congressional districts shall have no impact on microbusiness license numbers or distribution. The eligibility review set forth in this subdivision shall be conducted by the chief equity officer within sixty days of issuance of the licenses. The chief equity officer shall publish in a manner available to the public the results of the review that contains only aggregate information on licensee eligibility criteria.

(14) Within 60 days after the effective date of this section, the department shall appoint a chief equity officer. The chief equity officer shall assist with the development and implementation of programs to inform the public of the opportunities available to those people who meet the criteria set forth in paragraph (12) of this subsection. The chief equity officer shall establish public education programming and targeted technical assistance programming dedicated to providing communities that have been impacted by marijuana prohibition with information detailing the

licensing process and informing individuals of the support and resources that the office can provide to individuals and entities interested in participating in activity licensed under this Article. The chief equity officer shall provide a report to the department, no later than January 1, 2024, and annually thereafter, of their and the department's activities in ensuring compliance with the applicant criteria set forth in paragraph (12) of this subsection, and the department shall provide such report to the legislature. The chief equity officer may only be removed for cause and the department shall not interfere with the officer's lawful official activities under this section.

(15) Any medical marijuana cultivation facility, medical marijuana dispensary facility, and medical marijuana-infused products manufacturing facility, holding an active facility license under section 1 of this Article shall have the right to convert their license to a comprehensive marijuana license, and any entity certified by the department to conduct medical marijuana testing, transportation or seed-to-sale tracking, as of the effective date of this section shall be deemed certified to conduct those activities with respect to all marijuana;

(16) Upon the effective date of this section, any existing medical facility licensee may request its medical facility license convert to that of a comprehensive facility license. Conversion requests not processed within sixty days of department receipt shall be deemed approved.

(17) With the exception of microbusiness licenses, and consistent with any limitations set forth in this section, for the first five hundred and forty-eight days after the department begins issuing licenses for marijuana facilities under this section, the department may only issue a license:

(a) For a comprehensive marijuana cultivation facility to an entity holding a medical marijuana cultivation facility license issued pursuant to section 1 of this Article seeking to convert its licensure to that of a comprehensive marijuana cultivation facility at the same location;

(b) For a comprehensive marijuana dispensary facility to an entity holding a medical marijuana dispensary facility license issued pursuant to section 1 of this Article seeking to convert its licensure to that of a comprehensive marijuana dispensary facility at the same location; and

(c) For a comprehensive marijuana-infused products manufacturing facility to an entity holding a medical marijuana-infused products manufacturing facility license issued pursuant to section 1 of this Article seeking to convert its licensure to that of a comprehensive marijuana-infused products manufacturing facility at the same location.

(18) The department shall issue a license to each request for a conversion to a comprehensive marijuana facility license pursuant to subdivision (15) of this subsection if the applicant is in good standing with the department.

(19) Notwithstanding the provisions of section 1 of this Article, if an existing medical marijuana dispensary facility is located in a jurisdiction that prohibits non-medical retail marijuana facilities under this section, or is otherwise prevented from operating a comprehensive marijuana dispensary facility at the same location as the existing medical marijuana dispensary facility, the medical marijuana dispensary facility may apply to the department for a comprehensive marijuana dispensary license pursuant to subdivision (15) of this subsection in a new location within the same congressional district, and such application shall be granted so long as the new location meets all the requirements of this section and department regulations.

(20) In addition to the foregoing, if the department has reason to believe that the conversion of a medical facility into a comprehensive facility might limit or restrict access to an adequate supply of marijuana and marijuana-infused products at a reasonable cost to qualifying patients, as defined in section 1 of this Article, the department may request a plan from the medical facility licensee which explains how the applicant would serve both the medical and adult-use markets, while maintaining adequate supply at a reasonable cost to qualifying patients.

(21) Comprehensive marijuana facilities licensed to distribute marijuana, marijuana-infused products, and marijuana accessories directly to consumers pursuant to this section may also distribute marijuana, marijuana-infused products, and marijuana accessories to qualifying patients and primary caregivers consistent with section 1 of this Article and department regulation.

(22) The department may charge a fee not to exceed two thousand five hundred dollars for any certification issued pursuant to this section. This fee limitation shall be increased or decreased each year by the percentage of increase or decrease from the end of the previous calendar year of the Consumer Price Index, or successor index as published by the U.S. Department of Labor, or its successor agency.

(23) Within thirty days of December 8, 2022, the department shall make available to the public application forms and application instructions for personal cultivation registration cards. Within sixty days of December 8, 2022, the department shall begin accepting applications for such registration cards.

(24) Except for good cause, a person at least twenty-one years of age may obtain a registration card from the department to cultivate up to six flowering marijuana plants, six nonflowering marijuana plants (over fourteen inches tall), and six clones (plants under fourteen inches tall) for non-commercial use, provided:

(a) The plants and any marijuana produced by the plants in excess of three ounces are kept at one private residence, are in a locked space, and are not visible by normal, unaided vision from a public place; and

(b) Not more than twelve flowering marijuana plants are kept in or on the grounds of a private residence at one time.

The card shall be valid for twelve months from its date of issuance and shall be renewable. The department shall charge an annual fee for the card of one hundred dollars, with such rate to be increased or decreased each year by the percentage of increase or decrease from the end of the previous calendar year of the Consumer Price Index, or successor index as published by the U.S. Department of Labor, or its successor agency.

(25) All marijuana sold in Missouri pursuant to this section shall be cultivated in Missouri.

(26) All marijuana-infused products sold in Missouri pursuant to this section shall be manufactured in Missouri.

(27) The denial of a license or license renewal by the department shall be appealable. The applicant may choose to challenge any denial by the department through the administrative hearing commission, or successor entity. Pursuant to section 536.100, RSMo, or its successor provisions, any licensee who has exhausted all administrative remedies provided by law and who is aggrieved by a final decision in a contested case is entitled to judicial review.

(28) No elected official shall interfere directly or indirectly with the department's obligations and activities under this section.

(29) To minimize the potential for undue political influence in awarding licenses, the department shall review license applications using reasonable safeguards that ensure the identity of the applicant and its principal owners, officers, and managers are not identified to the application reviewer.

(30) To ensure the consistent protection of public health and public safety, the department shall have the sole authority within the state of Missouri to issue licenses for marijuana facilities and certifications pursuant to this section.

(31) The department shall not have the authority to promulgate, apply, or enforce any rule or regulation that is unduly burdensome or act to undermine the purposes of this section.

5. Local Control.

(1) (a) Except as provided in this subsection, a local government may prohibit the operation of all microbusiness dispensary facilities or comprehensive marijuana dispensary facilities regulated under this section from being located within its jurisdiction either through referral of a ballot question to the voters by the governing body or through citizen petition, provided that citizen petitions are otherwise generally authorized by the laws of the local government. Such a ballot question shall be voted on only during the regularly scheduled general election held on the first Tuesday after the first Monday in November of a presidential election year, starting in 2024, thereby minimizing additional local governmental cost or expense. A citizen petition to put before the voters a ballot question prohibiting microbusiness dispensary facilities or comprehensive marijuana dispensary facilities shall be signed by at least five percent of the qualified voters in the area proposed to be subject to the prohibition, determined on the basis of the number of votes cast for governor in such locale at the last gubernatorial election held prior to the filing of the petition. The local government shall count the petition signatures and give legal notice of the election as provided by applicable law. Denial of ballot access shall be subject to judicial review.

(b) Whether submitted by the governing body or by citizen's petition, the question shall be submitted in the following form: "Shall (insert name of local government) ban all non-medical microbusiness dispensary facilities and comprehensive marijuana dispensary facilities from being located within (insert name of local government and, where applicable, its "unincorporated areas") and forgo any additional related local tax revenue? () Yes () No." If at least sixty percent of the votes cast on the question by the qualified voters voting thereon are in favor of the question, then the ban shall go into effect as provided by law. If a question receives less than the required sixty percent, then the jurisdiction shall have no power to ban non-medical microbusiness dispensary facilities or comprehensive marijuana facilities regulated under this section, unless voters at a subsequent general election on the first Tuesday after the first Monday in November of a presidential election year approve a ban on non-medical retail marijuana facilities submitted to them by the governing body or by citizen petition.

(2) (a) A local government may repeal an existing ban by its own ordinance or by a vote of the people, either through referral of a ballot question to the voters by the governing body or through citizen petition, provided that citizen petitions are otherwise generally authorized by the laws of the local government. In the case of a referral of a ballot question by the governing body or citizen petition to repeal an existing ban, the question shall be voted on only during the regularly scheduled general election held on the first Tuesday after the first Monday in November of a presidential election year. A citizen petition to put before the voters a ballot question repealing an existing ban shall be signed by at least five percent of the qualified voters in the area subject to the ban, determined on the basis of the number of votes cast for governor in such locale at the last gubernatorial election held prior to the filing of the petition. The local government shall count the petition signatures and give legal notice of the election as provided by applicable law. Denial of ballot access shall be subject to judicial review.

(b) Whether submitted by the governing body or by citizen's petition, the question shall be submitted in the following form: "Shall (insert name of local government) allow non-medical microbusiness dispensary facilities and comprehensive marijuana dispensary facilities to be located within (insert name of local government and where applicable, its "unincorporated areas") as regulated by state law? () Yes () No." If a majority of the votes cast on the question by the qualified voters voting thereon are in favor of the question, then the ban shall be repealed.

(3) The only local government ordinances and regulations that are binding on a marijuana facility are those of the local government where the marijuana facility is located.

EXPLANATION--Matter enclosed in bold-faced brackets [thus] is not enacted and is intended to be omitted in the law.

Matter in bold-face type is proposed language.

(4) Unless allowed by the local government, no new marijuana facility shall be initially sited within one thousand feet of any then-existing elementary or secondary school, child day-care center, or church. In the case of a freestanding facility, the distance between the facility and the school, daycare, or church shall be measured from the external wall of the facility structure closest in proximity to the school, daycare, or church to the closest point of the property line of the school, daycare, or church. If the school, daycare, or church is part of a larger structure, such as an office building or strip mall, the distance shall be measured to the entrance or exit of the school, daycare, or church closest in proximity to the facility. In the case of a facility that is part of a larger structure, such as an office building or strip mall, the distance between the facility and the school, daycare, or church shall be measured from the property line of the school, daycare, or church to the facility's entrance or exit closest in proximity to the school, daycare, or church. If the school, daycare, or church is part of a larger structure, such as an office building or strip mall, the distance shall be measured to the entrance or exit of the school, daycare, or church closest in proximity to the facility. (5) Except as otherwise provided in this subsection, no local government shall prohibit marijuana facilities or entities with a transportation certification either expressly or through the enactment of ordinances or regulations that make their operation unduly burdensome in the jurisdiction. However, local governments may enact ordinances or regulations not in conflict with this section, or with regulations enacted pursuant to this section, governing the time, place, and manner of operation of such facilities in the locality. A local government may establish civil penalties for violation of an ordinance or regulations governing the time, place, and manner of operation of a marijuana facility or entity holding a transportation certification that may operate in such locality.

(6) Local governments may enact ordinances or regulations not in conflict with this section, or with regulations enacted pursuant to this section, governing:

(a) the time and place where marijuana may be smoked in public areas within the locality; and

(b) the consumption of marijuana-infused products within designated areas, including the preparation of culinary dishes or beverages by local restaurants for on-site consumption on the same day it is prepared.

6. Taxation and Reporting.

(1) A tax shall be levied upon the retail sale of non-medical marijuana sold to consumers at marijuana facilities licensed pursuant to this section within the state. The tax shall be at a rate of six percent of the retail price. The tax shall be collected by each licensed retail marijuana facility and paid to the department of revenue. After retaining no more than two percent of the total tax collected or its actual collection costs, whichever is less, amounts generated by the marijuana tangible personal property retail sales tax levied in this section shall be deposited by the department of revenue into the "Veterans, Health, and Community Reinvestment Fund" created under this subsection. Licensed entities making non-medical retail sales within the state shall be allowed approved credit for returns provided the tax was paid on the returned item and the purchaser was given the refund or credit. This tax shall not apply to medical marijuana dispensed to a registered qualifying patient or caregiver.

(2) There is hereby created in the state treasury the "Veterans, Health, and Community Reinvestment Fund" which shall consist of taxes and fees collected under this section. The state treasurer shall be custodian of the fund, and he or she shall invest monies in the fund in the same manner as other funds are invested. Any interest and moneys earned on such investments shall be credited to the fund. Notwithstanding any other provision of law, any monies remaining in the

fund at the end of a biennium shall not revert to the credit of the general revenue fund. The commissioner of administration is authorized to make cash operating transfers to the fund for purposes of meeting the cash requirements of the department in advance of it receiving application, licensing, and tax revenue, with any such transfers to be repaid as provided by law. The fund shall be a dedicated fund and shall be distributed as follows:

(a) First, as determined by appropriation, to the department an amount necessary for the department to carry out its responsibilities under this section, including repayment of any cash operating transfers, payments made through contract or agreement with other state and public agencies necessary to carry out this section, and a reserve fund to maintain a reasonable working cash balance for the purpose of carrying out this section;

(b) Second, as determined by appropriation, to governmental entities in amounts necessary for carrying out responsibilities in the expungement of criminal history records under this section;

(c) Next, the remaining fund balance shall be distributed in thirds as follows:

(i) One-third of the remainder of the fund balance shall be transferred to the Missouri veterans commission and allied state agencies, as determined by appropriation, exclusively for health care and other services for military veterans and their dependent families;

(ii) One-third of the remainder of the fund balance to the department to provide grants to agencies and not-for-profit organizations, whether government or community-based, to increase access to evidence-based low-barrier drug addiction treatment, prioritizing medically proven treatment and overdose prevention and reversal methods and public or private treatment options with an emphasis on reintegrating recipients into their local communities, to support overdose prevention education, and to support job placement, housing, and counseling for those with substance use disorders. Agencies and organizations serving populations with the highest rates of drug-related overdose shall be prioritized to receive the grants; and

(iii) One-third of the remainder of the fund balance to the Missouri public defender system. Any moneys credited to the Missouri public defender system shall be used only for legal assistance for low-income Missourians, shall not be diverted to any other purpose.

(d) All monies from the taxes and fees authorized hereunder shall provide new and additional funding for the purposes enumerated above and shall not replace existing funding.

(e) The unexpended balance existing in the fund shall be exempt from the provisions of section 33.080, RSMo, or its successor provisions, relating to the transfer of unexpended balances to the general revenue fund.

(3) For all retail sales of marijuana, a record shall be kept by the seller of all amounts and types of marijuana involved in the sale and the total amount of money involved in the sale, including itemizations, taxes collected, and grand total sale amounts. All such records shall be kept on the premises in a readily available format and be made available for review by the department and the department of revenue upon request. Such records shall be retained for five years from the date of the sale.

(4) The tax levied pursuant to this subsection is separate from and in addition to any general state and local sales and use taxes that apply to retail sales, which shall continue to be collected and distributed as provided by general law.

(5) Pursuant to Article III, section 49 of this Constitution, the governing body of any local government is authorized to impose, by ordinance or order, an additional sales tax in an amount not to exceed three percent on all tangible personal property retail sales of adult use marijuana sold in such political subdivision. The tax authorized by this paragraph shall be in addition to any and all other tangible personal property retail sales taxes allowed by law, except that no ordinance or order imposing a tangible personal property retail sales tax under the provisions of this paragraph

shall be effective unless the governing body of the political subdivision submits to the voters of the political subdivision, at a municipal, county or state general, primary or special election, a proposal to authorize the governing body of the political subdivision to impose a tax. Any additional local retail sales tax shall be collected pursuant to general laws for the collection of local sales taxes.

(6) Except as authorized in this Article, no additional taxes shall be imposed on the sale of marijuana.

(7) The fees and taxes provided for in this section shall be fully enforceable notwithstanding any other provision in this Constitution purportedly prohibiting or restricting the taxes and fees provided for herein.

(8) For taxpayers authorized to do business pursuant to this Article, the amount that would have been deducted in the computation of federal taxable income pursuant to 26 U.S.C. Section 280E of the Internal Revenue Code as in effect on January 1, 2021, or successor provisions, but is disallowed because cannabis is a controlled substance under federal law, shall be subtracted from the taxpayer's federal adjusted gross income, in determining the taxpayer's Missouri adjusted gross income.

7. Additional Protections.

(1) A marijuana testing facility shall not be subject to civil or criminal prosecution under Missouri law, denial of any right or privilege, civil or administrative penalty or sanction, or disciplinary action by any accreditation or licensing board or commission for providing laboratory testing services that relate to marijuana consistent with this section and otherwise meeting legal standards of professional conduct.

(2) Notwithstanding any provision of Article V to the contrary, an attorney shall not be subject to disciplinary action by the Supreme Court of Missouri, the office of chief disciplinary counsel, the state bar association, any state agency or any professional licensing body for any of the following:

(a) owning, operating, investing in, being employed by, or contracting with prospective or licensed marijuana testing facilities, marijuana cultivation facilities, marijuana dispensary facilities, marijuana-infused products manufacturing facilities, marijuana microbusiness facilities, or transportation certificate holders;

(b) counseling, advising, and/or assisting a client in conduct permitted by Missouri law that may violate or conflict with federal or other law, as long as the attorney advises the client about that federal or other law and its potential consequences;

(c) counseling, advising, and/or assisting a client in connection with applying for, owning, operating, or otherwise having any legal, equitable, or beneficial interest in marijuana testing facilities, marijuana cultivation facilities, marijuana dispensary facilities, marijuana-infused products manufacturing facilities, marijuana microbusiness facilities, or transportation certificates; or

(d) counseling, advising or assisting a qualifying patient, primary caregiver, physician, nurse practitioner, health care provider, consumer, or other client related to activity that is no longer subject to criminal penalties under Missouri law pursuant to this Article.

(3) Actions and conduct by marijuana facilities licensed or otherwise certified by the department, or their employees or agents, as permitted by this section and in compliance with department regulations and other standards of legal conduct, shall not be subject to criminal or civil liability or sanctions under Missouri law, except as provided for by this section.

(4) The department may not promulgate a rule that requires a consumer to provide a marijuana facility with identifying information other than identification to determine the consumer's age.

(5) It is the public policy of the state of Missouri that contracts related to marijuana that are entered into by marijuana facilities and those who allow property to be used by those entities should be enforceable. It is the public policy of the state of Missouri that no contract entered into by marijuana facilities, or by a person who allows property to be used for activities that are exempt from state criminal penalties by this section, shall be unenforceable on the basis that activities related to marijuana may be prohibited by federal law.

(6) Prior to requesting a search or arrest warrant relating to cultivation of marijuana plants, a state or local law enforcement official shall verify with the department whether the targeted person holds a registration card allowing for cultivation of flowering marijuana plants under this section, and shall inform the issuing authority when making the warrant request. Evidence of marijuana alone, without specific evidence indicating that the marijuana is outside of what is lawful for medical or adult use, cannot be the basis for a search of a patient or non-patient, including their home, vehicle or other property. Lawful marijuana related activities cannot be the basis for a violation of parole, probation, or any type of supervised release. State and local law enforcement shall have access to such department information as is necessary to confirm whether the targeted person holds a registration card. Each time a state or local law enforcement officer executes a search warrant authorizing entry upon premises for an alleged marijuana offense, the officer must first knock or announce their presence or purpose prior to entering the premises.

(7) (a) After executing a search warrant for an alleged marijuana offense, or conducting a warrantless search for an alleged marijuana offense, the officer shall report the following information to the agency that employs the officer:

(i) The reasons for the warrant or, in the case of a warrantless search, a detailed account of either the probable cause or exigent circumstances, if any, which lead to the warrantless search;

(ii) Whether any marijuana was discovered during the course of the search;

(iii) Whether any marijuana was seized during the search, and if so, the amount seized;

(iv) Whether any other contraband was discovered or seized in the course of the search, and if seized, a description of the contraband;

(v) A description of the tactics used by law enforcement to enter the property;

(vi) Whether an arrest was made as a result of the search; and

(vii) If an arrest was made, the crime suspected.

(b) Each law enforcement agency shall compile the data described in paragraph (a) of this subdivision for the calendar year into a report and shall submit the report to the attorney general no later than March first of the following calendar year. The attorney general shall determine the format that all law enforcement agencies shall use to submit the report.

(c) The attorney general shall submit a summary of the annual reports of law enforcement agencies to the governor, the general assembly, and each law enforcement agency no later than June first of each year. The summary shall include the total number of such warrants executed by each agency in the previous calendar year for alleged marijuana offenses, and a compilation of the information reported by law enforcement agencies pursuant to paragraph (b) of this subdivision.

8. Legislation.

Nothing in this section shall limit the general assembly from enacting laws consistent with the purposes and provisions of this section.

9. Additional Provisions.

(1) No owner of a marijuana facility or entity with a transportation certification shall be an individual with a disqualifying felony offense. A "disqualifying felony offense" is a violation of, and conviction or guilty plea to, state or federal law that is, or would have been, a felony under Missouri law, regardless of the sentence imposed, unless the department determines that:

(c) More than five years have passed since the person was released from parole or probation, and he or she has not been convicted of any subsequent felony criminal offenses.

The department may consult with and rely on the records, advice, and recommendations of the attorney general and the department of public safety, or their successor entities, in carrying out the provisions of this subdivision.

(2) Owners licensed pursuant to this section shall submit fingerprints to the Missouri state highway patrol for the purpose of conducting a state and federal fingerprint-based criminal record check in accordance with U.S. Public Law 92-544, or its successor provisions. The Missouri state highway patrol, if necessary, shall forward the fingerprints to the Federal Bureau of Investigation (FBI) for the purpose of conducting a fingerprint-based criminal background check. Fingerprints shall be submitted pursuant to section 43.543, RSMo, or its successor provisions, and fees shall be paid pursuant to section 43.530, RSMo, or its successor provisions. Unless otherwise required by law, no individual shall be required to submit fingerprints more than once.

(3) No marijuana facility shall manufacture, package, or label marijuana or marijuana-infused products in a false or misleading manner. No person shall sell any product in a manner designed to cause confusion between marijuana or a marijuana-infused product and any product not containing marijuana. A violation of this subdivision shall be punishable by an appropriate and proportional department sanction, up to and including an administrative penalty of five thousand dollars and loss of license.

(4) No marijuana facility may sell edible marijuana-infused candy in shapes or packages that are attractive to children or that are easily confused with commercially sold candy that does not contain marijuana. A violation of this subdivision shall be punishable by an appropriate and proportional department sanction, up to and including an administrative penalty of five thousand dollars and loss of license.

(5) All marijuana and marijuana-infused products shall be sold in individual, child-resistant containers that are labeled with serving amounts, instructions for use, and estimated length of effectiveness. Violation of this subdivision shall subject the violator to department sanctions, including an administrative penalty of five thousand dollars.

(6) A marijuana facility may not allow cultivation, manufacturing, sale, or display of marijuana, marijuana-infused products, or marijuana accessories to be visible from a public place outside of the marijuana facility without the use of binoculars, aircraft, or other optical aids.

(7) A marijuana facility may not cultivate, manufacture, test, sell, or store marijuana at any location other than a physical address approved by the department and within an enclosed area that is secured in a manner that prevents access by persons not permitted by the marijuana facility to access the area.

(8) A marijuana facility shall secure every entrance to the facility so that access to areas containing marijuana is restricted to employees and other persons permitted by the marijuana facility to access the area and to agents of the department or state and local law enforcement officers and emergency personnel and shall secure its inventory and equipment during and after operating hours to deter and prevent theft of marijuana, marijuana-infused products, and marijuana accessories.

(9) No marijuana facility may refuse representatives of the department the right to inspect the licensed premises or to audit the books and records of the marijuana facility. A facility that holds licenses issued under sections 1 and 2 of this Article shall comply with inspection regulations and standards issued pursuant to both sections.

(10) No marijuana facility, or entity with a certification, shall assign, sell, give, lease, sublicense, or otherwise transfer its license or certificate to any other entity without the express consent of the department, not to be unreasonably withheld.

(11) Real and personal property used in the cultivation, manufacture, transport, testing, distribution, sale, and administration of marijuana for activities otherwise in compliance with this section shall not be subject to asset forfeiture solely because of that use.

(12) No person shall extract resins from marijuana using dangerous materials or combustible gases without a medical marijuana-infused products manufacturing facility license, marijuana-infused products manufacturing facility license, or a marijuana microbusiness wholesale facility license. Violation of this prohibition shall subject the violator to department sanctions, including an administrative penalty of one thousand dollars for an individual and ten thousand dollars for a facility licensee and, if applicable, loss of certificate or license for up to one year.

10. Personal Use of Marijuana.

(1) Subject to the limitations in subsection 3 of this section, the following acts by a person at least twenty-one years of age are not unlawful and shall not be an offense under state law or the laws of any local government within the state or be a basis to impose a civil fine, penalty, or sanction, or be a basis to detain, search, or arrest, or otherwise deny any right or privilege, or to seize or forfeit assets under state law or the laws of any local government:

(a) Purchasing, possessing, consuming, using, ingesting, inhaling, processing, transporting, delivering without consideration, or distributing without consideration three ounces or less of dried, unprocessed marijuana, or its equivalent;

(b) Possessing, transporting, planting, cultivating, harvesting, drying, processing, or manufacturing up to six flowering marijuana plants, six nonflowering marijuana plants (over fourteen inches tall), and six clones (plants under fourteen inches tall) provided the person is registered with the department for cultivation of marijuana plants under this section, provided:

(i) The plants and any marijuana produced by the plants in excess of three ounces are kept at one private residence, are in a locked space, and are not visible by normal, unaided vision from a public place; and

(ii) Not more than twice the number of allowable plants under paragraph (b) of this subdivision are kept in or on the grounds of a private residence at one time.

(c) Assisting another person who is at least twenty-one years of age in, or allowing property to be used for, any of the acts permitted by this section; and

(2) A person who, pursuant to this section, cultivates marijuana plants that are visible by normal, unaided vision from a public place is subject to a civil penalty not exceeding two hundred and fifty dollars and forfeiture of the marijuana.

(3) A person who, pursuant to this section, cultivates marijuana plants that are not kept in a locked space is subject to a civil penalty not exceeding two hundred and fifty dollars and forfeiture of the marijuana.

(4) A person who smokes marijuana in a public place, other than in an area licensed for such activity by the authorities having jurisdiction over the licensing and/or permitting of said activity, is subject to a civil penalty not exceeding one hundred dollars.

(5) A person who is under twenty-one years of age who possesses, uses, ingests, inhales, transports, delivers without consideration or distributes without consideration three ounces or less of marijuana, or possesses, delivers without consideration, or distributes without consideration marijuana accessories is subject to a civil penalty not to exceed one hundred dollars and forfeiture of the marijuana. Any such person shall be provided the option of attending up to four hours of drug education or counseling in lieu of the fine.

(6) Subject to the limitations of this section, a person who possesses not more than twice the amount of marijuana allowed pursuant to this subsection, produces not more than twice the amount of marijuana allowed pursuant to this subsection, delivers without receiving any consideration or remuneration to a person who is at least twenty-one years of age not more than twice the amount of marijuana allowed by this subsection, or possesses with intent to deliver not more than twice the amount of marijuana allowed by this subsection:

(e) In lieu of payment, penalties under this subsection may be satisfied by the performance of community service. The rate of pay-down associated with said service option will be the greater of \$15 or the minimum wage in effect at the time of judgment.

(7) (a) Any person currently incarcerated in a prison, jail or halfway house, whether by trial or open or negotiated plea:

(i) Who would not have been guilty of an adult or juvenile offense, had sections 1 and 2 of this Article been in effect at the time of the offense; or

(ii) Who would have been guilty of a lesser adult or juvenile offense had sections 1 and 2 of this Article been in effect at the time of the offense; or

(iii) Who is serving a sentence for a marijuana offense which is a misdemeanor, a class E felony, or a class D felony, or successor designations, involving possession of three pounds or less of marijuana, excluding offenses involving distribution or delivery to a minor, any offenses involving violence, or any offense of operating a motor vehicle while under the influence of marijuana;

may petition the sentencing court to vacate the sentence, order immediate release from incarceration and other supervision by the department of corrections, and the expungement of all government records of the case. Such expungement from all government records shall be granted for all of the person's applicable marijuana offenses, absent good cause for denial. The effect of such orders shall be to restore such person to the status the person occupied prior to such arrest, plea or conviction and as if such event had never taken place, and the conviction and sentence shall be vacated as legally invalid. No person for whom such order has been entered shall be held thereafter under any provision of any law to be guilty of perjury or otherwise giving a false statement by reason of the person's failure to recite or acknowledge such arrest, plea, trial, conviction, or expungement in response to any inquiry made of the person for any purpose whatsoever, and no such inquiry shall be made for information relating to an expungement. court shall not assess any filing fee for these filings. The office of the state public defender shall prepare and make readily available and accessible a pleading form that may be filed pro se for this purpose. The circuit courts of the state shall also make readily available and accessible this pleading form. Within ninety days of the effective date of this section, the sentencing court shall complete the adjudication for all cases involving only misdemeanor marijuana offenses. Within one hundred and eighty days of the effective date of this section, the sentencing court shall complete the adjudication for all cases involving class E, or successor designation, felony marijuana offenses and, if applicable, any additional marijuana misdemeanor offenses by such offenders. Within two hundred and seventy days of the effective date of this section, the sentencing court shall complete the adjudication for all class D, or successor designation, felony cases involving three pounds or less of marijuana, as well as any lesser marijuana offenses by such offenders, if applicable. This shall not apply to offenses while operating a commercial motor vehicle as defined in 49 CFR 390.5, or its successor provisions, in interstate or intrastate transportation unless otherwise exempted as found in section 307.400, RSMo, or its successor provisions.

(b) Any person currently on probation or parole for a marijuana law violation, whether by trial or open or negotiated plea:

(i) Who would not have been guilty of an adult or juvenile offense, had sections 1 and 2 of this Article been in effect at the time of the offense; or

(ii) Who would have been guilty of a lesser adult or juvenile offense had sections 1 and 2 of this Article been in effect at the time of the offense; or

(iii) Who was convicted or plead guilty to a marijuana offense which is a misdemeanor, a class E felony, or a class D felony, or successor designations, involving the possession of three pounds or less of marijuana, excluding distribution or delivery to a minor or any offense of operating a motor vehicle while under the influence of marijuana;

shall, upon the effective date of this section, have their sentence automatically vacated by the sentencing court, which shall order the immediate termination of supervision by the department of corrections, and the expungement of all government records of the case. Such expungement from all government records shall be granted for all of the person's applicable marijuana offenses, absent good cause for denial. The effect of such orders shall be to restore such person to the status the person occupied prior to such arrest, plea or conviction and as if such event had never taken place, and the conviction and sentence shall be vacated as legally invalid. No person for whom such order has been entered shall be held thereafter under any provision of any law to be guilty of perjury or otherwise giving a false statement by reason of the person's failure to recite or acknowledge such arrest, plea, trial, conviction, or expungement in response to any inquiry made of the person for any purpose whatsoever, and no such inquiry shall be made for information relating to an expungement. This shall not apply to offenses while operating a commercial motor vehicle as defined in 49 CFR 390.5, or its successor provisions, in interstate or intrastate transportation unless otherwise exempted as found in section 307.400, RSMo, or its successor provisions.

(8) (a) Within six months of the effective date of this section, the circuit courts of this state shall order the expungement of the criminal history records of all misdemeanor marijuana offenses for any person who is no longer incarcerated or under the supervision of the department of corrections. Within twelve months of the effective date of this section, the circuit courts of this state shall order the expungement of criminal history records for all persons no longer incarcerated or under the supervision of the department of corrections but who have completed their sentence

for any felony marijuana offenses and any marijuana offenses that would no longer be a crime after the effective dates of sections 1 and 2 of this Article, excluding distribution or delivery to a minor, any such offenses involving violence, or any offense of operating a motor vehicle while under the influence of marijuana. For all class A, class B and class C, or successor designations, felony marijuana offenses, and for all class D, or successor designation, felony marijuana offenses for possession of more than three pounds of marijuana, the circuit courts of this state shall order expungement of criminal history records upon the completion of the person's incarceration, including any supervised probation or parole. For the purposes of this subdivision, "criminal history record" means all information documenting an individual's contact with the criminal justice system, including data regarding identification, arrest or citation, arraignment, judicial disposition, custody, and supervision.

(b) An expungement order shall be legally effective immediately and the person whose record is expunged shall be treated in all respects as if he or she had never been arrested, convicted, or sentenced for the offense, and the conviction and sentence shall be vacated as legally invalid. The court shall issue an order to expunge all records and files related to the arrest, citation, investigation, charge, adjudication of guilt, criminal proceedings, and probation related to the sentence. The court shall provide notice of the expungement to the person who is the subject of the record at the person's last known address, the arresting agency, prosecuting attorneys, central state depository of criminal records, and any other entity that may have a record related to the order to expunge. The central state depository of criminal records shall provide notice of the expungement to the Federal Bureau of Investigation's National Crime Information Center, or its successor agency. The court shall issue the person a certificate stating that the offense for which the person was convicted has been expunged and that its effect is to annul the record of arrest, conviction, and sentence.

(c) The effect of such expungement shall be to restore such person to the status the person occupied prior to such arrest, plea, or conviction and as if such event had never taken place. Such person shall not be required to acknowledge the existence of such a criminal history record or answer questions about the record in any application for employment, license, or civil right or privilege or in an appearance as a witness in any proceeding or hearing, and may deny the existence of the record regardless of whether the person has received notice from the court that an expungement order has been issued on the person's behalf.

(d) No person shall be prosecuted again for any offense which has been vacated or expunged.

(e) The court shall keep a special index of cases that have been expunged together with the expungement order and the certificate issued pursuant to this subsection. The index shall list only the name of the person convicted of the offense, his or her date of birth, the docket number, and the criminal offense that was the subject of the expungement. The special index and related documents shall be confidential and shall be physically and electronically segregated in a manner that ensures confidentiality and that limits access to authorized persons. The court may permit special access to the index and the documents for research purposes pursuant to the rules for public access to court records. The index and documents made available by the court may not include any identifying information.

(9) A person currently under parole, probation, or other state supervision, or released awaiting trial or other hearing, may not be punished or otherwise penalized based solely on conduct that is permitted by this section.

(10) No conduct permitted by this section shall constitute the basis for detention, search, or arrest; and except when law enforcement is investigating whether a person is operating a motor vehicle, train, aircraft, motorboat, or other motorized form of transport while under the influence of marijuana, the odor of marijuana or burnt marijuana, the possession or suspicion of possession

of marijuana without evidence of a quantity in excess of the lawful amount, or the possession of multiple containers of marijuana without evidence of quantity in excess of the lawful amount shall not individually or in combination with each other constitute reasonably articulable suspicion of a crime. Marijuana and marijuana-infused products as permitted by this section are not contraband nor subject to seizure.

(11) A person shall not be denied eligibility in public assistance programs or public benefits based solely on conduct that is permitted by this Article, unless required by federal law.

(12) No person shall be denied their rights under Article 1, section 23 of the Missouri Constitution, solely for conduct that is permitted by this section.

(13) No person shall be denied parental rights, custody of, or visitation with a minor child by a state or local government executive agency based solely on conduct that is permitted by this section, unless the person's behavior is such that it creates an unreasonable danger to a minor child that can be established by clear and convincing evidence.

11. Interstate Commerce.

If federal law, rules, or regulations are amended to allow the interstate commerce of marijuana or marijuana-infused products or the importation or exportation of marijuana or marijuana-infused products into or out of the state of Missouri, the provisions and intent of this section shall, to the extent possible, remain in full effect, unless explicitly preempted by such federal law, rule, or regulation. If federal law, rules, or regulations are amended as provided above, any marijuana or marijuana-infused products imported into this state shall be subject to the same testing standards and seed to sale tracking system required under this section for marijuana and marijuana-infused products produced within the state. Unless federal law, rules, or regulations explicitly require otherwise, no entity shall sell, transport, produce, distribute, deliver, or cultivate marijuana or marijuana-infused products without an applicable license or certificate as required under this section. In addition, any raw biomass of marijuana or marijuana flower imported from out-of-state shall be received only by a licensed cultivation facility, while all batch oil, infused marijuana products and any marijuana product in any other form shall be received only by a licensed manufacturing facility.

12. Severability.

The provisions of this section are severable, and if any clause, sentence, paragraph or section of this measure, or an application thereof, is adjudged invalid by any court of competent jurisdiction, the other provisions shall continue to be in effect to the fullest extent possible.

13. Effective Date.

The provisions of this section shall become effective thirty days after the election, as provided by this Constitution.

as sections 60.301, 60.315, 60.345, 135.305, 135.686, 135.755, 135.775, 135.778, 135.1610, 137.1018, 144.030, 275.357, 301.010, 301.062, 304.180, 304.240, 348.436, 348.491, 348.493, 348.500, 643.050, 643.079, and 643.245, to read as follows:

60.301. DEFINITIONS.— Whenever the following words and terms are used in this chapter they shall have the following meaning unless the context clearly indicates that a different meaning is intended:

(1) "Corners of the United States public land survey", those points that determine the boundaries of the various subdivisions represented on the official plat such as the township corner, the section corner, the quarter-section corner, grant corner ~~and~~, meander corner, **and center of section**;

(2) "Existent corner", a corner whose position can be identified by verifying the evidence of the original monument or its accessories, or by some physical evidence described in the field notes, or located by an acceptable supplemental survey record or some physical evidence thereof, or by testimony. The physical evidence of a corner may have been entirely obliterated but the corner will be considered existent if its position can be recovered through the testimony of one or more witnesses who have a dependable knowledge of the original location. A legally reestablished corner shall have the same status as an existent corner;

(3) "Lost corner", a corner whose position cannot be determined, beyond reasonable doubt, either from traces of the original marks or from acceptable evidence or testimony that bears upon the original position;

(4) "Monument", the physical object which marks the corner point determined by the surveying process. The accessories, such as bearing trees, bearing objects, reference monuments, mounds of stone and other similar objects that aid in identifying the corner position, are also considered a part of a corner monument;

(5) "Obliterated, decayed or destroyed corner", ~~[an-existent corner]~~ **a position** at whose point there are no remaining traces of the original monument or its accessories, but whose location has been perpetuated by subsequent surveys, or the point may be recovered beyond reasonable doubt by the acts and testimony of local residents, competent surveyors, other qualified local authorities or witnesses, or by some acceptable record evidence. A position that depends upon the use of collateral evidence can be accepted only if duly supported, generally through proper relation to known corners, and agreement with the field notes regarding distances to natural objects, stream crossings, line trees, etc., or unquestionable testimony;

(6) "Original government survey", that survey executed under the authority of the United States government as recorded on the official plats and field notes of the United States public land survey maintained by the Missouri department of agriculture;

(7) "Proportionate measurement", a measurement of a line that gives equal relative weight to all parts of the line. The excess or deficiency between two existent corners is so distributed that the amount of excess or deficiency given to

EXPLANATION--Matter enclosed in bold-faced brackets [thus] is not enacted and is intended to be omitted in the law.
Matter in bold-face type is proposed language.

each interval bears the same proportion to the whole difference as the record length of the interval bears to the whole record distance:

(a) "Single proportionate measurement", a measurement of a line applied to a new measurement made between known points on a line to determine one or more positions on that line;

(b) "Double proportionate measurement", a measurement applied to a new measurement made between four known corners, two each on intersecting meridional and latitudinal lines, for the purpose of relating the intersection to both. ~~[The procedure is described as follows: first, measurements will be made between the nearest existent corners north and south of the lost corner. A temporary point will be determined to locate the latitude of the lost corner on the straight line connecting the existent corners and at the proper proportionate distance. Second, measurements will be made between the nearest existent corners east and west of the lost corner. A temporary point will be determined to locate the longitude of the lost corner on the straight line connecting the existent corners and at the proportionate distance. Third, determine the location of the lost corner at the intersection of an east-west line through the point determining the latitude of the lost corner with a north-south line through the point determining the longitude of the lost corner.]~~ When the total length of the line between the nearest existing corners was not measured in the original government survey, the record distance from one existing corner to the lost corner will be used instead of the proportionate distance. This exception will apply to either or both of the east-west or north-south lines;

(8) "Record distance", the distance or length as shown on the original government survey. In determining record distances, consideration shall be given as to whether the distance was measured on a random or true line.

60.315. LOST CORNERS REESTABLISHMENT — RULES. — The following rules for the reestablishment of lost corners shall be applied only when it is determined that the corner is lost: (The rules utilize proportional measurement which harmonizes surveying practice with legal and equitable considerations. This plan of relocating a lost corner is always employed unless it can be shown that the corner so located is in substantial disagreement with the general scheme of the original government survey as monumented. In such cases the surveyor shall use procedures that produce results consistent with the original survey of that township.)

(1) Existent original corners shall not be disturbed. Consequently, discrepancies between the new and record measurements shall not in any manner affect the measurements beyond the existent corners; but the differences shall be distributed proportionately within the several intervals along the line between the corners;

(2) Standard parallels shall be given precedence over other township exteriors, and, ordinarily, the latter shall be given precedence over subdivisional lines; section

corners shall be located or reestablished before the position of lost quarter-section corners can be determined;

(3) Lost township corners common to four townships shall be reestablished by double proportionate measurement between the nearest existent corners on opposite sides of the lost township corner;

(4) Lost township corners located on standard parallels and common only to two townships shall be reestablished by single proportionate measurement between the nearest existent corners on opposite sides of the lost township corner on the standard parallel;

(5) ~~[Lost standard corners shall be reestablished on a standard or correction line by single proportionate measurement on the line connecting the nearest identified standard or closing corners on opposite sides of the lost corner or corners, as the case may be;~~

~~(6) All lost section and quarter section corners on the township boundary lines shall be reestablished by single proportionate measurement between the nearest existent corners on opposite sides of the lost corner according to the conditions represented upon the original government plat;~~

(7) Lost corners on township exteriors, excluding corners referenced in subdivision (3) of this section, whether they are standard or closing corners, shall be reestablished by single proportionate measurement on the line connecting the next nearest existent standard or closing corner on opposite sides of the lost corner;

(6) A lost interior corner of four sections shall be reestablished by double proportionate measurement;

~~[(8) A lost closing corner shall be reestablished on the true line that was closed upon, and at the proper proportional interval between the nearest existent corners on opposite sides of the lost corner;~~

~~(9)~~ (7) All lost quarter-section corners on the section boundaries within the township shall be reestablished by single proportionate measurement between the adjoining section corners, after the section corners have been identified or reestablished; and

~~[(10)]~~ (8) Where a line has been terminated with a measurement in one direction only, a lost corner shall be reestablished by record bearing and distance, counting from the nearest regular corner, the latter having been duly identified or reestablished.

60.345. CORNERS OF QUARTER-SECTIONS SOUTH OF TOWNSHIP LINE, EAST OF RANGE LINE, HOW ESTABLISHED. — The quarter-section corners of sections south of the township line and east of the range line, and not established by the original government survey will be established according to the conditions represented upon the official government plat using **single** proportionate measurement between the ~~[adjoining]~~ section corners belonging to the same section as the quarter-section

corner being established, the section corners having first been identified or reestablished. **The proportional position shall be offset, if necessary, in a cardinal direction to the true line defined by the nearest adjacent corners on opposite sides of the quarter-section corner to be established.**

135.305. ELIGIBILITY — AMOUNT OF TAX CREDIT. — A Missouri wood energy producer shall be eligible for a tax credit on taxes otherwise due under chapter 143, except sections 143.191 to 143.261, as a production incentive to produce processed wood products in a qualified wood-producing facility using Missouri forest product residue. The tax credit to the wood energy producer shall be five dollars per ton of processed material. The credit may be claimed for a period of five years and is to be a tax credit against the tax otherwise due. No new tax credits, provided for under sections 135.300 to 135.311, shall be authorized after June 30, ~~[2020]~~ **2028**. In no event shall the aggregate amount of all tax credits allowed under sections 135.300 to 135.311 exceed six million dollars in any given fiscal year. 2. There are also specifically exempted from the provisions of the local sales tax law as defined in section 32.085, section 238.235, and sections 144.010 to 144.525 and 144.600 to 144.761 and from the computation of the tax levied, assessed or payable pursuant to the local sales tax law as defined in section 32.085, section 238.235, and sections 144.010 to 144.525 and 144.600 to 144.745:

(1) Motor fuel or special fuel subject to an excise tax of this state, unless all or part of such excise tax is refunded pursuant to section 142.824; or upon the sale at retail of fuel to be consumed in manufacturing or creating gas, power, steam, electrical current or in furnishing water to be sold ultimately at retail; or feed for livestock or poultry; or grain to be converted into foodstuffs which are to be sold ultimately in processed form at retail; or seed, limestone or fertilizer which is to be used for seeding, liming or fertilizing crops which when harvested will be sold at

(2) Materials, manufactured goods, machinery and parts which when used in manufacturing, processing, compounding, mining, producing or fabricating become a component part or ingredient of the new personal property resulting from such manufacturing, processing, compounding, mining, producing or fabricating and which new personal property is intended to be sold ultimately for final use or consumption; and materials, including without limitation, gases and manufactured goods, including without limitation slagging materials and firebrick, which are ultimately consumed in the manufacturing process by blending, reacting or interacting with or by becoming, in whole or in part, component parts or ingredients of steel products intended to be sold ultimately for final use or consumption;

(3) Materials, replacement parts and equipment purchased for use directly upon, and for the repair and maintenance or manufacture of, motor vehicles, watercraft, railroad rolling stock or aircraft engaged as common carriers of persons or property;

(4) Replacement machinery, equipment, and parts and the materials and supplies solely required for the installation or construction of such replacement machinery, equipment, and parts, used directly in manufacturing, mining, fabricating or producing a product which is intended to be sold ultimately for final use or consumption; and machinery and equipment, and the materials and supplies required solely for the operation, installation or construction of such machinery and equipment, purchased and used to establish new, or to replace or expand existing, material recovery processing plants in this state. For the purposes of this subdivision, a "material recovery processing plant" means a facility that has as its primary purpose the recovery of materials into a usable product or a different form which is used in producing a new product and shall include a facility or equipment which are used exclusively for the collection of recovered materials for delivery to a material recovery processing plant but shall not include motor vehicles used on highways. For purposes of this section, the terms motor vehicle and highway shall have the same meaning pursuant to section 301.010. For the purposes of this subdivision, subdivision (5) of this subsection, and section 144.054, as well as the definition in subdivision (9) of subsection 1 of section 144.010, the term "product" includes telecommunications services and the term "manufacturing" shall include the production, or production and transmission, of telecommunications services. The preceding sentence does not make a substantive change in the law and is

intended to clarify that the term "manufacturing" has included and continues to include the production and transmission of "telecommunications services", as enacted in this subdivision and subdivision (5) of this subsection, as well as the definition in subdivision (9) of subsection 1 of section 144.010. The preceding two sentences reaffirm legislative intent consistent with the interpretation of this subdivision and subdivision (5) of this subsection in *Southwestern Bell Tel. Co. v. Director of Revenue*, 78 S.W.3d 763 (Mo. banc 2002) and *Southwestern Bell Tel. Co. v. Director of Revenue*, 182 S.W.3d 226 (Mo. banc 2005), and accordingly abrogates the Missouri supreme court's interpretation of those exemptions in *IBM Corporation v. Director of Revenue*, 491 S.W.3d 535 (Mo. banc 2016) to the extent inconsistent with this section and *Southwestern Bell Tel. Co. v. Director of Revenue*, 78 S.W.3d 763 (Mo. banc 2002) and *Southwestern Bell Tel. Co. v. Director of Revenue*, 182 S.W.3d 226 (Mo. banc 2005). The construction and application of this subdivision as expressed by the Missouri supreme court in *DST Systems, Inc. v. Director of Revenue*, 43 S.W.3d 799 (Mo. banc 2001); *Southwestern Bell Tel. Co. v. Director of Revenue*, 78 S.W.3d 763 (Mo. banc 2002); and *Southwestern Bell Tel. Co. v. Director of Revenue*, 182 S.W.3d 226 (Mo. banc 2005), is hereby affirmed. Material recovery is not the reuse of materials within a manufacturing process or the use of a product previously recovered. The material recovery processing plant shall qualify under the provisions of this section regardless of ownership of the material being recovered;

(5) Machinery and equipment, and parts and the materials and supplies solely required for the installation or construction of such machinery and equipment, purchased and used to establish new or to expand existing manufacturing, mining or fabricating plants in the state if such machinery and equipment is used directly in manufacturing, mining or fabricating a product which is intended to be sold ultimately for final use or consumption. The construction and application of this subdivision as expressed by the Missouri supreme court in *DST Systems, Inc. v. Director of Revenue*, 43 S.W.3d 799 (Mo. banc 2001); *Southwestern Bell Tel. Co. v. Director of Revenue*, 78 S.W.3d 763 (Mo. banc 2002); and *Southwestern Bell Tel. Co. v. Director of Revenue*, 182 S.W.3d 226 (Mo. banc 2005), is hereby affirmed;

There shall be a rebuttable presumption that the raw materials used in the primary manufacture of automobiles contain at least twenty-five percent recovered materials. For purposes of this subdivision, "processing" means any mode of treatment, act or series of acts performed upon materials to transform and reduce them to a different state or thing, including treatment necessary to maintain or preserve such processing by the producer at the production facility;

provided further that nothing in this subdivision shall exempt from tax any amounts retained by any private person, firm, or corporation under such revenue-sharing agreement;

Notwithstanding the above table, two consecutive sets of tandem axles may carry a gross load of thirty-four thousand pounds each if the overall distance between the first and last axles of such consecutive sets of tandem axles is thirty-six feet or more.

4. Whenever the state highways and transportation commission finds that any state highway bridge in the state is in such a condition that use of such bridge by vehicles of the weights specified in subsection 3 of this section will endanger the bridge, or the users of the bridge, the commission may establish maximum weight limits and speed limits for vehicles using such bridge. The governing body of any city or county may grant authority by act or ordinance to the commission to enact the limitations established in this section on those roadways within the purview of such city or county. Notice of the weight limits and speed limits established by the commission shall be given by posting signs at a conspicuous place at each end of any such bridge.

5. Nothing in this section shall be construed as permitting lawful axle loads, tandem axle loads or gross loads in excess of those permitted under the provisions of P.L. 97-424 codified in Title 23 of the United States Code (23 U.S.C. Section 101, et al.), as amended.

Notwithstanding the provisions of section 301.133, cranes, concrete pump trucks, or well-drillers' equipment may be operated on state-maintained roads and highways at any time on any day.

8. Notwithstanding the provision of this section to the contrary, the maximum gross vehicle limit and axle weight limit for any vehicle or combination of vehicles equipped with an idle reduction technology may be increased by a quantity necessary to compensate for the additional weight of the idle reduction system as provided for in 23 U.S.C. Section 127, as amended. In no case shall the additional weight increase allowed by this subsection be greater than five hundred fifty pounds. Upon request by an appropriate law enforcement officer, the vehicle operator shall provide proof that the idle reduction technology is fully functional at all times and that the gross weight increase is not used for any purpose other than for the use of idle reduction technology.

9. Notwithstanding any provision of this section or any other law to the contrary, the total gross weight of any vehicle or combination of vehicles hauling milk from a farm to a processing facility or livestock may be as much as, but shall not exceed, eighty-five thousand five hundred pounds while operating on highways other than the interstate highway system. The provisions of this subsection shall not apply to vehicles operated and operating on the Dwight D. Eisenhower System of Interstate and Defense Highways.

11. Notwithstanding any provision of this section or any other law to the contrary, the commission shall issue emergency utility response permits for the transporting of utility wires or cables, poles, and equipment needed for repair work immediately following a disaster where utility service has been disrupted. Under exigent circumstances, verbal approval of such operation may be made either by the department of transportation motor carrier compliance supervisor or other

designated motor carrier services representative. Utility vehicles and equipment used to assist utility companies granted special permits under this subsection may be operated and transported on state-maintained roads and highways at any time on any day. The commission shall promulgate all necessary rules and regulations for the administration of this section. Any rule or portion of a rule, as that term is defined in section 536.010, that is created under the authority delegated in this section shall become effective only if it complies with and is subject to all of the provisions of chapter 536 and, if applicable, section 536.028. This section and chapter 536 are nonseverable and if any of the powers vested with the general assembly pursuant to chapter 536 to review, to delay the effective date, or to disapprove and annul a rule are subsequently held unconstitutional, then the grant of rulemaking authority and any rule proposed or adopted after August 28, 2014, shall be invalid and void.

In no event shall the maximum gross vehicle weight of the vehicle operating with a natural gas engine exceed eighty-two thousand pounds.

14. Notwithstanding any provision of law to the contrary, local log trucks and local log truck tractors, as defined in section 301.010, may be operated with a weight not exceeding twenty-two thousand four hundred pounds on one axle or a weight not exceeding forty-four thousand eight hundred pounds on any tandem axle, except the front steering axle shall not exceed fifteen thousand pounds or the gross vehicle weight rating set by the manufacturer, and may have a total weight of up to one hundred five thousand pounds. Provided however, when operating on the national system of interstate and defense highways described in 23 U.S.C. Section 103, as amended, or outside the radius from the forested site specified in section 301.010 with an extended distance local log truck permit, the vehicle shall not exceed the weight limits otherwise specified in this section.

(4) "Specialty crop", fruits and vegetables, tree nuts, dried fruits, and horticulture and nursery crops including, but not limited to, floriculture. "Specialty crop" shall not include medical marijuana or industrial hemp.

3. The authority shall establish a specialty agricultural crops loan program for family farmers for the purchase of specialty crop seeds, seedlings, or trees; soil amendments including compost; irrigation equipment; fencing; row covers; trellising; season extension equipment; refrigeration equipment; and equipment for planting and harvesting.

4. To participate in the loan program, a family farmer shall first obtain approval for a specialty agricultural crops loan from a lender. Each family farmer shall be eligible for only one specialty agricultural crops loan per family.

5. The maximum amount of the specialty agricultural crops loan for specialty crop producers shall be thirty-five thousand dollars.

6. Eligible borrowers under the program:

(1) Shall use the proceeds of the specialty agricultural crops loan to acquire the farming resources described in subsection 3 of this section;

(2) Shall not finance more than ninety percent of the anticipated cost of the purchase of such farming resources through the specialty agricultural crops loan; and

(3) Shall not be charged interest by the lender for the first year of the qualified specialty agricultural crops loan.

7. Upon approval of the specialty agricultural crops loan by a lender under subsection 4 of this section, the loan shall be submitted for approval by the authority. The authority shall promulgate rules establishing eligibility under this section, taking into consideration:

(1) The eligible borrower's ability to repay the specialty agricultural crops loan;

(2) The general economic conditions of the area in which the farm is located;

(3) The prospect of a financial return for the family farmer for the type of farming resource for which the specialty agricultural crops loan is sought; and

(4) Such other factors as the authority may establish.

8. For eligible borrowers participating in the program, the authority shall be responsible for reviewing the purchase price of any farming resources to be purchased by an eligible borrower under the program to determine whether the price to be paid is appropriate for the type of farming resources purchased. The authority may impose a one-time loan review fee of one percent, which shall be collected by the lender at the time of the loan and paid to the authority.

9. Nothing in this section shall be construed to preclude a family farmer from participating in any other agricultural program.

10. Any rule or portion of a rule, as that term is defined in section 536.010, that is created under the authority delegated in this section shall become effective only if it complies with and is subject to all of the provisions of chapter 536 and, if applicable, section 536.028. This section and chapter 536 are nonseverable and if any of the powers vested with the general assembly pursuant to chapter 536 to review, to delay the effective date, or to disapprove and annul a rule are subsequently held unconstitutional, then the grant of rulemaking authority and any rule proposed or adopted after the effective date of this section shall be invalid and void.

11. Under section 23.253 of the Missouri sunset act:

(1) The provisions of the new program authorized under this section shall automatically sunset on December 31, 2028, unless reauthorized by an act of the general assembly; and

(2) If such program is reauthorized, the program authorized under this section shall automatically sunset twelve years after the effective date of the reauthorization of this section; and

(3) This section shall terminate on September first of the calendar year immediately following the calendar year in which the program authorized under this section is sunset.

348.493. PROGRAM LENDERS — TAX CREDIT, AMOUNT — CERTIFICATE OF TAX CREDIT, ISSUANCE OF, WHEN — TAX CREDIT REQUIREMENTS — SUNSET PROVISION. — 1. As used in this section, "state tax liability" means any state tax liability incurred by a taxpayer under the provisions of chapter 143, 147, or 148, exclusive of the provisions relating to the withholding of tax as provided for in sections 143.191 to 143.265 and related provisions.

2. Any eligible lender under the specialty agricultural crops loan program under section 348.491 shall be entitled to receive a tax credit equal to one hundred percent of the amount of interest waived by the lender under section 348.491 on a qualifying loan for the first year of the loan only. The tax credit shall be evidenced by a certificate of tax credit issued by the Missouri agricultural and small business development authority and may be used to satisfy the state tax liability of the owner of such certificate that becomes due in the tax year in which the interest on a qualified loan is waived by the lender under section 348.491. No lender shall receive a tax credit under this section unless such lender presents a certificate of tax credit to the department of revenue for payment of such state tax liability. The amount of the tax credits that may be issued to all eligible lenders claiming tax credits authorized in this section in a fiscal year shall not exceed three hundred thousand dollars.

3. The Missouri agricultural and small business development authority shall be responsible for the administration and issuance of the certificate of tax credits authorized by this section. The authority shall issue a certificate of tax

credit at the request of any lender. Each request shall include a true copy of the loan documents, the name of the lender who is to receive a certificate of tax credit, the type of state tax liability against which the tax credit is to be used, and the amount of the certificate of tax credit to be issued to the lender based on the interest waived by the lender under section 348.491 on the loan for the first year.

4. The department of revenue shall accept a certificate of tax credit in lieu of other payment in such amount as is equal to the lesser of the amount of the tax or the remaining unused amount of the credit as indicated on the certificate of tax credit and shall indicate on the certificate of tax credit the amount of tax thereby paid and the date of such payment.

5. The following provisions shall apply to tax credits authorized under this section:

(1) Tax credits claimed in a tax year may be claimed on a quarterly basis and applied to the estimated quarterly tax of the lender;

(2) Any amount of tax credit that exceeds the tax due, including any estimated quarterly taxes paid by the lender under subdivision (1) of this subsection that result in an overpayment of taxes for a tax year, shall not be refunded but may be carried over to any subsequent tax year, not to exceed a total of three years for which a tax credit may be taken for a qualified specialty agricultural crops loan;

(3) Notwithstanding any provision of law to the contrary, a lender may assign, transfer, sell, or otherwise convey tax credits authorized under this section, with the new owner of the tax credit receiving the same rights in the tax credit as the lender. For any tax credits assigned, transferred, sold, or otherwise conveyed, a notarized endorsement shall be filed by the lender with the authority specifying the name and address of the new owner of the tax credit and the value of such tax credit; and

(4) Notwithstanding any other provision of this section to the contrary, any commercial bank may use tax credits created under this section as provided in section 148.064 and receive a net tax credit against taxes actually paid in the amount of the first year's interest on loans made under this section. If such first year tax credits reduce taxes due as provided in section 148.064 to zero, the remaining tax credits may be carried over as otherwise provided in this section and used as provided in section 148.064 in subsequent years.

6. Under section 23.253 of the Missouri sunset act:

(1) The provisions of the new program authorized under this section shall automatically sunset on December 31, 2028, unless reauthorized by an act of the general assembly; and

(2) If such program is reauthorized, the program authorized under this section shall automatically sunset twelve years after the effective date of the reauthorization of this section; and

(3) This section shall terminate on September first of the calendar year immediately following the calendar year in which the program authorized under this section is sunset.

(3) (a) To require persons engaged in operations which result in air pollution to monitor or test emissions and to file reports containing information relating to rate, period of emission and composition of effluent;

(b) Require submission to the director for approval of plans and specifications for any article, machine, equipment, device, or other contrivance specified by regulation the use of which may cause or control the issuance of air contaminants;

but any person responsible for complying with the standards established under sections 643.010 to 643.355 shall determine, unless found by the director to be inadequate, the means, methods, processes, equipment and operation to meet the established standards;

In making its orders and determinations hereunder, the commission shall exercise a sound discretion in weighing the equities involved and the advantages and disadvantages to the person involved and to those affected by air contaminants emitted by such person as set out in section 643.030. If any small business, as defined by section 643.020, requests information on what would constitute compliance with the requirements of sections 643.010 to 643.355 or any order or determination of the department or commission, the department shall respond with written criteria to inform the small business of the actions necessary for compliance. No enforcement action shall be undertaken by the department or commission until the small business has had a period of time, negotiated with the department, to achieve compliance;

The results of any such investigation shall be reduced to writing, and a copy thereof shall be furnished to the owner or operator of the property. No person shall refuse entry or access, requested for purposes of inspection under this provision, to an authorized representative of the department who presents appropriate credentials, nor obstruct or hamper the representative in carrying out the inspection. A suitably restricted search warrant, upon a showing of probable cause in writing and upon oath, shall be issued by any judge having jurisdiction to any such representative for the purpose of enabling him to make such inspection;

(9) Secure necessary scientific, technical, administrative and operational services, including laboratory facilities, by contract or otherwise, with any educational institution, experiment station, or any board, department, or other agency of any political subdivision or state or the federal government;

(10) Classify and identify air contaminants; and

(11) Hold public hearings as required by sections 643.010 to 643.355.

2. No rule or portion of a rule promulgated under the authority of this chapter shall become effective unless it has been promulgated pursuant to the provisions of section 536.024.

3. The commission shall have the following duties with respect to the prevention, abatement and control of air pollution:

(1) Prepare and develop a general comprehensive plan for the prevention, abatement and control of air pollution;

(2) Encourage voluntary cooperation by persons or affected groups to achieve the purposes of sections 643.010 to 643.355;

5. Any information relating to secret processes or methods of manufacture or production discovered through any communication required under this section shall be kept confidential.

643.079. FEES, AMOUNT — DEPOSIT OF MONEYS, WHERE, SUBACCOUNT TO BE MAINTAINED — CIVIL ACTION FOR FAILURE TO REMIT FEES, EFFECT UPON PERMIT — AGENCIES, DETERMINATION OF FEES — FEE STRUCTURE REVISION. — 1. Any air contaminant source required to obtain a permit issued under sections 643.010 to 643.355 shall pay annually beginning April 1, 1993, a fee as provided herein. For the first year the fee shall be twenty-five dollars per ton of each regulated air contaminant emitted. Thereafter, the fee shall be set every three years by the

commission by rule and shall be at least twenty-five dollars per ton of regulated air contaminant emitted but not more than forty dollars per ton of regulated air contaminant emitted in the previous calendar year. If necessary, the commission may make annual adjustments to the fee by rule. The fee shall be set at an amount consistent with the need to fund the reasonable cost of administering sections 643.010 to 643.355, taking into account other moneys received pursuant to sections 643.010 to 643.355. For the purpose of determining the amount of air contaminant emissions on which the fees authorized under this section are assessed, a facility shall be considered one source ~~[under the definition of]~~ **as described in** subsection 2 of section 643.078, except that a facility with multiple operating permits shall pay the emission fees authorized under this section separately for air contaminants emitted under each individual permit.

2. A source which produces charcoal from wood shall pay an annual emission fee under this subsection in lieu of the fee established in subsection 1 of this section. The fee shall be based upon a maximum fee of twenty-five dollars per ton and applied upon each ton of regulated air contaminant emitted for the first four thousand tons of each contaminant emitted in the amount established by the commission pursuant to subsection 1 of this section, reduced according to the following schedule:

(1) For fees payable under this subsection in the years 1993 and 1994, the fee shall be reduced by one hundred percent;

(2) For fees payable under this subsection in the years 1995, 1996 and 1997, the fee shall be reduced by eighty percent;

(3) For fees payable under this subsection in the years 1998, 1999 and 2000, the fee shall be reduced by sixty percent.

3. The fees imposed in subsection 2 of this section shall not be imposed or collected after the year 2000 unless the general assembly reimposes the fee.

4. Each air contaminant source with a permit issued under sections 643.010 to 643.355 shall pay the fee for the first four thousand tons of each regulated air contaminant emitted each year but no air contaminant source shall pay fees on total emissions of regulated air contaminants in excess of twelve thousand tons in any calendar year. A permitted air contaminant source which emitted less than one ton of all regulated pollutants shall pay a fee equal to the amount per ton set by the commission. An air contaminant source which pays emission fees to a holder of a certificate of authority issued pursuant to section 643.140 may deduct such fees from any amount due under this section. The fees imposed in this section shall not be applied to carbon oxide emissions. The fees imposed in subsection 1 **of this section** and this subsection shall not be applied to sulfur dioxide emissions from any Phase I affected unit subject to the requirements of Title IV, Section 404, of the federal Clean Air Act, as amended, 42 U.S.C. Section 7651 [5] et seq., any sooner than January 1, 2000. The fees imposed on emissions from Phase I affected units shall be consistent with and shall not exceed the provisions of the federal Clean Air

Act, as amended, and the regulations promulgated thereunder. Any such fee on emissions from any Phase I affected unit shall be reduced by the amount of the service fee paid by that Phase I affected unit pursuant to subsection 8 of this section in that year. Any fees that may be imposed on Phase I sources shall follow the procedures set forth in subsection 1 **of this section** and this subsection and shall not be applied retroactively.

5. Moneys collected under this section shall be transmitted to the director of revenue for deposit in appropriate subaccounts of the natural resources protection fund created in section 640.220. A subaccount shall be maintained for fees paid by air contaminant sources which are required to be permitted under Title V of the federal Clean Air Act, as amended, 42 U.S.C. Section 7661 [;] et seq., and used, upon appropriation, to fund activities by the department to implement the operating permits program authorized by Title V of the federal Clean Air Act, as amended. Another subaccount shall be maintained for fees paid by air contaminant sources which are not required to be permitted under Title V of the federal Clean Air Act as amended, and used, upon appropriation, to fund other air pollution control program activities. Another subaccount shall be maintained for service fees paid under subsection 8 of this section by Phase I affected units which are subject to the requirements of Title IV, Section 404, of the federal Clean Air Act Amendments of 1990 (**42 U.S.C. Section 7651c**), as amended, [~~42 U.S.C. Section 7651,~~] and used, upon appropriation, to fund air pollution control program activities. The provisions of section 33.080 to the contrary notwithstanding, moneys in the fund shall not revert to general revenue at the end of each biennium. Interest earned by moneys in the subaccounts shall be retained in the subaccounts. The per-ton fees established under subsection 1 of this section may be adjusted annually, consistent with the need to fund the reasonable costs of the program, but shall not be less than twenty-five dollars per ton of regulated air contaminant nor more than forty dollars per ton of regulated air contaminant. The first adjustment shall apply to moneys payable on April 1, 1994, and shall be based upon the general price level for the twelve-month period ending on August thirty-first of the previous calendar year.

6. The department may initiate a civil action in circuit court against any air contaminant source which has not remitted the appropriate fees within thirty days. In any judgment against the source, the department shall be awarded interest at a rate determined pursuant to section 408.030 and reasonable attorney's fees. In any judgment against the department, the source shall be awarded reasonable attorney's fees.

7. The department shall not suspend or revoke a permit for an air contaminant source solely because the source has not submitted the fees pursuant to this section.

8. Any Phase I affected unit which is subject to the requirements of Title IV, Section 404, of the federal Clean Air Act **Amendments of 1990 (42 U.S.C. Section 7651c)**, as amended, [~~42 U.S.C. Section 7651,~~] shall pay annually beginning April 1, 1993, and terminating December 31, 1999, a service fee for the

previous calendar year as provided herein. For the first year, the service fee shall be twenty-five thousand dollars for each Phase I affected generating unit to help fund the administration of sections 643.010 to 643.355. Thereafter, the service fee shall be annually set by the commission by rule, following public hearing, based on an annual allocation prepared by the department showing the details of all costs and expenses upon which such fees are based consistent with the department's reasonable needs to administer and implement sections 643.010 to 643.355 and to fulfill its responsibilities with respect to Phase I affected units, but such service fee shall not exceed twenty-five thousand dollars per generating unit. Any such Phase I affected unit which is located on one or more contiguous tracts of land with any Phase II generating unit that pays fees under subsection 1 or subsection 2 of this section shall be exempt from paying service fees under this subsection. A "contiguous tract of land" shall be defined to mean adjacent land, excluding public roads, highways and railroads, which is under the control of or owned by the permit holder and operated as a single enterprise.

9. The department of natural resources shall determine the fees due pursuant to this section by the state of Missouri and its departments, agencies and institutions, including two- and four-year institutions of higher education. The director of the department of natural resources shall forward the various totals due to the joint committee on capital improvements and the directors of the individual departments, agencies and institutions. The departments, as part of the budget process, shall annually request by specific line item appropriation funds to pay said fees and capital funding for projects determined to significantly improve air quality. If the general assembly fails to appropriate funds for emissions fees as specifically requested, the departments, agencies and institutions shall pay said fees from other sources of revenue or funds available. The state of Missouri and its departments, agencies and institutions may receive assistance from the small business technical assistance program established pursuant to section 643.173.

10. **Each retail agricultural facility that uses, stores, or sells anhydrous ammonia that is an air contaminant source subject to the risk management plan under 42 U.S.C. Section 7412(r), as amended, shall pay an annual registration fee of two hundred dollars. In addition, each retail agricultural facility that uses, stores, or sells anhydrous ammonia shall pay an annual tonnage fee calculated on the number of tons of anhydrous ammonia sold. The initial retail tonnage fee shall be set at one dollar and twenty-five cents per ton of anhydrous ammonia used or sold. Each distributor or terminal agricultural facility that uses, stores, or sells anhydrous ammonia that is an air contaminant source subject to the risk management plan program 3 under 40 CFR Part 68 shall pay an annual registration fee of five thousand dollars and shall not pay a tonnage fee. The annual registration fees and tonnage fee may be periodically revised under subsection 11 of this section. However, the fees collected shall be used exclusively for the purposes of administering the**

provisions of 42 U.S.C. Section 7412(r), as amended, for such agricultural facilities. Fees paid by agricultural air contaminant sources that use, store, or sell anhydrous ammonia for the purposes of implementing the requirements of 42 U.S.C. Section 7412(r), as amended, shall be deposited into the anhydrous ammonia risk management plan subaccount within the natural resources protection fund created in section 643.245. If the funding exceeds the reasonable costs to administer the programs as set forth in this section, the department of natural resources shall reduce fees for all registrants if the fees derived exceed the reasonable cost of administering the risk management plan under 42 U.S.C. Section 7412(r), as amended.

11. Notwithstanding any statutory fee amounts or maximums to the contrary, the department of natural resources may conduct a comprehensive review and propose changes to the fee structure authorized by sections 643.073, 643.075, 643.079, 643.225, 643.228, 643.232, 643.237, and 643.242 after holding stakeholder meetings in order to solicit stakeholder input from each of the following groups: the asbestos industry, electric utilities, mineral and metallic mining and processing facilities, cement kiln representatives, and any other interested industrial or business entities or interested parties. The department shall submit a proposed fee structure with stakeholder agreement to the air conservation commission. The commission shall review such recommendations at the forthcoming regular or special meeting, but shall not vote on the fee structure until a subsequent meeting. If the commission approves, by vote of two-thirds majority or five of seven commissioners, the fee structure recommendations, the commission shall authorize the department to file a notice of proposed rulemaking containing the recommended fee structure, and after considering public comments, may authorize the department to file the order of rulemaking for such rule with the joint committee on administrative rules pursuant to sections 536.021 and 536.024 no later than December first of the same year. If such rules are not disapproved by the general assembly in the manner set out below, they shall take effect on January first of the following calendar year and the previous fee structure shall expire upon the effective date of the commission-adopted fee structure. Any regulation promulgated under this subsection shall be deemed to be beyond the scope and authority provided in this subsection, or detrimental to permit applicants, if the general assembly, within the first sixty calendar days of the regular session immediately following the filing of such regulation, by concurrent resolution disapproves the regulation by concurrent resolution. If the general assembly so disapproves any regulation filed under this subsection, the commission shall continue to use the previous fee structure. The authority of the commission to further revise the fee structure as provided by this subsection shall expire on August 28, 2024.

Any unexpended balance in such fund at the end of any appropriation period shall not be transferred to the general revenue fund of the state treasury and shall be exempt from the provisions of section 33.080.

3. The state treasurer, with the approval of the board of fund commissioners, is authorized to deposit all of the moneys in any of the qualified state depositories. All such deposits shall be secured in such manner and shall be made upon such terms and conditions as are now and may hereafter be approved by law relative to state deposits.
